Equal opportunities for all

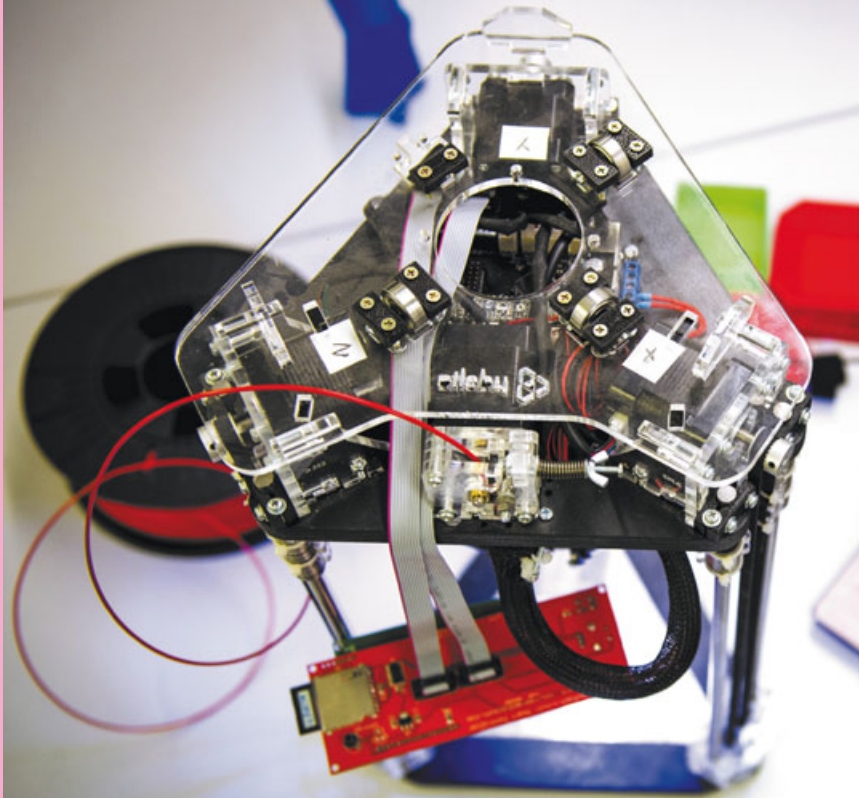

Laura,
student and a regular at
the Solidarity FabLab
in Bordeaux

A photograph showing a man with glasses and a dark shirt leaning over a computer monitor, looking at the screen. A woman with braided hair is also looking at the monitor, smiling. The background is slightly blurred, showing other people in a workshop or classroom setting.

Digital education our priority

Digital technology is essential for everyone, both in today's world and the future. That is why we are taking action to help those who do not have access to it. Our special focus is on supporting young people who are struggling at school or have no professional qualifications, as well as women in disadvantaged situations.

**Digital technology
should be
an opportunity
for everyone!**

The digital solidarity foundation in 30 countries

8,000
young people trained
on digital technology in France

8,000 women
trained on digital technology
in France and Africa

500 digital schools
in 8 African countries

4,000
people with autism
learning with digital technology

8,000
employee volunteers

Digital education

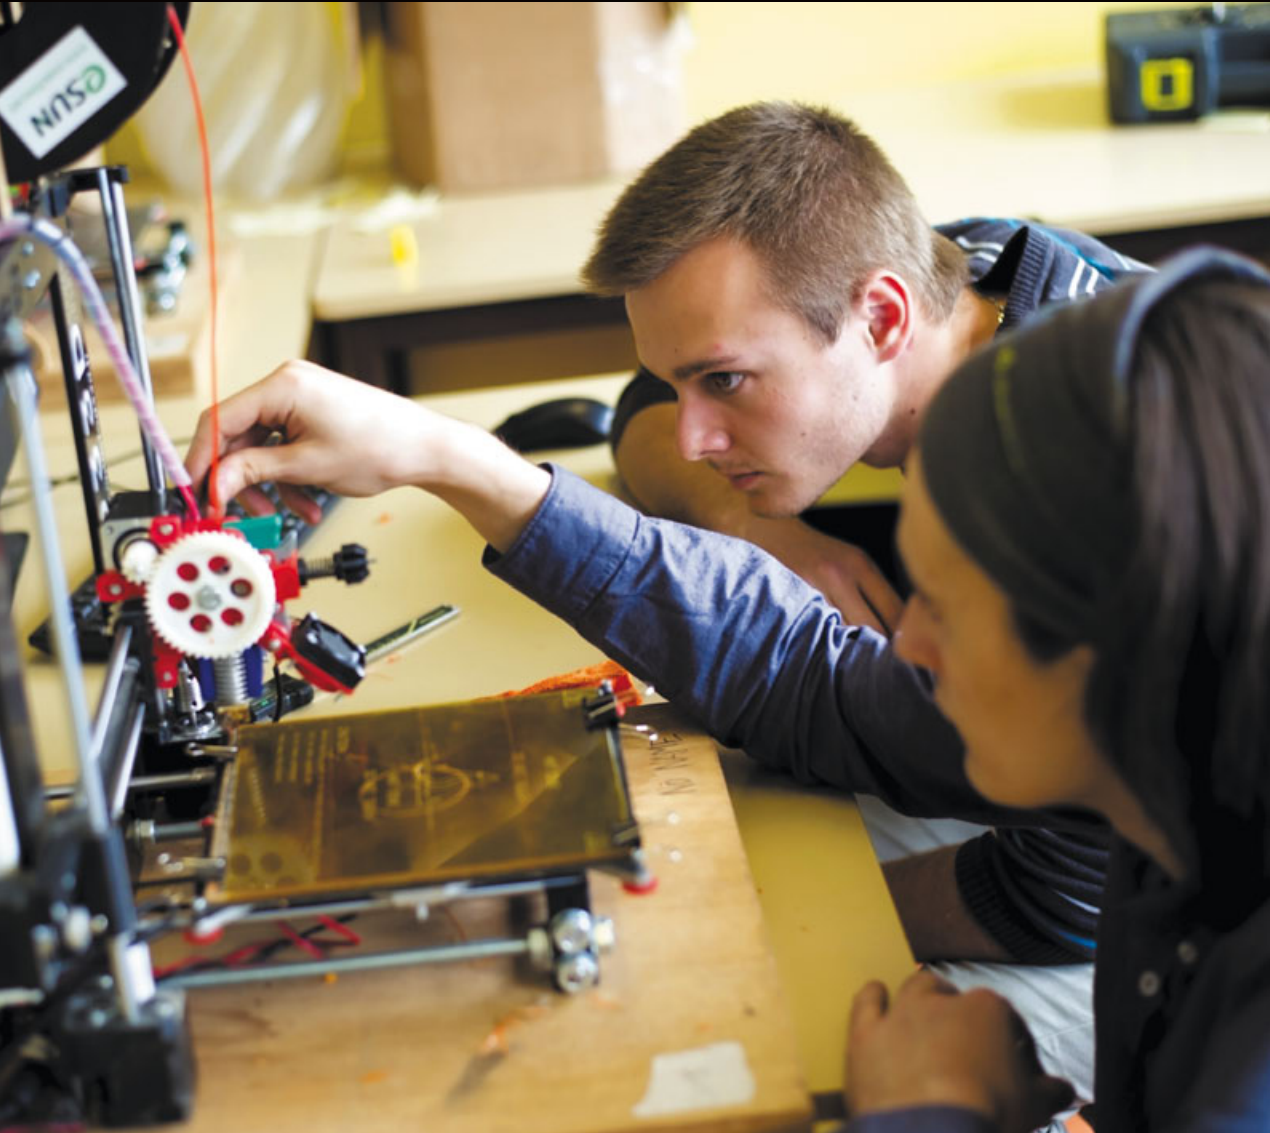

Offer young people and women the keys to the digital world through 4 major digital education programs, in France, Europe, Africa and the Middle East.

Our commitment: equip, support and provide access to free content.

1 Solidarity FabLabs

Our ambition:

remotivate young drop-outs and youth from disadvantaged families and help them get ready for tomorrow's jobs.

How?

By training them in digital makers workshops of the FabLab network. Training is based on the «do it yourself» concept, collaborative creation and the use of digital tools: 3D printers, digital milling machines, digital cutters...

2 Together for youth integration

Our ambition:

strengthen young people's digital skills to increase their employability.

How?

By training them on digital technology with NGOs: online CVs, social networking, exploring professions in the digital sector...

Our ambition:

offer children access to education and thereby ensure truly equal opportunities.

How?

By equipping schools which lack books and Internet access with digital education kits including tablets, with the full school curricula.

3 Digital schools

4 Women's digital centers

Our ambition:

restore financial independence to unemployed women in France and in Africa.

How?

By training them in digital technology and management skills in workshops run by NGO partners and Orange employee volunteers.

Autism

Our ambition:

help people with autism and their families live better lives.

How?

By making digital technology available to them, by equipping care programs and supporting research.

Using digital technology healthcare and culture

Orange villages

Our ambition:

promote access to education and healthcare in remote African villages.

to benefit

Vocal music

Our ambition:

discover new talents and bring music to a wider audience.

How?

By helping new musical groups and festivals, and live broadcasting operas in cinemas.

How?

By building a school, a water access point and a healthcare centre in these villages to improve the everyday lives of over 250,000 people in 50 villages.
