LOCAL PROGRAM PRODUCTION

AD OF THE YEAR AWARD by the Denver Advertising Club went to a KLZ dramatic production in 1944, a program in the series, "Highlights of the Rockies".

● KLZ creates and produces 75 or more local live talent shows every week ranging from early morning eye-openers to mid-evening dramatic shows complete with actors, music and sound effects.

KLZ for many years has deliberately built radio shows that match local interests. KLZ has always concentrated on selling programs instead of time.

As a result of this policy, KLZ has assembled the finest staff of writers, actors, musicians and producers in the Rocky Mountain West.

The significance of this fact is that KLZ does a better job of local program production because it tries and succeeds in excelling in every phase of radio service. Recognition of this fact is illustrated quite emphatically by the fact that more advertisers—local and national—buy more time on KLZ than on any other Denver station.

MORE ADVERTISERS—LOCAL AND NATIONAL
BUY MORE TIME ON KLZ THAN ON

Seven years of WLS news-casting makes Associate Editor Ervin Lewis an *old friend*, too. Erv met (and interviewed) scores of his former listeners during a recent four months in the European Theater of Operations. His current series of commentaries is based on personal observations abroad.

The VOICE of a FRIEND

with the Confidence long-time Friendships give

Julian Bentley, WLS News Editor, made his first WLS news broadcast in 1930. Reared on a northern Illinois farm, Julian's hobby is the study of languages—and people. He long ago lost count of the number of important and interesting folks he has brought in person to the WLS microphone.

ABOVE and beyond their acceptance as reliable newsmen is the reception accorded Julian Bentley (WLS since 1930) and his associate, Ervin Lewis (since 1938), as *old friends* in the listening homes of Midwest America. Listeners remember them through the years, recall countless special services and interviews.

So it is all day long on WLS. News editors, announcers, singers, musicians—all are accepted as *friends*. Which makes WLS itself speak to Midwest America as *The Voice of a Friend*. Friendship rests on mutual confidence. Confidence generates response. Response equals *results* for the advertisers who use WLS—The Voice of a Friend in Midwest America.

Quick to answer the local call

When the fire alarm sounds, "call men" continue to respond in many New England cities and towns. It's the survival of the old time community spirit of the days when every man in town had to turn out at the alarm of fire.

Quick neighborly response to an appeal is a New England characteristic.

This quickness of response applies also to the modern appeal of the local radio station.

Ask your New England hometowner.

He'll tell you his local station is his favorite station, giving him through its network affiliations the best in radio entertainment.

Hometown "habit listening" is acceptance in its most influential form. There is nothing like it to spark quick results. When you have Yankee's twenty-one hometown stations — to give you close-up contact with listeners in every area — you have direct all-over coverage of the New England market.

Acceptance is THE YANKEE NETWORK'S Foundation

FOUND- TODAY

Today, via KBS, national advertisers are finding millions of new listeners in small town and rural "Beyond-Metropolitan" areas. These listeners were lost yesterday. FCC figures show that they receive no coverage at all, or at best, unsatisfactory signals, from major wired network stations. Hooper surveys prove that the great majority of people in the significant areas surveyed listen predominantly to their own local Keystone stations. **ONLY** Keystone affords exclusive network coverage in this indispensable sector of the nation.

KEYSTONE NETWORK

GREATERTOMORROW

The present prosperity of "Beyond-Metropolitan" America will increase. Distribution Chief Nelson A. Miller, Dep't. of Commerce, says, "In the post-war market . . . the small town and rural market must be brought into selling programs . . . fully in proportion to its size and improved quality."

Join the leading national advertisers now extending their network programs to KBS markets . . . at the lowest cost per actual listener in radio history. KEYSTONE BROADCASTING SYSTEM, Inc., New York City 19, Chicago 2, Hollywood 28.

Large Nashville Furniture Dealer To Continue On WSIX For Sixth Year

John M. Wherry, president and treasurer of Wherry Furniture Company signs another WSIX Contract

Yes, Mr. Wherry, like many other shrewd time buyers located in Nashville, and in a position to judge a medium at close range, has again signed with WSIX to carry the major portion of Wherry Furniture Company's radio advertising.

On signing this sixth consecutive annual contract, Mr. Wherry said: "During this time we have sponsored on WSIX nationally famous network programs as well as several types of local, patriotic, educational, religious and entertainment

features. Better than 95% of our radio advertising has been done on WSIX. Results needless to say, have been gratifying at all times, and co-operation and help we have received highly satisfactory. We are looking forward to many more years of mutually pleasant and profitable dealings with your company."

There are many good reasons why so many local advertisers continue to place the major portion of their radio advertising on WSIX year after year. The principal one being RESULTS AT LOW SALES COST.

In Equipment for

RCA engineers developed the modern "all-electronic" system of television and introduced it to the public more than ten years ago. Practically all of the chief components of the television system in use today were devised by RCA engineers and first demonstrated in RCA equipment.

Before the war, RCA was the main builder of commercial television transmitting equipment—including cameras, control equipment, film scanners, audio and video transmitters, relay transmitters, antennas and field pickup equipment. A considerable number of these equipments are in use today in stations in this country and abroad.

**RCA HAS EVERYTHING
FOR TELEVISION**

1. THE ICONOSCOPE—The "electric eye" of the television camera. Developed by Dr. V. K. Zworykin, RCA scientist, and brought to a high degree of perfection by RCA engineers.

5. THE FIELD CAMERA — The RCA field pickup camera shown here is the first camera to use the "orthicon" pickup tube—by far the most satisfactory for "outside" pickups.

6. REMOTE PICKUP EQUIPMENT — RCA engineers built the first television equipment for field pickups—and the first such equipment (shown here) for use with the "orthicon" camera.

7. THE RELAY TRANSMITTER — The first transmitters to be used for television relaying were built by RCA engineers—the one shown here is for relaying from a remote pickup point.

11. THE SYNCHRONIZING GENERATOR—Furnishes the signals that key transmitter and receiver together. This type of synchronizing, now almost universally used, was developed by RCA.

12. THE VIDEO TRANSMITTER — The first commercially produced video transmitter, the 4 KW model shown here, was designed and manufactured before the war by RCA.

13. THE TELEVISION ANTENNA—RCA engineers have designed a large number of antennas for television. The turnstile antenna, shown here, was developed by Dr. G. H. Brown of RCA Laboratories.

Television Broadcast Stations

Moreover, RCA engineers, having had actual experience in designing and building commercial television transmitting equipment, have, during the war, been adding to their experience by building for the services the most advanced type of radio and other electronic equipment.

After the war, as before, RCA will be the leader in building television transmitting equipment. For television broadcast stations, RCA will offer a complete new line of equipment—highly efficient, simple to operate, and requiring minimum maintenance.

2. THE KINESCOPE — The reproducing tube used in all present-day receivers. Developed by Dr. V. K. Zworykin of RCA Laboratories as part of his "all-electronic" television system.

3. THE "ORTHICON" — The high-sensitivity pickup tube, which requires much less light and hence makes outside pickups practical. Developed by Dr. Rose and Dr. Iams of RCA Laboratories.

4. THE STUDIO CAMERA — Deluxe-type studio cameras shown here were first designed and built by RCA. Cameras of generally similar design are now used in nearly every television studio.

8. BEAM ANTENNAS — Beam antennas such as the one shown here, which may be used with the relay transmitter shown at left, are largely based on original RCA research.

9. THE FILM SCANNER — The arrangement which allows standard motion picture films (24 frames) to be televised over a 30-frame, interlaced system was devised by RCA engineers.

10. THE MONITOR EQUIPMENT—The system of monitoring several video channels by means of a picture tube and an oscilloscope for each channel was first used by RCA engineers.

14. "BIG SCREEN" RECEIVERS — RCA engineers designed and RCA factories built the first home television receivers. Their newest contribution, shown here, is the home receiver with a built-in, large-size screen for comfortable viewing from any point in an average-sized living room. Picture is unretouched.

At Deadline

FOLLOWING a conference Friday with FCC Chairman Paul A. Porter, Chairman Lea (D-Cal.) of the House Interstate & Foreign Commerce Committee, said plans are "shaping up" for a joint industry-Government committee on radio legislation.

WALTER J. DAMM, vice-president and general manager of broadcasting interests, the Journal Co., Milwaukee (WTMJ), advised J. R. Poppele, president of Television Broadcasters Assn., that his organization opposed any stand by TBA favoring television below 100 mc. Mr. Damm, also president of FMBI, proposed FM at 46-64 mc, the 64-70 mc band to be unassigned, with the first television channel 70-76 mc.

QUEEN WILMELMINA of the Netherlands, and Mrs. Franklin D. Roosevelt on Feb. 17 will participate in a world wide CBS broadcast from the "Women of the United Nations" luncheon of the NAB Assn. of Women Directors in New York, 3:30-3:45 P.M.

KFI Los Angeles, announced last Friday that it will cancel sponsorship of news commentators locally. William B. Ryan, manager, said the policy will not affect sponsorship of straight news broadcasts or those fed by NBC. Local commentaries henceforth will be carried only under the forum format.

STANDARD Oil Co. of Ind. is considering sponsorship newscasts of Harlan Eugene Reed throughout stations in the Midwest. First station Standard Oil signed was WBBM Chicago, at a reported \$150,000. Agency is McCann-Erickson.

SELLERS of SALES

ALTHOUGH radio director of MacFarland, Aveyard & Co., Chicago, Evelyn Stark also buys time for the shows she handles and in addition supplies program ideas and takes care of casting and directing. A strong independent streak, evidenced by her early career, probably makes this multiple job, which she has held for the past ten years, possible.

Born in the environs of Nashville, Evelyn was christened with full military honors. Her father, Lt. Col. J. R. Stark, USA, is reported to have taught her to shoot a rifle before she could walk. This spartan upbringing has given Evelyn the reputation of being the Annie Oakley of radio.

Evelyn's first job as office manager of the Home Life Insurance Co. of Nashville was considered by her to be of a slightly drab nature. She had early in her life been keenly interested in sports and this led to her taking a revolutionary step for a young belle of the Southland. In the early '30s, when even cigarette smoking by women was still frowned upon, she accepted a position with the National Bowling Congress to publicize and popularize the sport among women in the South.

Later, as advertising director for a large Nashville recreation center and supper club, Evelyn

came into contact with radio by taking care of the broadcasting activities of the business.

In 1935 she went to Chicago permanently as casting director of Stowe-A-Gram productions and provided talent for *The Aladdin Hayloft Theatre*, *Modern Cinderella*, *Ma Perkins* and others.

The following year Evelyn joined MacFarland - Aveyard (then Hays MacFarland) as assistant radio director and in 1937 was appointed radio director. and in 1937 director. She now is in charge of the Burma-Vita Co., Northwestern Yeast Co. (Maca yeast), Omar Inc. (flour), Curtis Publishing Co. (*Saturday Evening Post*) and the United Wall Paper Co. accounts. She also edits an inter-office newspaper,

EVELYN

per, *Radio News*, which runs a condensation of trade paper news.

A former members of the national board of directors of the YWCA and the National Rifle Assn., Evelyn's main interests still lie in the realm of athletics—riding, swimming, tennis and shooting. Since, she claims, Chicago doesn't provide sufficient outlet for these activities, Santa Fe is the spot she plans to retire to. Evelyn's dog Gremlin also shares her inclination towards cactus and is included in the post-work plans.

Evelyn also is a member of the Chicago Radio Management Club.

first things first

Sometimes the hard way is the easiest—if you go at it right.

Here at Mutual we're busy building a better network. For a solid decade, this has been a good network. To make it better—better for listeners, for artists, for stations, for clients—is a large order. And we plan to do it soundly, concentrating continuously on *first* things *first* in all our operations.

Foundations come first in any structure, and we think the rockbottom foundation for a radio network is the minds and skills of its personnel. Mutual is particularly well-grounded in this respect. Its directorate comprises successful broadcasters whose radio-business experience covers the whole span of broadcasting's quarter-century . . . a lineup of practical know-how outstanding in all radio.

This basis of first-hand experience has lately been strengthened from within by the organization of a complete and able executive staff,

headquartered in New York and buttressed at key points elsewhere. Into capable hands have been charged the various problems of general management as well as programming, station relations, sales and all other phases of efficient network operation. Mutual efforts toward improvement in each of these fields deliberately follow the fundamental, first-things-first pattern . . . with the listener—the family on the receiving end of radio—foremost in our planning at all times.

Shouting from the housetop has no place on the Mutual schedule, but as we build upon this sturdy foundation, we think our "hard-way" approach may prove the easiest route to a better network after all. We'll let you know.

MUTUAL
BROADCASTING SYSTEM

“Stand behind that screen, Miss Love, and take down everything Mr. F&P says—we need ideas!”

- If you're looking for ideas, remember this: every station we represent is a wide-awake outfit that knows its market, its people, and what its people like. Each has local attractions that compare in popularity with many big network shows—yet which often can be bought at low daytime rates, with minimum talent costs.

Did we hear you ask for specific examples?

BROADCASTING

and Broadcast Advertising

VOL. 28, No. 7

WASHINGTON, D. C., FEBRUARY 12, 1945

\$5.00 A YEAR—15c A COPY

Net Time Sales Were \$285,100,000 in 1944

25% Gain Over Previous Year Revealed; Gross Time Sales \$381,877,076

IN TEMPO with other advertising media, broadcast advertising in 1944 reached a new all-time high of \$285,100,000 in *net time sales*—a gain of 25% over 1943. This compared with the adjusted figure of \$228,102,000 for 1943—a 19.6% increase over the preceding year.

Gross time sales, the "quick figure" comparison with the volume of other media, reached an estimated \$391,877,076 in 1944, as compared to \$307,191,000 the preceding year, an increase of 27.6%. The gross figure represents the one-time rate of stations and networks multiplied by the number of times the medium was used, without regard to frequency discounts or sales expense.

Ahead of Other Media

These compilations are based upon estimates made by BROADCASTING to be released in its 1945 *Yearbook* number, now in distribution. Annual estimates have been made by BROADCASTING since 1935, with the margin of error averaging less than 2%.

Radio's 1944 increase of 25% compared with an estimated 7% increase for all advertising volume. Gross billings of magazines for advertising increased approximately 18% despite paper quotas 75% of 1942 production. Newspaper lineage declined about 2.5% during the year, attributable to paper rationing. Farm papers were reported approximately 20% up, while outdoor advertising increased about 30%.

The \$285,100,000 *net time sales* (gross billings less frequency and promotional discounts) represents the gross receipts of radio from the sale of time. National network *net time sales* increased an estimated 21.2% to a figure of \$121,300,000 as compared to a 19% increase during the preceding year. Network estimates are derived from gross receipts less certain duplications in network payments to stations.

[The FCC reported on Jan. 30 that 1944 revenues of the four major networks aggregated \$126,330,419. The yearly final figure in-

variably carries a deduction which represents a downward adjustment to take care of payments to network key stations and disbursement of some funds to Canadian stations, which does not figure in United States revenue. The BROADCASTING compilations are designed to eliminate duplications in network revenue.]

National and regional non-network (spot) advertising rose 26.3% during 1944 to \$75,000,000 as against \$59,352,170 the preceding year.

Local business increased 28.7% above the preceding year's level, aggregating \$82,600,000 as against \$64,104,309.

Because time sales account for about 95% of radio's total income, the *Yearbook* analysis states it is probable that the total receipts of the broadcasting industry during the past year were in the neighborhood of \$300,000,000. If the approximately \$50,000,000 estimate of advertisers' expenditures directly for talent are added, the grand total of expenditures for radio advertising in 1944 would reach about \$350,000,000.

Demand for Space

Analysis of the 1944 business was made difficult because of the abnormality of general economic conditions. Thus, a comparison of trends among the major classes of media is of little or no significance.

Paper restrictions completely distorted magazine and newspaper volume. The pressure of demand for advertising space and time upon the more desirable units of the magazine, newspaper and radio fields, combined with the prosperous

conditions of most industries, forced an expansion of advertising in the less desirable units, which may or may not be held entirely when reasonably normal competitive conditions are restored.

Newsprint limitations and increased retailer interest in radio were among the factors underlying the 1944 increase in local business. A sample survey of department stores made by the National Retail Dry Goods Assn. revealed that radio accounted for 8.1% of store advertising expenditures in 1944 as compared to 4.2% in 1943, while the proportion spent for newspaper advertising dropped from 85.9% to 82.6% during the same period.

National Net Billings

Of the estimated *gross billings* in 1944, national network volume accounted for \$190,677,076 of the \$391,877,076 total, as compared with \$151,791,000 in 1943. National and regional non-network (spot) business totaled \$93,000,000 as compared to \$73,500,000, while local business accounted for \$100,700,000 as against \$78,200,000 the preceding year. Regional networks did \$7,500,000 in estimated gross in 1944 as against \$3,700,000 in 1943.

Despite the healthy gain in time sales, it was evident that net earnings, after taxes, would not exceed those of 1943. Peak tax brackets, manpower replacement costs and generally increased overhead have combined to cut earnings appreciably, according to station management reports. Moreover, expenditures have been made in substantial volume by stations and networks alike in planning for postwar development of new services, such as FM, television and facsimile.

Shared by All Classes

So far as can be detected from preliminary figures, all classes of stations shared substantially in the

BILLINGS BY YEARS

ESTIMATED gross billings for the broadcasting industry as a whole since its inception are found in the table below. These are based upon calculations by Paul F. Peter, NAB director of research, and Dr. Hermon S. Hettinger for the period 1927-1941 and BROADCASTING's estimate for 1942, 1943 and 1944.

Estimated Radio Gross Billings: 1927-1944

Year	(000's omitted)		
	National network	Others	Total
1927.....	\$3,833	\$987	\$4,820
1928.....	10,227	3,873	14,100
1929.....	19,196	7,604	26,800

1931.....	37,502	18,498	56,000
1932.....	39,107	22,798	61,900
1933.....	31,516	25,484	57,000
1934.....	42,659	30,228	72,887
1935.....	49,315	38,209	87,524
1936.....	59,671	47,880	107,551
1937.....	63,828	75,514	144,142
1938.....	71,728	78,850	150,118
1939.....	88,114	88,000	171,114
1940.....	96,466	111,500	207,966
1941.....	106,900	130,700	237,600
1942.....	118,200	136,600	254,800
1943.....	151,791	155,400	307,191
1944.....	190,677	201,200	391,877

rise in radio advertising volume last year. National and regional non-network (spot) advertising appeared to rise between 15% and 17% on clear channel stations of the 50 kw class, with even heavier gains on the limited number of 5-20 kw stations.

Regional stations (up to 5 kw) probably experienced a gain of 30% in spot business, while volume on local stations may have risen between 45% and 50%. These relative rates of increase, with local stations showing the greatest gains, reflect the approaching saturation of many of the major stations, as well as the rise in importance of defense centers away from prewar markets. Despite this, something more than 75% of all national and regional spot volume is placed on clear channel and regional stations, while local stations account for but 25% of the total.

Local radio advertising rose more or less uniformly throughout the various station classes, although local volume on clear channel stations seems to have increased more than 30%. However, more than three-fourths of all local volume is

RADIO NET TIME SALES: 1943-1944

Liberated Manila Returns to the Air

Network Correspondents Freed from Jap Prison Camp

"HELLO, NBC. As I was saying when I was so rudely interrupted over three years and a month ago. . . ."

Mr. Silen

Thirty - seven months before, he had been broadcasting from Manila to NBC on the mainland when Japanese bombs destroyed the Philippine transmitter.

Rescued with Mr. Silen were Don Bell, also a former NBC correspondent in Manila. He was special events director of KZRH, Manila station owned by Brig. Gen. Carlos P. Romulo. Mr. Silen was manager of the same station, carrying on his NBC duties as a sideline.

Liberation

John Adams of CBS, accredited to the MacArthur command, reported to his network that its former correspondents in Manila, Tom Worthin and Ford Wilkins, were among those delivered by American soldiers from Santo Tomas internment.

Describing the night of Feb. 3, zero hour for the entrance of American troops into Manila, Mr. Silen said it was a "ghoulish nightmare" as internees were forced to wait, helpless, as their Japanese jailers sought to fight off the rescue-bent invaders.

"With the dawn," he said, "we could see for the first time in three years the color of American tanks and our brave American soldiers. I can't begin to tell you what that sight meant to us, because only three years of interment could give you the full appreciation of how we felt at that moment."

Gunnison First

Among other radio correspondents to whom the return to Manila had special significance were Royal Arch Gunnison of Mutual and William J. Dunn of CBS. Mr. Gunnison was interned in Santo Tomas camp with Mrs. Gunnison. He later was repatriated, only to join MacArthur's forces on the long march back.

In what was conceded to be the first eyewitness report recorded by a radio correspondent of Manila's fall, Mr. Gunnison spoke from a transmitter behind the lines after

'My Name Is Irving Strobing . . .'

PERHAPS you don't remember Irving Strobing. He was a name in the news on May 5, 1942, the day Corregidor fell in flames to the Japs.

As restless American troops in Manila turned toward "The Rock," now held by the Japanese and flaming again, but this time under American bombs, the Army decided it wanted Irving Strobing.

Specifically, he's wanted by Col. Ed Kirby of Army Public Relations for the *Army Hour*. If Col. Kirby is lucky, and if Irving has been lucky, the man who sent the last message out of the Philippines will broadcast to the world. He's believed to be somewhere on Corregidor.

He was a radio operator. He was sending while the Japs were giving. He kept on sending until Corregidor's tunnels were piled high with American dead and wounded. Then, May 5, 1942, he sent his last message:

"My name is Irving Strobing. Get this to my mother. Mrs. Minnie Strobing, 605 Barbey St., Brooklyn, N. Y. They are to get along OK. Get in touch with them as soon as possible. Message. My love to Pa, Ma, Joe, Sue, Mac, Gerry, Joy and Paul. Also to all family and friends. God bless 'em all, hope they be there when I come home. Tell Joe wherever he is to give 'em hell for us. My love to you all. God bless you and keep you. Love. Sign my name and tell Mother you heard from me."

having entered the city with the troops. His report, however, was not aired by MBS, but recorded at KFRC San Francisco and held for release until 6:54 p.m., nine minutes after Pat Flaherty of NBC had related directly to American audiences an "inside Manila" eyewitness statement relayed to him

by his colleague, George Folster. That was Feb. 4.

On Feb. 5, Mr. Gunnison flew over the burning city in an American reconnaissance plane, returning to the transmitter base to tell, in a dramatic recital, of Manila's delivery. "As my plane flew over the tiny bamboo huts in the Santo

Miami-Herald Buys WQAM; Newark News to Get WBYN

ACQUISITION of WQAM Miami by the *Miami Herald*, and of WBYN Brooklyn by the *Newark Evening News*, were in final stages of negotiation last week.

WQAM, CBS regional outlet on 560 kc, under a signed agreement, would be acquired, subject to FCC approval, by the John S. Knight newspaper for \$500,000. Sellers are Fred W. Borton, president and general manager, and W. W. Luce, Miami businessman, each of whom holds 50%. Mr. Borton, however, would remain as general manager and operating head, with certain options.

Mr. Knight is also president of the American Society of Newspaper Editors and editor and publisher of the *Akron Beacon-Journal*, *Detroit Free Press* and *Chicago Daily News*.

WBYN, a consolidation of the four much-litigated "Brooklyn stations," would be acquired by the *News* for \$300,000 for 100% of the preferred stock and 96% of the common stock. Holders of some 70% of the stock approved the sale last week and it was regarded as likely that the transaction would be completed.

WBYN operates on 1430 kc with 1,000 w local sunset and 500 w night and is licensed to the United Broadcasting Corp. Principal stockholders are Rabbi Aaron Kronenberg and Ray Kronenberg, holding

25% of the common stock between them; Salvatore D'Angelo, with 25% of the common; Peter Testan and Millie Testan, with 25% between them and Samuel J. Gellard and Ruth B. Gellard, with 25% of the common. The Gellards, it is said, have not yet agreed to the transaction. Gellard on Feb. 6 was found guilty of conspiracy by the Court of Special Sessions in New York. The preferred stock is held by the same parties in slightly different proportions, and with the firm of Rubinton & Coleman holding 2.5%.

It is presumed that the Evening News Publishing Co. would move WBYN to Newark as soon as the lifting of wartime freezes on construction permit. The facilities technically would work in the Newark area.

Mr. Knight, one of the nation's most prominent publishers, last year returned to this country after having served as assistant director of censorship in charge of the London office. He has evinced an interest in all aspects of radio. The WQAM transaction, however, would mark his first active duty into the field.

PROTESTING Fulton Lewis jr.'s Mutual broadcast on Henry Wallace Jan. 24, Irving Abramson, president, N. J. Industrial Union Council (CIO), has asked the FCC to direct Mutual to grant equal time to offset Mr. Lewis' views.

Tomas concentration camp compound I could pick out the tarpaper-roofed hut which I built for my wife when we were interned there by the Japanese. I could see the gardens we sweated over. I could see the entrance where the Jap soldiers committed such horrible atrocities."

Mr. Dunn told of a reunion he celebrated with two other correspondents, Russell Brines of the Associated Press, and Carl Mydans, photographer of *Time* and *Life*, the latter two also repatriates. These three, with their wives, were prisoners together at Santo Tomas.

Dunn Returned

Mr. Dunn of CBS, who made the last broadcast from Manila at 8 a.m. Dec. 31, 1941, and who has been with MacArthur since he took command in Australia, entered the city with him, moving forward with the First Cavalry Division. Mr. Dunn escaped the Japanese after the fall of the city and made his way to the Dutch East Indies, thence to Sydney.

Logbooks of the networks show that Mr. Gunnison's last broadcast to MBS from Manila before it fell to the Japanese was concluded at 10:30 p.m. Dec. 28; by Mr. Silen for NBC at 7:21 p.m. Dec. 30. The Blue network, at that time, was affiliated with NBC.

First bulletins that American troops had entered Manila were heard, as logged by the networks, in this order: NBC, 6:02:20 p.m., Feb. 4; CBS, 6:03:30 p.m.; MBS, 6:03:55 p.m.; Blue, 6:06:30 p.m.

First pooled broadcast was scheduled for 6:30 p.m. and Art Feldman of the Blue won the toss to make it. He decided however, to proceed into Manila with the troops and not return to the transmitter for the broadcast. The official communique was read in 90 seconds at that time by an unidentified voice.

All networks interrupted commercials to feed bulletins.

No Word on Stations

No word concerning Manila's four broadcast stations was heard by press time. The stations, it was reported [BROADCASTING, Jan. 5, 1942], were dismantled and destroyed by the licensees prior to the entrance of the Japs into the city.

The stations were KZRH, operating on 710 kc with 10,000 w; KZRM, 620 kc with 10,000 w; KZRF, 780 kc with 1000 w, and KZIB, 900 kc with 1000 w. Fifth Philippines station is KZRC, Cebu City, 1200 kc with 1000 w.

It was understood at the time the stations were dismantled that reparations would be made to the licensees through the War Insurance Corp., created by the RFC.

Club Meeting on Air

VIRGINIA Federation of Women's Clubs, after ODT and WMC directives canceled all conventions, arranged to carry its 38th annual meeting by radio, April 10-12, streamlined to 90 minutes (30 minutes daily) over WRNL Richmond. Gov. Colgate Darden will be key speaker.

FCC Has Open Mind on FM and Television

Final Allocations Ruling Awaits Argument

By BILL BAILEY

DESPITE controversy within the industry over the FCC proposed allocations above 25 mc, both FM and television assignments are regarded at the Commission as an open question until after oral argument Feb. 28-March 2, it was disclosed last week.

Commissioner E. K. Jett, in whom his fellow Commissioners have entrusted the job of chairman "pro tempore" of the allocations problem, said last week he fully expected some changes to be made following oral argument, but he didn't specify where. "The Commission's proposals announced on Jan. 16 should not be taken as final in any sense," said Mr. Jett. "We of the Commission have an open mind in all aspects of the allocations."

Meanwhile a rift between the Television Broadcasters Assn. and FM Broadcasters Inc. became apparent with the FMBI prepared to present testimony at the oral argument tending to show the folly of moving FM to the 84-102 mc band, as proposed by the Commission. On the other hand the TBA is understood to be heartily in accord with the Commission's proposals and ready to accept the television assignments as proposed.

FM on Video

First application under the proposed allocation was filed last week by Raytheon Mfg. Co. for a commercial television station in New York on the proposed new Channel No. 1 from 44-50 mc. It is that channel recommended by the FCC for television which has caused furor among the FMBI, some members of which have charged that television interests could broadcast FM programs without sight on the first channel, in competition to FM broadcasters (see DuMont letter, page 42).

Walter J. Damm, FMBI president, last week called upon all members of his organization to vigorously protest the Commission's proposed allocations. Joining hands with the FMBI is the U. S. Office of Education, whose protests will be based on the contention that already several educational institutions have invested public funds for FM stations in the present band, and a changeover to higher frequencies would entail a loss of taxpayers' money.

Commissioner Jett, appearing before the House Appropriations Subcommittee on Independent Offices on Jan. 18, was questioned closely about the expansion of radio generally and the proposed allocation of FM in the 84-102 mc band. At

that time he told the subcommittee, of which Rep. Woodrum (D-Va.) is chairman, that the Commission decided the existing FM band, 42-50 mc, "is not the best spot in the spectrum from an engineering standpoint for frequency modulation broadcasting."

He listed skywave interference in the present FM band, observed by Commission engineers in field monitoring tests, as the principal reason for recommending movement of FM. "We feel that if hundreds of stations were licensed in the existing band from 42-50 mc the interference would be intolerable at times," he explained.

Commissioner Jett told the subcommittee that the FCC anticipates applications involving 1,200 standard stations, including new facilities, changes, etc. during the first year after materials and manpower become available; 1,200 for commercial FM, 450 for noncommercial educational FM facilities, 150 for television and 30 for facsimile broadcasting.

"We feel, from an engineering

standpoint, that the (FM) band should be moved up in the spectrum where skywave interference is no longer a factor," Commissioner Jett told the House Committee. "Therefore we have proposed this change from 42-50 mc to 84-102 mc. I think you will find that during the 30 days between the time the report was released and the time we will hold oral argument and consider briefs there will be some protests on the part of some of the FM people."

May Delay Production

He explained that manufacturers are tooled up and have designs laid out and "they are ready to go ahead and produce in great volume on the existing band, and they feel that this change is going to delay FM". Conversations with manufacturers have led the Commission to conclude that the delay may be about six months, he added.

"But since manpower and materials are not available today, we feel that this is an excellent opportunity to cause this change,"

Vandenberg Bill Would Cover AFM Blacklist of Interlochen

Senator Says Plan Includes Such Conspiracies; Dr. Maddy to Fight Latest Petrillo Action

ACTION of James C. Petrillo, president of the American Federation of Musicians, in blacklisting the National Music Camp at Interlochen, Mich., apparently because of its efforts to prevent the AFM from interfering with broadcasts of its concerts, will be covered by the Vandenberg Bill if the measure passes the House, Sen. Vandenberg (R-Mich.) said last week.

Characterizing the blacklisting of the Interlochen school, disclosed in advices to all four major networks, as "the latest episode in Mr. Petrillo's battle with the school children of America," Sen. Vandenberg declared his bill "clearly reaches any conspiracy to defy its mandate."

Touches Conspiracy

Apprised of the AFM notice to the networks, the Senator issued the following statement:

I know nothing about the details of this latest episode in Mr. Petrillo's battle with the school children of America. I do know, however, that the U. S. Senate, with the approval of the FCC, has twice unanimously said that freedom of the air shall not be foreclosed to noncommercial cultural programs from accredited educational institutions.

If the House of Representatives agrees, I expect to see the law enforced. It clearly reaches any conspiracy to defy its mandate.

Early action in the House on the companion measure (HR-1648) to the Vandenberg bill, with the possibility of amendments to provide stringent penalties against viola-

tion or evasion, was indicated by Rep. Lea (D-Cal.), Chairman of the House Committee on Interstate & Foreign Commerce.

Chairman Lea said that "considerable material" on the need for the measure is on his desk but that the press of railroad retirement legislation has prevented the Committee from giving it consideration. He expressed the opinion that "something should be done" on the Interlochen situation.

The Vandenberg bill (S-63), in its present form, makes it unlawful to interfere with the broadcasting of any noncommercial educational or cultural program presented by any accredited tax-exempt institution. It is the outgrowth of testimony before a Senate subcommittee concerning the AFM ban against NBC broadcasts of symphony concerts by students of the Interlochen school.

Dr. Joseph E. Maddy, director of the National Music Camp and professor of music at the U. of Michigan, with which the Camp is affiliated, announced he would fight Mr. Petrillo's "vengeance decree to punish me for exercising the constitutional right of free speech" and "forcing me out of the union after 36 years membership." He said that the blacklisting of the Camp by the AFM "smacks of Hitler's tactics."

Dr. Maddy expressed the opinion that Mr. Petrillo's latest action
(Continued on page 82)

Commissioner Jett testified. "Six months' delay should not make much difference because the service cannot go ahead anyway at this time."

Present licensees in the FM band claim they have invested many thousands of dollars that may be lost if the change is made, Mr. Jett continued. "On the other hand, the Commission feels that this is probably our last opportunity from the standpoint of the future to give the public a good, clean, interference-free broadcast service with all the advantages of frequency modulation," he said.

"If a change is to be made it has got to be made now. We think, too, that it would be dangerous to allow this thing to grow up and to license thousands of stations, only to find later when millions of sets are sold that the public would suffer local interference and that local service would be destroyed by this Sporadic E layer transmission or by F-2 transmission."

Commissioner Jett's testimony, it was pointed out, was given only two days after the proposed allocations were announced and before the filing of protests of the parties in interest [BROADCASTING, Feb. 5]. Of more than 30 who have filed requests for oral argument, only four concurred in the Commission's proposals, although most of the petitions did not specify a stand on the allocations. Many are understood to favor the proposal but will not appear for oral argument.

No Briefs Filed

Deadline for filing briefs is Feb. 21. As BROADCASTING went to press, none had been filed.

Commissioner Jett, commenting on the differences of opinion as to the movement of FM, said last Thursday he was "only too glad to see the interest now being shown in allocations for FM."

"I only regret the same interest wasn't shown during the allocation hearings," he stated, adding that little testimony was presented during the hearings to show the Commission why FM should be retained in its present band, whereas there was testimony indicating it could better serve higher in the spectrum.

"My mind is open until after the oral argument," he said. "If the FM people can convince me that FM should stay where it is, fine. On the basis of the record, however, I'm pretty well sold on the move. That doesn't mean I've made up my mind. That I won't do until after everybody has had a chance to present his views. I have kept an open mind. The Commission has insisted on an open-door policy. We won't close the door and make our final decision until after everyone interested has a chance to be heard."

NLRB Examiner Upholds NABET WSA Plan Permits ETO Assignments

Petrillo Threat Is Held No Defense in Nets? Failure to Act

FINDING that threat of reprisals by James C. Petrillo is no defense to charges of refusal to bargain, Howard Myers, trial examiner for the National Labor Relations Board, last week recommended that a Board order be issued requiring the NBC and Blue networks to recognize the jurisdiction of NABET on platter turner operations.

All parties to the case were given 15 days to file exceptions to the recommendations and present oral arguments before the Board. Unless such action is taken, the Board will issue an order requiring the networks to bargain with NABET.

In his Intermediate Report on the case, the examiner found that when the Board certified NABET as the bargaining unit for turntable operations it disposed of any questions raised by the letters written a year ago by NBC and Blue advising Mr. Petrillo they would employ AFM members as platter turners.

Fear of Strike

As to the nets testimony at the Jan. 30 hearing in New York that refusal to meet Mr. Petrillo's demands would provoke a musicians' strike, the examiner declared:

"Respondents' defense to the charges of refusal to bargain with NABET is bottomed on the claim that to do so would result in reprisals from the AFM. The Board and Courts have on many occasions denied the validity of similar urged defenses to charges of unfair labor practices. The paramount and plain duty of the respondents in this situation was to obey the mandate of the Congress as expressed in the National Labor Relations Act and to bargain with NABET."

Upholding the unfair labor practice charge filed by NABET, the examiner found that on Jan. 6, 1945 and since that time the networks "refused to bargain collectively with NABET as the ex-

clusive representative of their respective employes in appropriate units with respect to rates of pay, wages, hours of employment, and other conditions of employment, and by such refusal interfered with, restrained, and coerced their respective employes in the exercise of the rights guaranteed" in the Labor Relations Act.

Upon the entire record in the dispute, the examiner concluded:

1. That both NABET and AFM are labor organizations within the meaning of the Act.

2. That NABET is the appropriate unit for bargaining on platter turners and other technical operations at NBC and Blue.

3. That by refusing to bargain with NABET the networks are engaging in unfair labor practices.

Must Post Notices

The report therefore recommended that the networks "cease and desist" from refusing to bargain with NABET and take "affirmative actions" to recognize the certification of the union by the Board. It was further recommended that both networks post in their various studios for 60 days notices furnished by the Board notifying their employes that they will bargain collectively with NABET as the exclusive representative of all employes in technical operations "and if an understanding is reached, embody such understanding in a signed agreement".

Meanwhile, the New York region-

al Board proceeded with an informal investigation of a charge filed Jan. 27 by the AFM against the networks for allegedly dominating the NABET union. Evidence obtained will determine whether formal hearings on the charge will be held or whether the charge will be dismissed.

McFarland Names 3

THREE executive appointments were announced last week by MacFarland, Aveyard & Co. Lt. Col. George MacGovern, who before his Army service was sales director of *Look* magazine, has been appointed vice-president in the New York office of MacFarland, Aveyard; Allen B. Dicus, who joined the agency in 1936 as vice-president and account executive has been promoted to general manager of the Chicago office, and Ralph E. DeCastro, formerly senior writer on the creative staff of Ruthrauff & Ryan, New York, has joined the New York office of MacFarland, Aveyard as director of copy and account executive.

Cities Service 19th

CITIES SERVICE Co., New York, this month begins the 19th year as sponsor of its NBC series *Highways in Melody*, Friday 8-8:30 p.m. NBC's first president, Merlin H. Aylesworth, now advisory counsel in public relations and Cities Service Co. president, W. A. Jones, will speak on Feb. 16 broadcast. Foote, Cone & Belding, New York, and its predecessor, Lord & Thomas, have handled the program.

Petrillo Places Musician Ban On All Television Stations

A STOPPAGE of all musical television programs has been put into effect by James C. Petrillo, president of the American Federation of Musicians, which last week sent notices to all AFM local unions that, effective immediately, no AFM member is to perform for any video program. Ban will continue until further notice.

No notification was sent to management of New York stations. Officials of WABD, DuMont station, first learned of the edict when they were notified by the program department of WNEW New York that the musical program WNEW had planned to present via WABD Feb. 11 had been canceled after musicians had told the station they could not appear. WNEW has been presenting programs on WABD to gain production experience.

Mr. Petrillo could not be reached for an explanation. It is understood, however, that the union intends to investigate television employment and that the ban applies until completion of the study, AFM members wishing to work before the cameras meanwhile may do so, it was said,

by special permission from the national office.

Ban will have no effect at WCBW, CBS New York video station. Musical programs on WCBW were discontinued several weeks ago when the station was notified that it could not continue to use network staff musicians on its video programs.

WNBT, NBC video station in New York, has used musicians only for special studio programs since an AFM ruling on onetime engagement rates went into effect. When the station picks up sports programs from outside points, such as Madison Square Garden, it returns to the studio when the band at the pickup point performs, as an alternative to paying an extra \$24 to each musician in the hall.

WABD musical programs are those brought in by outside organizations, chiefly advertising agencies experimenting with video production. These will be eliminated by the ban, unless some special arrangement can be worked out.

WPTZ Philadelphia, Philco video station, has no studio facilities at this time.

Atlass of CBS First Radio Man To Sail on Merchant Convoy

H. LESLIE ATLASS, chief of the CBS central division and vice-president of WBBM Chicago, soon will board a U. S. merchant ship to the European war theatre under terms of a new plan announced by the War Shipping Administration.

Plan permits large radio stations and networks to assign staff members, accredited to the U. S. Maritime Service, to a selected convoy to any war theatre for the purpose of making recordings aboard ship. Recordings, it was explained by WSA, can be made of interviews with crew members, with officers or of any action encountered by the ship enroute, all subject to security regulations.

Atlass Is First

Mr. Atlass, first of the applicants accepted, will leave soon for the European theatre. It is explained, however, that trips can be made also to the Pacific theatre. Convoy time, round trip including stopover, to the European theatre is 40 to 45 days, and to the Pacific about 110 to 125 days.

Radio representatives will hold officer status. When a convoy docks, they will be permitted shore leave during the period of the stopover. Recording equipment cannot be employed during the stopover, in the war zone, however, unless the individual is accredited to the Army or Navy command in charge in the area.

An effort will be made by WSA to assign station representatives to ships named for the cities in which their stations are located, or manned by personnel which includes some men from the listening area. WSA suggests also that some recorded programs could be built around Merchant Ship materials manufactured in the area in which the station is located.

It is understood that application for participation in the plan also has been made by WGAR Cleveland. For further information on the subject, inquiries should be addressed to Public Relations, WSA, Washington 25, D. C.

Republic Campaign

REPUBLIC Pictures Corp., New York, will soon begin an extensive radio campaign, following expansion into Latin American markets. Schedule will include spot announcements and five-minute programs, starting with the current films "Brazil" and "Lake Placid Serenade." Newspapers and magazines will also be used. Morris Goodman, president, Republic Pictures International Corp., recently returned to New York from a four-month tour of Latin American countries, where he made arrangements for the campaign. Agency is Donahue & Coe, New York.

O'Daniel Discs Questioned

CHARGES that the *W. Lee O'Daniel News* during the last Presidential campaign paid for commercial broadcasts of political nature in violation of the Corrupt Practices Act will be referred to Attorney General Biddle without comment by the Senate Campaign Expenditures Committee, Chairman Green (D-R. I.) announced last Thursday following an executive session. Committee investigators reported that several stations accepting the O'Daniel transcriptions charged political rates on the grounds that the programs were of political nature and not confined to soliciting subscriptions to the publication of Sen. W. Lee O'Daniel (D-Tex.). Transcriptions featured talks by Sen. O'Daniel and hill-billy music.

ANOTHER REASON WHY
IOWA PREFERS WHO

WHO does this every Saturday night!

Every Saturday night, people from every part of Iowa jam-pack our 4,000-seat Auditorium to see and hear WHO's "Iowa Barn Dance Frolic". The photo above is typical.

Since 1931, the Barn Dance Frolic has been by long odds the most popular theatrical event in the State. And for all those fourteen years, the show has been composed of the same talent that helps make our station "click" in its day-to-day programming.

The Barn Dance Frolic is another reason why Iowa people prefer WHO. It also means some-

thing to you that WHO knows enough about showmanship to put on a broadcast which pulls thousands of paid admissions every week — that a million people have gladly paid money to hear the sort of entertainment you can furnish them through WHO. Rating for last winter was 13.3 for the first hour and 19.8 for the second hour in Des Moines.

On the stage as on the air, WHO is Iowa's best source of entertainment. That's true because we have always been willing to *work* enough, and *plan* enough, and *invest* enough to do the job. We can do a job for you, too.

Kansas City Meeting Signs BMB 79%

OF THE stations represented at NAB District 10 meeting in Kansas City last week 79% followed the lead of John J. Gillin Jr., director and general manager of WOW Omaha in subscribing to the Broadcast Measurement Bureau.

The new subscribers bring the total to 234 stations. Of this number, 178 have been signed during the current tour of the regional NAB meetings by Hugh Feltis, BMB president. This figure represents 80% of the attendance at the seven meetings thus far held. Highest percentage of signers, 93%, is in the 13th District (Texas). Lowest percentage recorded, 68%, is in the 16th District (Southern Cal., Ariz., N. M.). Of the grand total, 56 have been signed in Districts in which meetings have not been held.

District 10 stations which signed included: Iowa—WHO KRNT KSO Des Moines, WMT Cedar Rapids, KXEL Waterloo, KROS Clinton, WOC Davenport, KTRF Sioux City, KMA Shenandoah; Missouri—KTTS KWTO Springfield, KHMO Hannibal, KMOX KSD KXOK St. Louis, KFRU Columbia, KWOC Poplar Bluff, KVAK Atchison, (Kan.), WMBH Joplin, KWOS Jefferson City, KMBC KCMO Kansas City; Nebraska—KODY North Platte, WOW KOIL Omaha, KFOR KFAB Lincoln, WJAG Norfolk.

Meeting Canceled

The District 12 NAB conference, which was to have been held at Kansas City in conjunction with the District 10 meeting, was canceled, in order that attendance at the meeting would not exceed the maximum 50 established by the War Committee on Conventions, established by order of Justice Byrnes, War Mobilization director.

Thirty-eight stations were represented at the meeting. Among the delegates were four district directors: William Way, KVOO Tulsa; Joe Maland, WHO Des Moines; Dietrich Dirks, KTRI Sioux City and Mr. Gillin. This was the first regional conference held following NAB President J. Harold Ryan's request, issued in Salt Lake City, that future parleys be attended by only one representative from each outlet.

Mr. Way, speaking for the broadcasters of the 12th District (Oklahoma-Kansas) endorsed the BMB plan. He handed a signed contract for his own station to Mr. Feltis. Other 12th District contracts were received from Edgar Bell, secretary-treasurer of the Oklahoma Publishing Co., operators of WKY Oklahoma City, and John Esau, general manager, KTUL Tulsa. First 12th District contract signed was by Bob Enoch of KTOK Oklahoma City, who transmitted it to Mr. Feltis during the Dallas meeting of the 13th District. KLS Oakland previously was reported in error as a BMB subscriber. Station should have been KLX Oakland.

Assisting Mr. Feltis in making his presentation were Mr. Dirks, representing the Board subcommittee in charge of sales policy for the NAB, and Harlow Roberts, vice-president of Goodkind, Joice & Morgan, Chicago, a member of the radio committee of the central division of the AAAA, co-sponsors of the BMB project.

Mr. Roberts and Mr. Feltis attended a luncheon of Kansas City agency officials, explaining the BMB plan. Present were: Bruce B. Brewer Co., Bruce B. Brewer, Quentin V. Brewer, and John K. Barton; Compton Adv., Merrell Boyce, W. B. Hill; Phillips, Reick & Sloecker, John Reick; Potts, Calkins & Holden, R. J. Potts, J. B. Woodbury, C. C. Tucker, E. A. Warner, C. L. Robinson; Potts-Turnbull Co., W. J. Krebs, C. R. Lawson, G. F. MacGill, E. T. Chester, W. B. Stone; Frank Whalen Co., Frank

Whalen; Abbott-Kimball Co., David B. Mindlin.

President Feltis will be assisted in the Minneapolis meeting Feb. 12 and at a luncheon meeting Feb. 13 by Otto Stadelman, secretary-treasurer of Needham, Louis & Brorby, Chicago.

Mr. Roberts has arranged an open meeting of the Chicago Radio Management Club Feb. 14 for all national representatives with offices in Chicago and members of the press in addition to regular members in Chicago on Feb. 14.

D. E. Robinson, director of research, Pedlar & Ryan, will be present in Pittsburgh for the meeting Feb. 15 and for the luncheon the following day.

During regular business sessions of the conference, stations were urged by Phil Hoffman, general manager, KRNT, to take fuller advantage of opportunities to develop

WSM Voluntary Transfer Asked of FCC Follows Pattern of WOW Transaction

FOLLOWING the pattern of the unique WOW Omaha transaction, the National Life & Accident Insurance Co. of Nashville, licensee of WSM, last week filed with the FCC an application for voluntary assignment of the license of the 50,000 w station to a new corporation—WSM Inc.

The transaction provides for lease of the station—one of the best-known in the country—over a 15-year period and would completely separate the station from the insurance company. Edwin W. Craig, president of National Life, also is president of the new corporation. Harry Stone, general manager of WSM under its present ownership, is vice-president and general manager of WSM Inc. The station organization would remain unchanged.

The new company has 5,000 shares of common stock at \$100 per share. Under the terms of the lease, WSM Inc. would pay to National \$100,000 annually in 12 monthly installments and in addition an annual rental of \$100,000, a percentage of the net profits realized from the WSM properties, calculated after the annual rental but before Federal taxes. This additional rental based on net profits would cover: on the first \$75,000, no rental; on the next \$50,000 or part thereof, 50%; on the next \$50,000 or part thereof, 60%; the next \$50,000 or part thereof, 70%; the next \$50,000 or part thereof, 80%, and on all additional profits, 90%.

At the end of the 15-year term of the lease (to run from 1945 until 1960), or upon its earlier termination, WSM Inc. agrees to deliver and surrender the property to National, in good order and condition except for reasonable wear and tear or damage by unavoidable casualty. If WSM fails to perform any agree-

ment in the lease, it would constitute default and after 30 days the lease would be terminated. It would be cancellable at any time by consent of the parties, or by either party without the consent of the other upon 30 days' notice.

The WOW transaction, whereby Woodmen of the World transferred the 5,000 w regional to a new company headed by John J. Gillin Jr., was approved by the FCC. It contained no reversionary clause whereby the Woodmen, also a life insurance operation, could recapture the station in event of default. The same general pattern is followed in the National Life-WSM Inc. transaction. The WOW lease is in litigation before the U. S. Supreme Court because of a stockholders' suit.

The WSM application gives as the reason for the assignment "simplification of corporate operations so as to separate radio station from the insurance company." The grand total of all equipment and property held by WSM is given as approximately \$512,000, of which approximately \$295,500 is technical equipment.

The analysis of income and expense of WSM for 1944 showed total broadcast revenues of \$1,062,421.85; total broadcast expenses of \$537,609.33, and a gain of \$524,812.52.

Of the aggregate income, sale to major networks (NBC) brought approximately \$260,000; national and regional time sales, \$615,000, and local time sales \$60,000, for an aggregate of approximately \$933,000 before commissions to agencies and representatives. Program expenses aggregated \$377,000, of which more than \$241,000 was for talent. National Life had total assets at the end of the year of \$155,765,000.

better public service programs. Representing the Radio Council of Kansas City, the Rev. Roswell Williams, treasurer of the Council and faculty member at Rockhurst College, spoke in support of the American system of radio. "I believe advertising makes radio free from controls that might make it primarily a propaganda weapon of the party in power," he said.

Harold Fair, program manager, WHO, and chairman of the NAB Program Managers Executive Committee, stressed the need for pioneering in program ideas. He said that the industry is facing a new period of development program-wise.

Honoring Mr. Ryan, the Kansas City Chamber of Commerce relinquished its regularly scheduled public affairs luncheon to the broadcasters. Mr. Ryan was introduced to the group by Arthur B. Church, president, KMBC, and his remarks were broadcast over the Kansas State Network. Lewis H. Avery, director of Broadcast Advertising for NAB, addressed the Kansas City Rotary Club at its Thursday luncheon session on the general topic of radio broadcasting.

Kansas City advertising agency executive, R. J. Potts of Calkins & Holden, was host at a cocktail party for the delegates the closing night of the conference.

In Washington, C. E. Arney Jr., secretary-treasurer of the NAB, announced the following Association board and committee meetings, to be held in Washington: Feb. 20, 21—Public Relations; Feb. 22, 23—Code Committee; Feb. 27, 28—Board Meeting; Mar. 1, 2—Research Executive Committee.

Fitzgeralds Move

ED and Pegeen Fitzgerald, whose morning cooperative programs are broadcast from their breakfast table, will move from WOR New York, to WJZ New York April 30. Team will be given a 25-minute daily spot before 9 a.m. on WJZ and will be groomed for a Blue Network program.

NAB DISTRICT MEETINGS

REVISED schedule of NAB district meetings follows:

First Section

District 11—Minneapolis, Mon. Tues., Feb. 12-13, Nicollet Hotel.
District 3—Pittsburgh, Thurs., Fri., Feb. 15-16, William Penn Hotel.

Second Section

District 1—Boston—Monday, Tuesday, March 5-6, Statler.
District 2—New York—Thursday, Friday, March 8-9, Roosevelt.
District 4—D. C., Virginia, West Virginia broadcasters, Washington—Monday, Tuesday, March 12-13, Statler.
District 4—N. C., S. C. broadcasters, Charlotte, N. C.—Thursday, Friday, March 15-16 (no hotel yet).
District 5—Ga., Ala. broadcasters, Atlanta—Monday, Tuesday, March 19-20 (no hotel yet).
District 5—Fla., Puerto Rico broadcasters, Jacksonville—Thursday, Friday, March 22-23 (probably Hotel Mayflower).
District 7—Cincinnati—Monday, Tuesday, March 26-27 (probably Hotel Gibson).
District 9—Chicago—Thursday, Friday, March 29-30, Palmer House.
District 8—Detroit—Monday, Tuesday, April 2-3 (no hotel yet).

MOUNT VERNON, VIRGINIA. LINOLEUM
BLOCK PRINT FOR WRVA BY CHARLES SMITH

VIRGINIA HOME OF AMERICA'S FIRST CITIZEN

A few miles from the nation's capitol, but within the borders of historic Virginia, is the magnificent

home of a man whose name is First in American honors. Here, at Mount Vernon, lived George Washington . . .

an exponent of genteel Virginia living . . . the awe-inspiring beauty of Mount Vernon reflects
that devotion to the good way of life. His home still symbolizes Virginia's unique, romantic and substantial

contribution to the legacy of America. More than a legacy, it is a living, real part of today's South . . .

as is WRVA, dedicated . . . to the glories of the past . . . needs of Today . . . and Tomorrow.

50,000 WATTS . . . NIGHT AND DAY
STUDIOS IN RICHMOND AND NORFOLK

WRVA

A Decade with
WRVA

Our association with WRVA, Richmond, extends over a ten-year period. We are proud to have played a part, as National representatives, in the deserved growth and success of WRVA which today is one of the most outstanding and effective stations of the South.

Sandage Gives Points for Radio Users

News, Music, Dominant Choice of Sponsors, Study Shows

A NEW BOOK by Prof. C. H. Sandage, *Radio Advertising for Retailers*, reporting comprehensively on the extent and character of the use of radio by local firms, was published today (Feb. 12) by Harvard U. Press, Cambridge (\$4).

Prof. Sandage

The study was made pursuant to the release of the NAB Retail Promotion Plan, which seeks to give department stores a clearer understanding of radio as an advertising medium. Prof. Sandage, Professor of Marketing at Miami U., Oxford, O., conducted the study while a visiting professor at the Harvard Business School under a financial grant to the school by CBS.

Warns Against Brief Use

Prof. Sandage's book reviews in detail the experiences of American retail advertisers who have employed radio to promote the sale of their merchandise. It explains that, in 1942, 50,000 local firms purchased radio time. There are, Prof. Sandage says, about 775,000 retail stores in the U. S. in the 586 communities where commercial radio stations are located.

Conclusions offered by the study include:

That real success from radio should not be expected during the first six months of use. Most firms, Prof. Sandage advises, should not use radio as a major medium unless they are prepared to employ it for at least six months.

Radio can be used as successfully by small firms in small communities as by large manufacturers in large cities.

The evidence, Prof. Sandage writes, suggests a tentative conclusion that firms with annual advertising expenditures of \$50,000 or more generally should expect to spend at least 15% of their total budget on radio if they wish high success; and that smaller firms should expect to spend about 20%.

Prof. Sandage finds that the factor of management is highly important to success in radio use. Such things as selection of appropriate items for radio mention; coordination of radio advertising with the entire promotional and merchandising plan of the store; and assignment of responsibility to a single head may determine success or failure.

Primary procedure employed by Prof. Sandage in compiling the book was personal interview. These interviews were supplemented by

mail questionnaires. In all, 382 personal interviews were held, the greater part with retail users, 206 usable questionnaires were returned by broadcast stations and 1,011 usable questionnaires were received from local firms using radio time.

Supplement with Spots

Prof. Sandage concludes, after an intensive study of the relative merits of announcement and program sponsorship, that good results can be obtained from either. "Where radio is used as an important part of the promotional plan," he writes, "better results will be obtained if program time constitutes the foundation of the radio undertaking and spot announcements are used only to support and supplement program sponsorship. Success from programs naturally depends largely on the degree to which a substantial listening audience is developed from groups representing actual or potential customers of the sponsor."

In 1942, Prof. Sandage reports, local business firms contributed more than 60% of the revenue received by the average broadcast station with power of 250 w or less. Some stations, answers to questionnaires indicated, depend almost entirely upon local business to survive, he reports.

"It is estimated that in 1942," the book states, "at least 50,000 local business firms purchased time from one or more broadcast stations. Approximately 40% of these firms were located in communities with a population under 25,000 and another 40% in cities with populations between 25,000 and 200,000. Types of users were varied, including such businesses as specialty clothing, furniture, department stores, jewelry, hardware, furriers, shoes, drugs, laundries, finance houses, opticians, funeral parlors and theatres."

Drawing averages from the statistics he gathered, Prof. Sandage reveals that the average retailer who used radio consistently throughout the year spent \$4,100 on the medium. This represented, he writes, about 11% of the total amounts such firms spent for all advertising. Department store users spent, on an average in 1942, only 5.1% of their advertising dollars in

radio, he points out. He finds there was wide divergence between budgets appropriated by department stores for radio, but that in no case did he note a figure higher than one-third the entire store budget diverted to the medium. He discovered in his study that many types of retail advertisers spent their entire appropriations on the air.

Long Term Users

"Many retailers have been long term users of radio," he says. "Of those who used radio throughout 1942, one-half had used it for five years, and 20.5% had used this medium for 10 years. The percentage of long term users becomes more significant when it is realized that the number of commercial radio stations increased 56% from 1934 to 1942 and hence many 1942 advertisers had no opportunity to use radio in 1933."

Finding that local radio advertising predominantly was announcement advertising, the author comments, "Retailers and other local firms either have avoided the work involved in building their own radio programs or have been influenced by station policies and personnel to depend largely on spot announcements. In 1942, local business firms spent about 55% of their radio time dollars for spot announcements. While department stores placed less relative emphasis on non-program time than is true of any other type of retail outlet, they allotted, on the average, 44.3% of their radio budget to spot announcements. The comparable figure for shoe stores was 80.4%."

Retailers sponsoring radio programs in the year the study covered preferred news and music above all other types of programs, Prof. Sandage reveals. "A number of retailers sponsored more than one kind of program," he discovers. "News was sponsored by 44.2% and music by 43.6% of all retailers sponsoring programs. Variety programs were the next in volume of sponsorship, but this type was used only by 11.5% of all retail buyers of program time. Sports programs were generally low, but popular among men's wear and family clothing stores."

Prof. Sandage concludes that many opportunities for developing

Home to WOW

ADVERSE housing conditions in Chicago so disheartened Ray Olson after four months of futile searching for a suitable place for his family that he has resigned as announcer for NBC Chicago and returned to his home station, WOW Omaha. A Davis Award winner and production manager of WOW, Ray said "Stuffy hotel rooms got me" and he "couldn't stand being fenced in." David Rodgers, formerly with WFWM and WIRE Indianapolis, replaces him at NBC.

programs with particular local appeal have been ignored by broadcast stations and retailers. He says that much effort has been devoted to attempts at copying network programs and not a great deal to developing local personalities and building shows with a distinct local setting and flavor.

Attitude of Agencies

Of advertising agencies, Prof. Sandage says: "They have played a distinctly minor role in the field of retail radio advertising. Of the total number of retailers cooperating in this research investigation, only 16.5% made use of advertising agencies in connection with their 1942 radio efforts. The advertising agency was used extensively only by retailers located in cities with populations exceeding 500,000. In the case of such retailers, 53.8% used the services of agencies to some extent in 1942."

Prof. Sandage reports that attitude of agencies toward retail accounts tended to fall into three categories: (1) lack of interest in business from retailers; (2) interest limited to purchase of spot announcements and to giving general counsel, and (3) interest in building local programs on a syndicated basis. Retail accounts, he said, were used by many agencies only as stepping stones to "big money".

The Sandage book, *Radio Advertising for Retailers*, is offered in five parts and 13 chapters. Novel presentation in the book finds chapter II entitled "Summary and Conclusions", in which the author recapitulates his findings, and warns the reader that he should read beyond the point only if his interest in the subject is something more than superficial. Subjects dealt with specifically and in detail include: Extent and Character of Radio Use by Local Business Firms, Radio as a Medium for Selling Specific Merchandise, Radio as a Builder of Goodwill and Store Traffic, Factors Making for Success or Failure, The Radio Audience, The Radio Program, Spot Announcements, The Commercial Message, The Radio Station, Advertising Agencies and Other Service Organizations, The Regional Advertiser.

C. H. SANDAGE, professor of marketing at Miami U., Oxford, O., directed the first study of radio broadcasting by the U. S. Bureau of the Census in 1935 and is the author of *Advertising Theory & Practice* as well as many articles and government publications. In compiling material for *radio advertising for retailers*, he was counseled by an advisory committee, which include: Neil H. Borden, chairman; Harry R. Tosdal, Malcolm P. McNair and Stanley F. Teele, all of whom are members of the faculty of Harvard U.

THE HORN OF Plenty

SHORTWAVE WAR AGAINST NAZIS

RCA Transmitters Fight Germany and Satellites

—From Installations on 5 Continents—

WAR BEING waged against Nazi Germany via shortwave from five continents will increase in tempo as additional RCA shortwave transmitters go into action within the next few months, it was revealed last week by the RCA Victor Division of RCA. The company has shipped the last of a total of 23 transmitters to be supplied by RCA. Three additional RCA transmitters of this type have been completed and soon will be shipped, with installation of the rest of the transmitters bringing to a total of ten the number of countries and territories represented.

First to "invade" the Axis and satellite nations, with words for weapons, shortwave transmitters helped pave the way for the physical invasion now in progress. Keeping up a constant bombardment of news, education and counter propaganda that is heard and felt around the world, they are helping now to consolidate Allied gains and facilitate further Allied victories. Among the RCA transmitters

now on the air are seven operated for the OWI including five on the East Coast of the U. S., one on the West Coast, and one in North Africa. Three of the East Coast stations are being operated for OWI by the NBC, a subsidiary of RCA, and the other two by CBS. The West Coast station is being operated for OWI by Associated Broadcasters. First of the list of 23 to be installed was a transmitter purchased by the Brazilian government for Radio Nacional, government operated station at Rio de Janeiro which went on the air during the winter of 1942-43. The installation was supervised by John Dawson, RCA field engineer.

Radiodiffusion Nationale Belge (Voice of Free Belgium) was next to be installed at Leopoldville, Belgian Congo, and Radio Brazzaville, operated by the French National Committee for Liberation, Brazzaville, French Equatorial Africa. These transmitters went on the air in the spring of 1943. The Leopoldville installation was supervised by Walden Shaw, and Brazzaville by Paul C. Brown, both RCA field engineers. Development of this type of transmitter was begun by RCA about a year before Pearl Harbor, when the increasing importance of high-power international radio became apparent.

Rectifier, audio and control circuits of the RCA 50-SW are much like those developed for the RCA 50-E standard broadcast transmitter. The radio frequency circuits, however, are quite different, since the requirements of international broadcasting present problems that are not ordinarily encountered in domestic medium-frequency transmitters.

OWI Expands Japanese West Coast Operations

MOVING its Japanese Division from Denver to main headquarters of Pacific operations in San Francisco, the OWI last week planned to step up its psychological warfare against Japan, according to an announcement by OWI Director Elmer Davis. Recent addition of six new shortwave transmitters on the Pacific Coast, plus the new Honolulu shortwave transmitter and the new medium-wave standard station on Saipan has more than doubled the output of the *Voice of America* to Japan and the Japanese people, Mr. Davis said.

Japanese translators and announcers are now being moved to San Francisco where they will join the present staff to consolidate Japanese programming activities on the West Coast and make it possible to carry the *Voice of America* to Japan nine hours daily. Heretofore programs have been written in English in San Francisco, transmitted by teletype to Denver, translated and voiced in Denver, and relayed back to San Francisco by land line. Then recordings were broadcast to Japan and Japanese occupied areas in the Pacific.

Borden Replaces

BORDON Co., New York, on March 5 replaces Ed Wynn's *Happy Island* on 185 Blue stations Monday 9-9:30 p.m. with a new springtime musical variety show. Wynn show is being discontinued Feb. 26 to allow Mr. Wynn to make a tour of the "Purple Heart Circuit", visiting servicemen hospitals in the U. S., it was said. Full details of the new show have not been completed, but it is known that Borden will retain Mark Warnow's orchestra and Jerry Wayne, singer, both featured on the present show. Agency is Young & Rubicam, New York.

NEW OPEN-FACED acoustic booth having a direct wire from the Salt Lake Airport to KSL Salt Lake City for daily weather forecasts cuts out the roar and reverberation of airplane motors formerly contended with. A. B. Carpenter, supervising forecaster, is delivering the noon-hour report.

U. S. COAST GUARD OFFICIAL PHOTO

“Show me some water!”

That's the request a United States Coast Guard officer makes when he test-checks a fireboat in the harbor.

And that's the same kind of request many an advertiser is going to make . . . maybe in a different way.

The smart advertiser is going to say, “Show me some results!” . . . when the postwar race for sales and brand identification starts again.

We've made a habit of producing the largest results at the lowest cost in Baltimore.

So if you are planning to go after this market, a good bet is W-I-T-H, the successful independent. In a five-station town...it delivers the largest listening audience at the lowest cost.

W-I-T-H

Baltimore, Md.

Tom Tinsley, *President* • *Represented Nationally by Headley-Reed*

Sees No Competition

"RADIO can never be a substitute or serious competitor for the newspaper," Robert McLean, publisher of the *Philadelphia Evening Bulletin* and AP president, told the annual conference of the Pennsylvania Newspaper Publishers Assn. in Harrisburg. "Radio primarily is an entertainment business," Mr. McLean added. "Newspapers are concerned primarily with dissemination of news. However, newspapers at last are awake to the fact that they have a lusty competitor." The *Bulletin* bought WPEN Philadelphia last year [BROADCASTING, Dec. 11, 1944].

CANADIAN BROADCASTING Corp. shortwave transmitters at Sackville, N. B., which began operations Christmas Day with programs for Canadian troops overseas, on Feb. 11 began foreign language broadcasts in French, German, Dutch, Flemish and Czech. The 50 kw stations are operated by the CBC for the Canadian Government's Dept. of External Affairs.

New Basic Time Period Breakdown Plan Advocated by Dick Slater of W. E. Long

BASIC TIME period breakdown, claimed to be an improvement over the system offered by Joseph R. Spadea [BROADCASTING, Jan. 16] has been presented by Dick Slater, program supervisor of the radio division of the W. E. Long Co., Chicago, station representative.

The Long plan, designed particularly for the morning periods and taken from the firm's "Morning Radio Show Production Manual" rearranges the three main program elements—music, information and news—so that news periods are contained within a time segment instead of in a lead, or separate position. This re-balancing places news, which is actually third in listener popularity according to the manual, between musical, commercial and service announce-

ment segments of the total period. Each of these segments then becomes a separate sponsorable portion.

As seen on the chart, the first quarter-hour period contains a one-minute spot, two sponsorable five-minute music segments, a sponsorable three-minute news segment and a sponsorable one-minute weather report.

"In advocating the plan," the manual states, "special stress is placed upon making all program features contained in the period altogether complementary to each other, with the result that all features will be equally attractive to advertisers and serve listeners according to people's prime interests at this time of the day."

It is pointed out that this type

ANOTHER CLOCK

of scheduling not only increases revenue potential but also raises program standards by offering a variety of interest-appeals within a given period often saturated with a single type of programming of interest only to part of the listeners. In the morning periods few people have time or take time to dial for suitable programs when stations schedule all of the same type of program fare during an extended or important time segment, the manual brought out.

GILCHRIST STORE SIGNS WNAC SERIES

AN INVESTMENT of \$50,000 for Gilchrist's Dept. Store of Boston, Quincy, Waltham and Brockton is represented in store's sponsoring of *The Answer Man*, broadcast on WNAC Boston, key station of Yankee. The fact-finding series is broadcast every night except Sunday, 6:30-6:45 p.m. Other stations carry the same show with store sponsors of the area.

Institutional and good-will type advertising is to be used for the opening weeks of the series, rather than straight merchandise selling. According to Julian Burnce, Gilchrist's advertising manager, the store is conducting a wide advertising campaign in connection with the program. Top strips on all Gilchrist stores' signs call attention to *The Answer Man*, and the four stores feature a window display on the series.

Present at a cocktail and dinner party given by Yankee Network to celebrate the contract, with Linus Travers, Yankee executive vice-president as host, were, among other: George Wiswell, of the Chambers & Wiswell Advertising Agency, handling the account; Charles Curtin, WNAC producer; James S. Powers, director of merchandising and promotion; Phyllis R. Doherty, publicity director; John Harrington, New York representative; N. O. Herman, account executive; Madeline Allen, a script-writer; Martha Johnson, sales promotion staff; Edna Youmans, secretary; Bill Hahn, announcer, and Charles Forrester, "The Answer Man", all of WNAC. Mrs. Suzanne S. Graham, director of sales and merchandising of the Gilchrist Co. and Julian Burnce, advertising manager of Gilchrist's were among those representing the store.

Duplicating this WTAG-originated project 10,000 times would destroy war forever, in the editorial opinion of the Toronto Financial Post. Dozens of official representatives of all the United Nations have or will come to Worcester, to talk to civic organizations, public school classes etc., to participate in the renowned Clark University Forum, and to broadcast to WTAG's huge Central New England audience. The OWI week after week beams these activities to the home

lands of these nations.

Worcester is the first city, as WTAG is the first station, in this country to attempt to solve future problems of United Nations cooperation upon a foundation of knowledge and understanding. Small wonder that this kind of creative force is acknowledged by an overwhelming audience preference for WTAG—the station with the INSIDE track, INSIDE of Central New England.

radio's greatest

Program Promotion Campaign

FOR THE FIRST TIME:—

Every NBC commercial program participates in the campaign—111 day- and night-time programs in all.

Individualized promotion kits tailored for each program, at no cost to clients or agencies.

Every NBC station supports the campaign with local promotions adapted to produce the best results in its coverage area.

The NBC Parade of Stars becomes a year-round effort consistently building more audience for all NBC programs.

Of the 40 most popular programs on all four networks, 25 are heard on NBC—America's No. 1 Network. This is no coincidence; it is due to a combination of good programs, plus unexcelled facilities, supported by radio's most effective audience-building effort, the NBC Parade of Stars.

This **FIRST REPORT** records that campaign in terms of listener impressions, created by the teamwork of NBC and its independent, affiliated stations during October, November and December, 1944.

ON-THE-AIR

For October, November and December, 1944 — NBC Stations used: —

Station-Break Announcements	NUMBER	MINUTES	COST, IF PURCHASED

Total number direct-mail pieces 407

Total circulation 6,831,365

PLUS INGENUITY

A FEW TYPICAL EXAMPLES: ★ An actual star parade complete with a band, high school students carrying blow-ups of NBC stars and an on-the-spot broadcast. ★ "Parade of Stars Month" officially proclaimed by the city's Mayor and given widespread publicity. ★ News broadcasts from a promotionally decorated window of a down-town department store. ★ Electric moving signs on important street corners. ★ Others were exhibits at State and County Fairs, personal appearances of stars, luncheon club

Year-'round Parade

Week after week, NBC stations are bringing larger audiences to NBC programs. For the NBC PARADE OF STARS is a continuing program-promotion campaign . . . a year-'round promotional effort that pays DIVIDENDS.

New ideas, new campaigns, new recordings, new promotional kits are constantly on their way to stations affiliated with the network, ready to do a job of telling their listeners and potential listeners about the superiority of NBC programs—ready to build ever larger audiences for NBC advertisers.

On-the-air programs . . . the newspaper ads and publicity . . . the billboards and car cards and window displays . . . the program schedules and other mailing pieces . . . the ideas that NBC-station promotion men place behind the campaign . . . all these will continue throughout the year to bring more listeners to "The Network Most People Listen to Most."

over these NBC Stations

America's No. 1 Network

Canadian Radio Men Stress Programs

Large U. S. Attendance Expected at Sixth War Conference

By JAMES MONTAGNES

CANADIAN broadcasters will hold their sixth wartime convention Feb. 12-14 at the Chateau Frontenac, Quebec, with program betterment in all phases a major subject. This marks the 11th annual convention of the Canadian Assn. of Broadcasters, whose membership now embraces most Canadian privately-owned stations.

Commercial continuity, music copyright fees, Bureau of Broadcast Measurement, CAB code of ethics, public relations, program improvement, public service activities, are featured on the convention agenda.

Many From U. S.

While conventions have been banned in the U. S. because of transportation problems, a number of American broadcasters and representatives of the Government and supply industry are coming to Quebec from South of the border. Canadian broadcasters picked Quebec for their convention since it is off the beaten track in winter months, has no heavy traffic or transportation difficulties as have other major eastern Canadian cities where conventions are usually held. There is no convention ban in Canada.

That some new plan for levying fees for broadcast copyright music is in the offing for postwar is realized from the fact that advance registrations show a number of representatives from the Canadian Performing Rights Society, music publishers, ASCAP and BMI will attend the convention for the first time. Performing rights fees are up for discussion on the Wednesday morning closed session.

Also expected this year in larger numbers than previous years are representatives of Canadian and American advertising agencies, who will see managers of stations with whom they usually deal by mail or through representatives. The year-old Bureau of Broadcast Measurement meeting on Monday afternoon also is a factor in bringing these advertising agency executives to the convention.

The Agenda

A number of agencies are looking to postwar radio expansion and are attending with this in mind. Of interest also is a luncheon on Tuesday by Swift Canadian Co. Ltd., Toronto, to Canadian Broadcasting Corp. Dominion network station executives attending. (Swift's use Dominion net for *Breakfast Club* daily program.)

Agenda calls for open business meeting with appointments of committees, hearing of legal, engineering and commercial continuity committee reports and president's

annual address at the Monday morning opening session. Monday afternoon is devoted to BBM with open and later a closed meeting.

Tuesday morning reports on the Canadian Radio Technical Planning Board, CAB code of ethics, programs, public relations, and public service broadcasts will be heard in open meeting. Tuesday afternoon's closed session will be devoted to financial reports and election of officers. On Tuesday evening the annual dinner will be addressed by Peter Stursberg, Canadian Broadcasting Corp. war correspondent.

Wednesday morning's closed session will consider performing rights fees, standardization of rate structure, Parliamentary Radio Committee report and music problems. Closing session will be Wednesday afternoon with reports from standing committees and general business.

Social functions at the convention include French-Canadian dinner by CFRB Toronto, to advertising agency executives attending, CAB dinner to NAB directors and

other U. S. guests, cocktail party by Canadian National and Canadian Pacific Telegraphs, cocktail party by Canadian Marconi Co., and dinner by All-Canada Radio Facilities for stations the organization represents and American visitors.

Other Meetings

Several organizations are planning meetings in conjunction with the CAB convention. Preceding the annual conference, meetings of member stations of the Canadian Broadcasting Corp. Trans-Canada and Dominion networks were held at the Ritz Carlton Hotel, Montreal, last Wednesday and Thursday. CBC officials met with managers and executives of privately-owned stations to discuss problems confronting the two Canadian networks, both of which are controlled by CBC under the law.

A sales conference of executives of stations represented by Horace N. Stovin & Co., Toronto, Montreal and Winnipeg, is scheduled for Feb. 16 at the Windsor Hotel, Montreal, following the CAB convention.

Paul deMars Joins Ray Wilmotte Firm

Firm Planning New Consulting Engineer Service for Radio

ASSOCIATION of Lt. Comdr. Paul A. deMars, USNR, former vice-president and chief engineer of the Yankee Network, with the consulting firm of Raymond M. Wilmotte,

was announced last week by Mr. Wilmotte. While on active duty, Comdr. deMars will give the firm counsel and advice to the extent that his Navy duties permit.

A pioneer in Comdr. deMars FM, Comdr. deMars was one of

the earliest experimenters in the study of radio propagation. He formerly was professor of electrical engineering of Tufts College, when he initiated research covering ionosphere studies, field intensity measurements and recordings. With Yankee he designed and built the FM stations at Paxton, Mass. and Mt. Washington, N. H., and is responsible for solving numerous FM problems.

Active in FM

Since June 1936, when he heard Maj. Armstrong's paper on FM presented before the Washington section of IRE, Comdr. deMars has participated actively in FM development. Comdr. deMars' association with the Wilmotte firm brings together two radio pioneers. Mr. Wilmotte initiated the directional antenna in broadcasting as a means of providing mutual protection of stations from interference on the same frequency. In 1931 he built the directional at WFLA Tampa—the first installation of that character.

Coincidental with the announcement, Mr. Wilmotte said his firm plans to offer broadcasters and new organizations entering radio a new consulting engineering service involving the detailed design of a broadcasting system from studio to antenna. The Wilmotte firm during the war has been carrying out service contracts on design and equipment and communications systems for military establishments.

Toronto Video Planned

TORONTO plans to have the first television station in Canada, it has been announced by Dr. A. Frigon, general manager of the Canadian Broadcasting Corp., Ottawa. He stated that a site had been obtained by the CBC for a television station. Other television stations would be established in Canada in due time. No date was set for construction or opening of the Toronto station and no change was announced in CBC policy to allow privately-owned television stations to be built.

PRODUCTION rose to an all-time high mark of \$54,000,000 for Stromberg-Carlson Co., Rochester, during 1944, exceeding by more than a third the record for the previous year.

"Listen, neighbor!"

"Listen, neighbor," says WIBW—and throughout Kansas and adjoining states, over five million people DO listen.

Even more important . . . they ACT on what they hear. Why? Simply because they've learned that they can **DEPEND** on what WIBW tells them. They look on us as a next door

neighbor whose interests are identical with their's . . . and that's the way we talk with them.

Our time-tested, over-the-fence method of selling gets results that no advertiser in this rich, agricultural market can afford to overlook. Let us prove it for you and your product.

ODE *to be read at a treasurer's meeting*

This ad, you see,
Is done in verse.
(Our prose, we add,
Is even worse.)

BUT, VERSE OR WORSE,
We'd like to say,
Here's something you
Should read today.

Of six like programs in New York—
We're not referring now to Cork—
Which last year reached more homes for less,
Five were ours, we'll now confess.

We mean such things as Beatty, Deane,
Our Al McCann and gay Pegeen;
And with a note of due decorum,
The fifth, of course, is The Food Forum.

They reached each
1000 homes or such
For sixty-cents—
Which isn't much.
While other shows
On other stations
Ran into quite
Involved equations.

THE MORAL
to this verse is this—
If by mere chance
we've been amiss—

If you have a product or service that women want, or should know about, you'll reach more people per-dollar on WOR's women's shows than on any similar shows on any other major station in Greater-New York.

Our address is—

WOR

*—that power-full station
at 1440 Broadway, in New York*

More Parker News

PARKER WATCH Co., New York, which sponsors Johannes Steel, commentator, on WHN New York, five times weekly from 7:45-8 p.m., on Feb. 5 added a 6 p.m. broadcast by Mr. Steel piped direct to WHDH Boston by Class A lines from WHN studios. Plans are under way to pipe Mr. Steel's broadcasts from WHN to stations in Philadelphia, Baltimore and Washington. A special newspaper campaign is also being conducted drawing attention to Mr. Steel's broadcasts in New York and Boston. Agency is Sterling Adv., New York.

Classic Transmission

TRANSMISSION of "Trio," latest musical score of Dmitri Shostakovich was arranged from Moscow to New York last week via radio-photo over the circuit of RCA Communications Inc. Actual transmission, which was heralded by RCA as the first transmission of its kind involving a major musical work, took 24 minutes for the first pages of the score to come from Moscow over the RCA receiving radio-photo machine. Samuel Chotzinoff, manager of the NBC music division, arranged to secure the composition.

EVER SHARP FOR A GAG is Milton Berle (c), comedian m.c. on *Let Yourself Go*, now heard on CBS 10:30-11 p.m. Wednesdays, as he points a sharp finger at Martin L. Straus, president of Eversharp Inc., his sponsor. Impromptu audience is composed of (l to r): Hal Block, executive producer of program; Ann Marlowe, originator of show; Mr. Straus; Mr. Berle; William C. Gittinger, CBS vice-president in charge of sales; Frank K. White, CBS vice-president and treasurer; Frank Barton, business manager, radio department, the Biow Co., Eversharp agency.

ANPA Cancels

AMERICAN NEWSPAPER Publishers Assn. has canceled its annual convention, normally held in April in New York, and the ANPA's Bureau of Advertising has also canceled its annual dinner and advertising sessions which are usually featured at the meeting. Associated Press, whose annual meeting is customarily held the day preceding the ANPA sessions, expects to hold a business meeting but has canceled the annual AP luncheon, usually attended by more than 1,000 members and guests.

Film Disc

UNIVERSAL PICTURES Co., New York has prepared a full half-hour transcribed dramatization of "The Suspect," for placement on stations in conjunction with local openings of the film. Orson Welles takes the lead part played by Charles Laughton in the film. Disc was sponsored commercially on six New York stations Jan. 29 and Jan. 30—WEAF WJZ WMCA WNEW WOR WQXR. Records were cut by WOR Recording, New York. Agency is J. Walter Thompson Co., New York.

HOUSE VOTE SAVES FARM RADIO COUNT

WITH THE PASSAGE by the House last week of the Agricultural Census Appropriation bill (H. J. Res. 85), providing funds to complete the quinquennial census of the nation's farms, the Bureau of the Census, Department of Commerce, will make the fullest use of radio to enlist cooperation of farmers in filling out enumerators' schedules. Census will furnish, among other pertinent data, the number of farms owning radios.

Despite strong opposition from Republican members, the bill, carrying an appropriation of \$6,784,000, passed the House Wednesday by a vote of 198 to 171. A similar measure had passed the Senate last session but failed of passage in the House. The Senate is expected to concur in the House action.

Actual enumeration work on the census began Jan. 8 under an appropriation of \$7,250,000 previously provided for preparatory work of planning and printing schedules, hiring and training of enumerators, and preliminary tabulation. The additional funds cover increased rates of pay to enumerators and publication of data by counties, states, and geographical regions.

The census will provide the first official figures on farm use of radio since the last agricultural census in 1940 when 4,271,000 or 60% of farm homes reported radio ownership. It is expected that the 1945 census will show a substantial increase over this figure.

In addition to the basic radio data, the census will also provide figures on electrically operated and battery operated sets. This information will be ascertainable by relating information collected on use of electricity on farms. The Bureau expects to release county totals by late summer.

Radio Convention

THEIR annual conference canceled as a result of the Office of Defense Transportation ban, the Federation of Republican Women's Clubs of New York State on Feb. 2 broadcast talks by three key speakers on a hookup of Blue Network stations in New York State, while members gathered at radio sets in their communities.

THE Prestige STATION OF THE CAROLINAS

Prestige is that intangible something that cannot be bought over the counter. It is an influence that results from reputation or achievement.

We are proud of our slogan here at WBIG. We appreciate the trust that has been manifested by those who live and listen in "The Magic Circle" ... that rich Urban and Rural Market that is dominated by WBIG.

CKSF Opens Feb. 15

CKSF Cornwall, Ont., which was to have gone on the air on Feb. 1, is now definitely scheduled to go on the air Feb. 15, with a special program recorded in England in its namesake city, Cornwall. Arrangements were made by H. Harrison Flint, manager of CKSF, and S. J. de Lotbiniere, BBC representative in Canada. CKSF operates with 250 w on 1230 kc. Studios have been designed by Donald McInstry, chief architect of the Canadian Broadcasting Corp.

Three Sign Harkness

THREE additional sponsors to sign for local sponsorship of *Harkness of Washington*, NBC five-times weekly quarter-hour news program, include Lewis Cigar Mfg. Co., WEA New York; Montgomery Ward Co., WCFL Chicago, and Free Service Tire Co., WROL Knoxville, Tenn. Series is now sponsored in 33 cities.

AFTER A HEARTY breakfast at the Andrew Jackson Hotel, Nashville, Harry Stone (left, at head of table) is getting ready to make his speech to the members of the Tennessee Press Assn. in which he urged cooperation of press and radio. On Mr. Stone's left is Dean R. Upson, commercial manager of WSM Nashville, and on his right is Guy Easterly, TPA president. Others at table are TPA members. Occasion was the mid-winter meeting of the Tennessee Press Assn. WSM has conducted an extensive advertising campaign in the state press during the past year promoting interest in broadcasting among listeners.

Senate Committee Plans Radio Probe

Small Business Group Slates Monopoly Investigation

A SWEEPING investigation into all channels of mass communication—the motion picture, newspaper and radio fields—will be conducted by the Senate Special Committee to Study & Survey Problems of Small Business Enterprises, it was disclosed on Capitol Hill last week.

Headed by Sen. James E. Murray (D-Mont.), often at loggerheads politically with Sen. Burton K. Wheeler, senior Senator from Montana and chairman of the Interstate Commerce Committee, the Committee plans to delve into reported monopolistic tendencies in all phases of mass communication, according to Dewey Anderson, Committee general counsel.

Free Enterprise vs Monopoly

"It's the old story of free enterprise versus monopoly," he said. Plans are first to conduct a thorough probe of the motion picture industry which, the Committee has been informed, gradually has become difficult for the "little man" to enter while monopolies have encroached upon the field.

No effort will be made to begin the radio study until after the movie question has been disposed of, according to Mr. Anderson who last week was in the throes of finding new office space in the Senate Office building.

Only one complaint has been lodged with the Committee with reference to radio, he said, and that from a broadcaster who owns two small independent stations. The Committee plans to inquire into sales prices of stations, particularly where fabulous sums have been paid for stations by large corporations. Another phase of the probe will involve complaints that the networks gradually are encroaching upon the independence of small stations.

The newspaper-radio ownership question will be thoroughly studied to ascertain whether joint ownership could create a monopoly of news dissemination, to the detriment of the "little fellow". In the newspaper field the Committee will investigate wire services and the overall handling of news.

Mr. Anderson was general counsel of the Temporary National Economic Committee, headed by Sen. O'Mahoney (D-Wyo.), a few years ago.

Lair Elected V-P

JOHN W. LAIR has been elected vice-president and controller of the American Cable & Radio Corp., an affiliate of AT&T, with which he has been connected for 14 years. Mr. Lair also is a director of Mackay Radio & Tel. Co. and controller of All-America Cables & Radio, Commercial Cable Co., and Cuban All-America Cables, all IT&T affiliates.

Fish Make Poor Customers!

History tells us that Demosthenes practiced speaking with a mouthful of pebbles. He would walk back and forth along the sands, making his speech to the ocean.

But when ready, he delivered his famous orations before tremendous crowds, and thus gave to posterity some of the truest masterpieces of oratory the world has ever known.

The point being this . . . if you want to sway people,

have a sound message and be sure they're listening.

The story of Demosthenes is the story of radio. No matter how excellent your program, if the public isn't tuned-in to the station you're using...you're broadcasting to the ocean.

Your sales message broadcast over W C B M, will go directly to the Baltimore market, for listening to WCBM has become a habit in Baltimore.

General Manager

Radio's War Service

SPEAKING over the Union Pacific Railroad Co. program, *Your America*, last week R. C. Cosgrove, president of the Radio Mfrs. Assn. and vice-president and general manager, manufacturing division of the Crosley Corp., Cincinnati, declared that the radio industry has produced more than \$4,000,000,000 worth of equipment during 1944. Mr. Cosgrove cited the tremendous contributions made to the war program by American radio, and pointed out that the U. S. alone produces more radio and radar equipment than our Allies and the Axis combined.

Milani Places

LOUIS MILANI FOODS, Chicago, began sponsorship Jan. 31 of six spot announcements weekly on WIL St. Louis, and on Feb. 12 approximately 20 spots weekly on WSUN St. Petersburg; WKAT Miami Beach; WMBR Jacksonville; WFOY St. Augustine. Till forbid contracts were placed by Kalom Adv., Chicago.

NON-LISTLESS listeners, Gregg Donovan (center), NBC central division announcer, and Bill Kephart, (r), chief of announcers, NBC Chicago, hear Lt. Norman Barry, former NBC Chicago announcer, tell of life on a PT boat on his return after 15 months in the Pacific. Lt. Barry, who has been awarded the Bronze Star and the Presidential Citation, is in Chicago on a 30-day leave.

OTHER FELLOW'S VIEWPOINT

DuMont Clarifies

EDITOR BROADCASTING:

I was interested in reading an article by Bill Bailey on page 15 of the Feb. 5 issue of BROADCASTING. In this article he quotes a statement by me commenting on the recent proposed allocations of the FCC and infers that the television manufacturers anticipate operating their sound channel only during the daytime and thereby supply programs to the present FM set owners, giving television a jump on FM.

I believe that if Mr. Bailey realized that the channels previously assigned to FM were from 42 to 50 mc and that there is only one television channel in this band of frequencies, namely, the channel from 44 to 50 mc, it would be only possible to transmit one sound pro-

gram which would be available to the outstanding FM receivers. Obviously this would be of no particular value to the television industry and also no particular advantage to the owners of the present FM receivers. Incidentally, there is no television station operating at the present time between 44 and 50 mc and it would undoubtedly take a considerable period of time to shift one of the present stations on that frequency.

I am writing this letter because we have enough problems in connection with allocations which are real ones and should be considered, that it is inadvisable to bring up a point which tends to confuse the issue and has no real substance.

ALLEN B. DUMONT,
Allen B. DuMont Labs. Inc.

Feb. 5.

They Listen

EDITOR BROADCASTING:

Broadcasting is 25 years old. We are telling everyone about it. Yet our own continuity writers and news commentators, judging from most every program they broadcast over our facilities, seem to question whether anyone ever listens to radio. Yes, that's right.

Throughout the day, every day and on any and all stations, you hear them saying, "You read in your paper today, etc." or "You must have seen in your papers, etc." or "You'll read in your papers tomorrow, etc."

These copy writers and newsmen never figure for a minute people listen to the radio and may have heard on the radio the item referred to. Catch what I mean?

Yes, fellow broadcasters, let's stop this condition right now as a 25th anniversary industry-wide move. Every network and station manager in the nation should issue orders to his staff hereafter to assume when writing copy and comment, that everyone listens to radio and as far as broadcasting knows, no-one reads.

It's time we grow up as an industry, time that we admit over our stations that people hear.

I'll wager you never read in any paper an announcement saying, "You hear over your radio, etc." So, why not tear this article out and attach it to an order to your staff on the subject. Tell them radio has grown up . . . it is 25 years old and people listen to radio, so hereafter admit it in everything they write and broadcast.

NEW DRAMATIC series America Unlimited, stressing what Chicago can do to save the lives of fighting men and speed the war's end, and emphasizing the parallel between soldiers in battle and workers in war plants started on WGN Chicago Feb. 5 under a unique cooperative arrangement. Time costs for the Monday 9-9:30 p.m. program are assumed by the Tribune Co., WGN produces the show and the following companies pay talent costs: Republic Steel Corp.; Pressed Steel Car Co.; Ingersoll Steel & Disc Division, Borg-Warner Corp.; Aluminum Co. of America; Electro-Motive Division, General Motors Co.; Western Electric Co., and Buda Co. Series was promoted by a full-page multi-color ad in the Feb. 5 *Daily Tribune*.

Youth Town Meeting

SPONSORED by the San Francisco Recreation Commission, KYA San Francisco has started a Sunday evening *'Teen Age Town Meeting'* program aimed at giving youth of the city an opportunity to express its views on modern controversial issues concerning youth—especially such as are often settled without preference to opinion of the younger generation.

Purely PROGRAMS

Rehabilitation

GRAPHIC portrayal of the Army Air Force's rehabilitation program for returned fliers shows how "Johnny Comes Marching Home" in a quarter-hour series under that title on KFVB Hollywood. Written and produced by Capt. John Bogue, Sgt. Hal Levy and Pfc. Ben Norman, series is presented by Santa Ana (Cal.) Army Air Forces Redistribution Center, using servicemen from that base as well as First Motion Picture Unit.

Recruiting

NEW SERIES of programs entitled *The Girl Behind the Gun*, designed to recruit women as civilian employees for departmental service with the United States Army Service Forces in Washington, is now presented on WNEW New York. Featured in the weekly half-hour musical program at 9 p.m. will be an all-soldier orchestra and a weekly guest star.

Navy Series

THE NAVY pays tribute to the shipyards of the nation in *The Navy Reports*, weekly half-hour program which started on WHN New York Feb. 4, only a few weeks after the special Senate committee investigating the war program brought charges that there was loafing and inefficiency in certain Navy yards. Well-known entertainers, Navy officials, service orchestra and detailed account of how the shipyards are doing their part in the war effort are presented on the series.

Blue Nurse Aid

TO HELP the American Red Cross in its nurse-recruitment campaign, the Blue Network Feb. 9 broadcast the first in a series of half-hour programs dramatizing the work of nurses who have served overseas. Plans call for direct pick-ups from nurses at overseas posts towards the end of each program.

WKY Servicemen's Aid

A SERIES of 10 consecutive broadcasts was started on WKY Oklahoma City Jan. 29 titled *Women Commandos* under the sponsorship of the Oklahoma Natural Gas Co., designed to assist the woman in the home to learn how she can best help with the adjustment of men returning to civilian life. Julie Bennell, producer of the series, returned recently from Washington where she transcribed interviews with leading military authorities on rehabilitation. At the end of the clinic all interviews will be offered to study clubs in Oklahoma on phonograph records.

Jobs for Vets

DESIGNED to find positions for returned war veterans, new weekly program titled *Jobs for G.I.'s* has been started on WJW Cleveland by Kronheim Furniture Mfg. Co. Three discharged servicemen each week tell their stories on the program, heard 9:30 p.m. Monday, with job offers telephoned in during the broadcast by interested employers. Series is conducted in cooperation with the War Manpower Commission and the U. S. Employment Service. Lustig Adv. handles the Kronheim account.

Wounded on WMCA

WOUNDED soldiers who have just arrived by plane from the European area will be interviewed from the wards of the hospital at Mitchell Field, N. Y. in *Air Evacuation Hospital*, weekly quarter-hour program starting on WMCA New York Feb. 19. Series will be produced jointly by the Mitchell Field Army Air Base and the First Airforce, with Pfc. Richa. J Pack, who formerly handled publicity at WNYC WOR WNEW, conducting the interviews.

Industrial Relations

TITLED *The Outlook for White Collar Workers*, the initial program of an industrial relations series sponsored Saturday 6:15 p.m. by the Industrial Relations Council of Metropolitan Boston, was started Jan. 13 on WEEI Boston. Series will feature personnel managers of various plants around Boston.

Safety

CAMPAIGN for traffic safety has been started on WMPS Memphis with the program *The Newspaper of the Air*. Special transcribed announcements also feature safety in traffic, and several special programs are planned throughout 1945.

WHIO GI Show

FEATURING transcribed interviews with wounded men from the Miami Valley area, a new program titled *Miami Valley Personalities in the War* started Feb. 9 on WHIO Dayton as a weekly quarter-hour series.

THE BUSINESS OF BROADCASTING

Pabst in Puerto Rico
PABST SALES Co., Chicago (Pabst Blue Ribbon beer), has appointed Irwin Vladimir & Co. of Illinois to handle its foreign advertising. Company will sponsor Casa Cugat, quarter-hour transcribed show three times weekly, on WNEU San Juan, Puerto Rico, effective around Feb. 12. Till forbid contract was placed by the newly appointed agency.

WINN Local Accounts
NEW LOCAL ACCOUNTS on WINN Louisville include 330 spots for Hull-Dobbs, used car dealer; series of 13 Sunday Reverte programs for Carl E. Herbold Funeral Home, and a series of 19 weekly half-hour programs for the Greater Louisville First Federal Savings & Loan Assn.

Hirsch Renews
HIRSCH CLOTHING Co., Chicago, on Feb. 5 renewed sponsorship of Telephone Quiz Monday through Saturday on WGN Chicago. Contract for 52 weeks was placed by Schwimmer & Scott, Chicago.

Grove in Mexico
GROVE LABS., St. Louis, has appointed the Mexican subsidiary of Grant Adv., S.A., to handle advertising. Radio will be used for Grove products on Mexican stations starting this spring.

Wurlitzer Program
RUDOLPH WURLITZER Co., Chicago (institutional), on Feb. 12 only, sponsors Abe Lincoln's Story on 99 MBS stations Mon., 8:30-9 p.m. Agency is Schwimmer & Scott Adv., Chicago.

Five Years Service
DEPT. of Radio, Drake U., Des Moines, marked five years of service to the Des Moines Community and War Chest last week. Drake radio department has been responsible for writing and producing quarter-hour programs with the work of the Community & War Chest for broadcast over a local station. A framed scroll of distinguished service to the community was presented to Edwin G. Barrett, director of the department.

O'Cedar Places
O'CEDAR Corp., Chicago (floor polish), effective Feb. 12 will begin participation Monday and Wednesday on Meet the Missus on CBS Mountain and Pacific network, approximately 21 stations, and spots on about 15 stations in that area. Contract for 52 weeks was placed by Aubrey, Moore & Wallace, Chicago.

WOR Youth Policy
WOR New York is taking steps to eliminate from its juvenile adventure and mystery programs any representation of criminals and supernatural characters as physically disfigured. Move was prompted by a listener who wrote that attempts to educate his children to accept and respect disfigurement of returning war veterans were impeded by frequent radio portrayal of villains as scarred and deformed. Station has removed all staff producers and scripters to delete further reference to disfigured criminals, and is writing to advertising agencies suggesting that they make similar adjustments wherever necessary in their programs on WOR. Station carries some 11 adventure and mystery shows for juveniles.

Optician Radio Plans
COMMUNITY Opticians, chain of optical service stores with main offices in Boston and New York, has placed advertising in New York and New Jersey with the newly-opened New York office of Ellis Adv., Buffalo and Toronto. First radio contract through the new agency, effective Feb. 4, was for Samuel R. Zack's Labor Arbitration, weekly 57-minute program devoted to settling employer-employee disputes, and for participations in Isabella Besch's "Through a Kitchen Window" go on WMCA New York. Spot radio schedule may be expanded to other stations later. Advertising from Community's Boston office is placed through Commonwealth Adv., house agency.

THANKS

Association National Advertisers

For recognizing agriculture as the "number one" potential post-war market. (*)

Not only is agriculture the "number one" market for post-war years, but . . . it is definitely the nation's best customer for all major products right now . . . and especially here in the Northwest!

For the second successive year

NORTH DAKOTA

produced more than a half billion in gross income from its 71,000 farms, or an average of more than \$7,250 each.

NORTH DAKOTA produced 94% of the Nation's supply of durum! More than 20% of the barley! One-third of the entire flax crop! Ranking first in flax and barley production; second in all wheat; third in potatoes!

KFYR COVERS THIS RICH AGRICULTURAL MARKET COMPLETELY.

If you want results . . . write us or ask any John Blair Man

(*) See November, 1944, issue of Advertiser.

ONE OF AMERICAS
GREAT RADIO STATIONS

NATIONALLY REPRESENTED BY EDWARD PETRY & CO., Inc.

In Retrospect

THE RECORDS will show 1944 as another boom year for advertising. All media showed an increase of about 7%. Radio again was in the forefront with a 25% boost.

This happened in the face of paper rationing and restrictions on production in almost all brand lines. But the demand for time and space exceeded expectations.

The '43 figures, published in this issue, can't be regarded as normal. Much of the institutional business will stop after the war. Intrinsic return to the advertiser again will govern. Radio stands to hold most of its gains because a considerable amount of its new business, as reflected in the BROADCASTING Yearbook analysis, was virgin business.

In this issue also is a review of the new book *Radio Advertising for Retailers* by Prof. C. H. Sandage. Retail advertising has been the backbone of newspaper volume. It represented less than 10% of radio gross last year. Prof. Sandage's research shows clearly how this volume can be increased.

The job now is still that of winning the war and selling Democracy. But it behooves broadcasters to plan for the tougher selling ahead, when the honeymoon is over. The printed media have been making their plans; many of them are moving into radio.

In their planning broadcasters shouldn't overlook the local field. Longtime local business shouldn't be kicked around for the more glamorous national business. In past depressed periods, the books show the local merchant stuck when almost everything else went to pot.

Seeing Ahead

PLANNING in wartime for normal operations is a tough problem for industry generally. It is particularly difficult in a field as dynamic and susceptible to change as radio.

Members of the FCC and key members of its staff have just returned from an inspection of Army Air Forces communications operations from Washington to Florida and across to the Pacific Coast. Virtually everything they saw is in the highly restricted category.

The FCC now is in the midst of projecting the most comprehensive radio allocations since the art's birth. What that delegation saw and learned about propagation in the higher frequencies should prove invaluable in plotting those allocations, and in cutting the pattern for postwar radio services—broadcast as well as common carrier.

The inspection was significant from another standpoint. There was the rapprochement with the military, with which the FCC had been at swords' points for many months and which flared up repeatedly in the House investigation of the Commission.

In these times, when private enterprise of necessity must deal in the dark, it seems to us highly important to have the agency of Government identified with private communications regulation conversant with the secret military developments in their field.

'This Is Manila...'

YOU HEARD it this past week on the air.

You heard it from Royal Arch Gunnison of Mutual, who had been interned by the Japanese at Santo Tomas, later to be repatriated and join the MacArthur forces entering the city.

You heard it from Bert Silen, former manager of Brig. Gen. Romulo's Philippine station, KZRH, and an NBC correspondent. He was liberated by American forces.

America's indomitable spirit sang in the tongue-in-cheek report of Mr. Silen from the beleaguered city. Three years ago, while broadcasting to the United States from Manila, a Jap attack knocked him off the air. Returning last week for the first time since that day to NBC's microphone, he began: "As I was saying when I was so rudely interrupted over three years ago, every Filipino and every American living on these islands knew that MacArthur would return..."

"This is Manila"—Feldman of the Blue, Flaherty of NBC, Folster of NBC, Adams of CBS, Gunnison of MBS.

Theirs were the first American voices to be heard from Manila since 8 a.m. (EST) Dec. 30, 1941. That they COULD be heard with such swiftness, even as troops were clearing the city of lingering Japanese, even as buildings ignited by the enemy continued to burn, is credit to the MacArthur command.

Here, as nowhere this side of Tokyo—not excepting Berlin—was America's story. This was America's city, the first taken by an enemy in over a century. This was a city in which were held, under cruel domination, thousands of American citizens. These were Americans who delivered it.

Gen. MacArthur permitted news of America's triumph to be told. He gets no medal for that, but surely he has won his nation's gratitude.

'Little Flower's' Mike

WE SEE in the daily press that Mayor LaGuardia still is using WNYC, New York's municipally-owned station, as a personal mouthpiece and a party line to the pee-pul. He no longer holds news conferences. He isn't asked any more, he just tells.

The Mayor broadcasts his regular weekly report on Sundays on the affairs of his administration. Usually he is circumspect, but occasionally he prances nimbly along some tight-rope of controversy. Are his opponents getting equal opportunity on the air? Is he functioning within the letter and the spirit of the Communications Act?

The law doesn't differentiate between commercial and noncommercial stations. We recall that the stations of such personages as the late Dr. John R. Brinkley, of goat-gland rejuvenation fame, Norman T. Baker, and his "cancer" clinic, and the fiery Rev. Robert P. (Fighting Bob) Shuler, were deleted by the Federal authorities. They used the stations as their personal mouthpieces, not in the broad public interest.

Surely, "Butch" LaGuardia can't be placed in the same category as those ill-starred radio entrepreneurs. But there may be some question as to whether the same regulatory shoe fits.

Our Respects To -

GEORGE RICHARD AGAR RICE

TALLEST Canadian broadcaster is Dick Rice, owner and operator of CFRN Edmonton, president of the Western Assn. of Broadcasters and vice-president of the Canadian Assn. of Broadcasters. Modesty goes with his 6 ft. 3 in., for Dick is the last one to tell you about his work for Canadian broadcasters. But his colleagues expressed their admiration for him in unequivocal language when they re-elected him president of the Western Assn. of Broadcasters for the third time at the WAB meeting at Banff last August.

Born in 1898 in Teddington, Middlesex, England, Dick Rice has been in radio his entire business life, starting in at the age of 15 with the Marconi Co. in England in the offices and later at the factory at Chelmsford, after public and private education. He later attended the National Physical Laboratories of Great Britain and London College. Prior to World War I he joined the Marconi British Admiralty Wireless Service, and served throughout the war with that organization.

He first came to Canada in 1919 for a visit, liked the country well enough to return the following year and start in radio broadcasting in his adopted land. At that time only the Canadian Marconi Company operated broadcasting stations at Toronto and Montreal. But young, enthusiastic, radio-minded Dick Rice set out for western Canada, with all his knowledge of radio and some equipment. In 1922 he opened CJCA Edmonton, for the *Edmonton Journal*, one of the first stations to go on the air in Canada. For 12 years he operated the station, saw radio technique grow, saw his station come up from the first in that part of the country, to one of many. In 1934 Dick decided that he would own his own station, applied for a license and opened up CFRN as a 100 w station. CFRN has grown, is now powered with 1,000 w and has been given permission to go to 5,000. It is the Edmonton outlet for the Canadian Broadcasting Corp., Dominion network.

With a number of other western Canadian broadcasters he formed in 1941 a co-operative representative organization with offices at Toronto and Montreal, Radio Representatives Ltd. As president of the WAB he has played an important part in the past two years in obtaining for western broadcasters power increases allowed by the Havana Treaty on their frequencies. These increases were announced last autumn as a result of representations of the WAB and the CAB, to the CBC and the Radio Branch of the Dept. of Transport.

Dick Rice has become well-known to American broadcasting personalities who have at-

(Continued on page 64)

Time To Remember

Now is a good time to remember that no medium moves so fast and changes so much as radio. This is particularly true in the Atlanta market, where the radio picture has been so significantly changed by WAGA's timely programming and aggressive promotion.

Remembering how radio changes, now is a good time to reevaluate your use of radio in this important market, where, during the past two years, WAGA has made more progress than any other Atlanta station.

Personal NOTES

GEORGE W. BOLLING, vice-president and general manager of John Blair & Co., Chicago station representative, has been elected a director. He has been with the company 10 years.

SAMUEL WOODWORTH, vice-president and general manager of WFBL Syracuse, has suffered a severe hand injury. While attending his furnace his hand caught in the automatic stoker.

EDGAR KOBAK, MBS president, was guest of honor at a Yankee Network luncheon held at the Algonquin Club, Boston, last Thursday. He gave opening address the preceding evening at a dinner for all members of the New York staff of Mutual at the Town Hall Club in New York.

H. G. KRONENWETTER has been promoted from assistant advertising manager of the radio division of Sylvania Electric Products Inc., New York, to manager of advertising production—radio products, taking over most of the duties of **TERRY P. CUNNINGHAM**, former advertising manager, now with Sylvania's subsidiary Colonial Radio Co. in a merchandising capacity. Mr. Kronenwetter, who divides his time between Emporium, Pa. and New York, has been with Sylvania since 1928.

MILLARD BANKS is now with the Blue Network as administrative assistant to **FRED SMITH**, Blue director of promotion and advertising. For six years he has served as a counsel to advertisers, agencies and publicity firms on copy, layout, planning and ideas. He was at one time account executive of BBDO New York.

GEORGE JASPERT, former manager of WLAW Lawrence, Mass., has joined the Boston Herald-Traveler as executive in charge of radio. The newspaper is an applicant for an FM station.

PHILLIPS CARLIN, MBS vice-president in charge of programs, returns to New York this Wednesday from a three-week tour to gather views of MBS affiliates on network programming.

LT. JOSEPH ZIAS, USNR, associated with the radio law firm of Loucks & Scharfeld, on leave, married Barbara Herche in Washington last Thursday. Lt. Zias is stationed in the Office of the Director of Naval Communications, Washington.

G. F. (Red) BAUER, sales manager of WINN Louisville, has been appointed publicity chairman of the Salesmanagers Council of the Louisville Board of Trade.

R. I. P. CROTTY has been appointed national sales manager of CKWX Vancouver. He has been with the station for three years as sales service manager, coming from CKGB Timmins, Ont., where he was commercial manager.

PHILIP D. REED has been renamed chairman of the board of General Electric Co. and its subsidiary International General Electric Co. Since his resignation from that post in December 1942 Mr. Reed has been chief of the Mission for Economic Affairs in London with the rank of minister.

R. A. LESLIE, manager of the Toronto office of National Broadcast Sales, is being transferred to the Montreal office about March 1, and will be replaced at Toronto by **R. E. MCGUIRE**, formerly of All-Canada Radio Facilities, Toronto.

LT. BARNEY LAVIN, general manager of WDAY Fargo, N. D. on leave in the Marines, arrived in Fargo Feb. 2. He will report to Cherry Point, N. C. Feb. 18.

WALTER R. HUCHINS, who has been hospitalized for 18 months from wounds received in Sicily, has been released by the Army and is now a member of the sales staff of KYW Philadelphia.

ROBERT EWING, assistant supervisor of the Blue central division research department, has been appointed supervisor succeeding **G. A. (Jerry) VERNON**, who on Feb. 15 joins the Blue Chicago national spot and local sales staff.

CHARLES F. PHILLIPS, program and commercial manager of WFBL Syracuse, has been elected a vice-president of Onondaga Radio Broadcasting Corp., station licensee. He has been with WFBL for more than 20 years.

E. L. BRAGDON, trade news editor of NBC, has joined the dept. of information of RCA, New York. Mr. Bragdon previously was radio editor of the New York Sun, a position he had held since 1923.

PATRICIA ANN FOLEY of the New York staff of BROADCASTING magazine, and **JOHN V. RYDEN**, art director, Hill Adv., New York, have announced their engagement.

O. L. Smith Promoted To Director of WNOX

O. L. SMITH, formerly commercial manager of WNOX Knoxville, Tenn. has been named WNOX station director, according to Mortimer C. Waters, vice-president and general manager of Scripps-Howard Radio, which owns and operates WNOX. Mr. Smith came to WNOX from the advertising staff of the Knoxville News-Sentinel in 1936 and served as national advertising manager and assistant station director before becoming commercial manager. In his new post Mr. Smith will be in complete charge of the station locally.

Mr. Smith

Mr. Smith, who was made an honorary colonel on the staff of former Gov. Prentice Cooper, is a member of the Kiwanis and Executives Club, the Holston Hills Country Club and the Broadway Baptist Church. Mr. & Mrs. Smith and their two children, Bob, 17 and Nancy Lynn, 12, live in Holston Hills.

DELL CROSBY, former freelance writer and producer, has joined the sales department of WLIB Brooklyn. Prior to his freelance work which included assignments from the War Adv. Council for Army, Navy and Red Cross programs, Mr. Crosby was station manager of KPHO Phoenix and WWL New Orleans.

RUSSELL BROOKS RENNAKER has been named sales engineer of broadcast equipment of Federal Telephone & Radio Corp., Newark, associate of International Telephone & Telegraph Corp. Mr. Rennaker joined CBS Chicago in 1939 and a year later transferred to Washington to serve on the network's special events staff. Returning to Chicago in 1942, he joined Mutual as a member of the WGN Chicago staff, a post retained until his present appointment to Federal. In 1940 Mr. Rennaker was national president of the Assn. of Broadcast Technicians.

SAMUEL H. CUFF, general manager of WABD, DuMont New York television station, is conducting a course at New York U. on the "Technique of Television". Course includes both laboratory and lecture work.

G. W. N. RIDDLE, formerly in the market research department of GE and prior to that on the staff of the chairman of the board of GE for 14 years, has been made responsible for media in the advertising of GE's apparatus department.

IT'S *OUR* **BIRTHDAY... BUT**
YOU **GET THE PRESENTS**

WHIO of Dayton, one of the first of the Cox Radio Stations, is ten years old this month. Not a long period of time in some fields of endeavor, but it spans almost half the entire history of commercial broadcasting. Through all the years the management of WHIO has held fast to the ideals of service which characterized the station's opening in February, 1935.

We invite you to celebrate with us by making these birthday packages yours:

• Dayton's largest listening audience for your sales message. "In Dayton, it's WHIO."

• Coverage of the \$100 Million farm market surrounding and supplementing the Dayton market.

• Business getting coverage of prosperous Dayton & Miami Valley, one of the key production centers of the nation.

• Programs designed to keep WHIO "Dayton's Favorite Station." News: UP, INS, PA, plus CBS' best.

Mulbern Joins Blue

NEIL MULBERN, for eight years account executive in CBS Detroit office has joined the Blue Network as its Detroit salesman, following transfer of John Donohue from Detroit district manager of the Blue to eastern sales manager, with headquarters in New York [BROADCASTING, Jan. 29]. Operations of the Detroit office continue under the jurisdiction of Mr. Donohue in his new capacity. Prior to joining CBS, Mr. Mulbern served on the sales staff of *Liberty*; as account executive of Young & Rubicam and with Reo Motor Co. for seven years as manager at Houston and as Detroit manager. Joseph R. Spadea is now CBS sales department representative in Detroit [BROADCASTING, Jan. 22].

Walter F. Cahir

WALTER F. CAHIR, 55, treasurer and assistant secretary of Federal Telephone & Radio Corp., Newark, died Feb. 1 in Doctors Hospital, New York, following a long illness. Mr. Cahir was born in Cambridge, Mass. and attended Cambridge Latin School. He received his B.A. degree from Harvard in 1914 and Ph.D. degree from Catholic U. in 1917. In 1920 he joined International Telephone & Telegraph Co. and later transferred to Federal Telephone & Radio in 1942 upon the formation of that associate company. He is survived by a brother and a sister.

Flynn Promoted

MAJ. EDWARD J. FLYNN, technical information officer, Information & Education Division, Army Service Forces, has recently been promoted to that rank. Before entering the service Maj. Flynn was sales representative of WEW St. Louis, news editor of KOCY Oklahoma City, sales representative for E. Katz Agency, New York and Detroit, and he helped set up WCAR Pontiac, Mich., when that station began operations. He handles technical information for the Armed Forces Radio Service, Army News Service, *Yank* and *Stars & Stripes*.

Lorraine G. Gainor

LORAIN G. GAINOR, commercial representative of WMMN Fairmont, W. Va. since the station was established 17 years ago, died of a heart attack Jan. 31. In his early days with the station. Mr. Gainor and his wife sang hymns as a sustainer for a number of years.

Lt. Harry F. Folsom

LT. (j.g.) HARRY F. FOLSOM, vice-president in charge of the RCA Victor division, Camden, N. J. scheduled to return to the South Pacific war theatre, recently was killed in a plane crash near Jacksonville, Fla.

William Sharples

WILLIAM SHARPLES, 58, one of the early West Coast actor-producers, following a two-year illness, died in Los Angeles on Jan. 29. He was best known for program, *Bill Sharples and His Gang* on KNX Hollywood. Surviving are his widow, Bertha Sharples, and daughter, Joan.

BEHIND the MIKE

LOREN L. WATSON Jr., radio sports editor of United Press, is the father of a boy, Loren L. Watson III, born Feb. 1 at New York Hospital, New York, making a grandfather of LOREN L. WATSON, president of Spot Sales, station representative firm.

PVT. ROBERT W. ROBERTS, former announcer of KYW Philadelphia, known on the air as Bob Warren, is now a news announcer with the American Forces Network in Britain.

ART LEWIS, formerly with WOW Fort Wayne, is an announcer with WHA, U. of Wisconsin station, while working for degree at the university.

BILL JOYCE, member of the NBC program department, will join the Blue Network central division as producer-director.

LOUISE LOPEN, supervisor of the Blue central division guest relations department, will leave for Los Angeles to be married to Bos'n Mate 2/c Maynard B. Standley of the Seabees on Feb. 15.

TOMMY SCOTT has been appointed musical director of KARK Little Rock, Ark.

TOM CAFFERTY, WGN Chicago staff announcer, is the father of a boy.

NANCY HUDSPETH of the WINN Louisville continuity department and DICK RUSSELL, WINN engineer, have announced their engagement.

FRANK LEE has been promoted from chief announcer to program director of WMMN Fairmont, W. Va. He will continue as sports director and special events announcer for the station. JAMES LOWTHER, formerly with WJLS Beckley, W. Va., is a new member of the WMMN announcing staff.

REX DAVIS, news editor-in-chief of WCKY Cincinnati, has been named chief announcer of the station.

JACK WILSON, writer of comedy shows for WLW Cincinnati, resigned Feb. 5 to join the script division of NBC.

JAMES CLARK, formerly with KSL Salt Lake City and KFPY Spokane, is now a member of the announcing staff of KIRO Seattle.

HILLIARD GATES, sports editor of WOWO Ft. Wayne, has assumed additional duties as public service director of the station.

LOUIS KAISER, released from the Army with the rank of captain, is now night supervisor of WFEL Syracuse. Prior to entering the Army, he was with WBBN Buffalo.

CARL BAILEY, announcer of KPAS Pasadena, Cal., is father of a boy.

BILL HILL, formerly with KFMB San Diego, has joined the announcing staff of KARK Little Rock. EARL LEWIS Jr., formerly with WBYN Brooklyn and WFTL New Bern, N. C. is now with KARK. JOHN ADAMS, former news-caster for Mutual and NBC, is a new member of the KARK news department.

Wisner Honored

HARRY WISMER, Blue Network sports director and commentator in Chicago, last Saturday received from *Esquire* magazine an award as "Outstanding Sports-caster of 1944" on his weekly sports roundup program on the Blue. Selection was based on an *Esquire* poll of more than 1,000 sports editors and sportscasters.

LENN CURLEY, chief announcer of KYA San Francisco, has joined the U. S. Maritime Service. His successor is VERNE LAUDEN, senior member of the station's announcing staff.

ED NELSON, formerly of KWKH and KTBS Shreveport, has joined KYA San Francisco as announcer.

NANCY FLORSHEIM, new to radio, has joined the publicity department of WBBM Chicago.

MILLICENT BROWER, who conducts several programs on WGYN New York, the Muzak FM station, has been named assistant program director.

MARGARET GARDNER, who lately has been working on general magazine and syndicate contacts in the Mutual press department, has assumed full responsibility for this service, with the departure of BLANCHE WOLFF, who leaves to marry ALEX LEVENTHAL. Miss Gardner will be assisted by ELAINE NEWLIN. She continues to handle some trade press contacts. GIL BABBITT, for three years publicity and promotion director of WCAU Philadelphia, has joined the network's press department to work on exploitation. He was formerly on the editorial staffs of the Philadelphia Record and the Philadelphia Inquirer.

FOSTER WILLIAMS has joined WPAT Paterson, N. J. as announcer. PETER ARNELL, former program director of WJLS Beckley, W. Va., and WPNP Philadelphia, also has joined WPAT.

ROBERT NEVINS, formerly with the department of public speaking, City College of New York, has joined the announcing staff of WQXR New York.

SHIRLEY HORTON, after an absence of approximately three years, has joined the publicity department of Don Lee Broadcasting System, Hollywood, as assistant manager. She replaces PAULINE SZANNE, resigned.

ALBERT ULRICH, head of NBC western division continuity department, has resigned that post to return to the network's production staff. DON HONRATH, for two years continuity acceptance assistant, will assume Mr. Ulrich's former duties.

WILLIAM F. BROOKS, NBC director of news and special events, has arrived in Paris on the first part of a tour to lay the groundwork for postwar news coverage in Europe.

NEW continuity editor of WOL Washington is JoAn Arnold, and not John Arnold as incorrectly reported in BROADCASTING Feb. 5. Miss Arnold was formerly assistant to Mae Griffin, who was named traffic manager.

Allen Roth

American musical favorite . . . signs new 3-year contract with *Thesaurus*

It's a pleasure to us . . . and welcome news to our subscribers, that Allen Roth has just signed a new 3-year contract . . . making this superbly versatile musical organization available *exclusively* to stations subscribing to NBC THESAURUS.

The Allen Roth Symphony of Melody has long been established as an integral part of THESAURUS. There's hardly a subscriber who hasn't expressed the opinion . . . Allen Roth is one of the most valuable program assets our station possesses. And as further proof of this our records show that *The Symphony of Melody* has been sponsored by hundreds of local and regional advertisers of all types.

Tremendous Musical Scope is an outstanding characteristic of Allen Roth's *Symphony of Melody*. Roth plays everything from boogie woogie to opera, but it's all put into the distinctive Roth musical framework.

An Air of Elegance and Finesse surrounds every Roth arrangement. Whether it's the low-down rhythm of *St. Louis Blues* or the polite pizzicato of the *Minuet in C*, tonal color is skillfully woven through the musical fabric, giving each selection by Allen Roth an unmistakable and exclusive personality.

Over 300 Selections by the Allen Roth program organization include rousing production numbers, instrumental novelties, danceable pop arrangements, the Roth mixed chorus, male chorus and soloists . . . evidence of the THESAURUS policy of "enough selections by every performer to make programming worthwhile." Half-hour, 3-a-week scripts for *The Symphony of Melody* are furnished to each THESAURUS subscriber to allow the most comprehensive use of the Roth program material.

We will be glad to give you further evidence that THESAURUS is America's Number 1 Musical Program Service . . . recorded especially for radio.

HARRY McTIGUE

General Manager

Agencies

EARL W. CLEMENTS, vice-president with Campbell-Ewald, Chicago, on Feb. 1 joined Campbell-Mithun, Chicago, as a vice-president.

HUGH KING head of the story department of Republic Productions Inc. and former associate of Myron Selznick Inc., Hollywood talent service, has re-joined the newly merged Selznick-Saphier & Co. Erline Tannen has been named his executive assistant.

MURRAY KNIGHT, radio traffic manager of J. Walter Thompson Co., Chicago, and Robert Carter, freelance announcer, were married Jan. 26 in the audition room of WBBM Chicago. Arrangements were made by Leslie Atlas, owner of the station.

EDWARD HUMPHREY, former news editor of WAIT Chicago and at one time program manager of WIND and WJJD Chicago, has joined the Sydney S. Lovett Co., Chicago, as radio director.

CARL PITTELKOW, formerly with Campbell-Ewald Co., and McManus, John & Adams, Detroit, has joined J. M. Mathes Inc., New York, as account executive.

RICHARD COMPTON, president of Compton Adv. New York, again has been appointed chairman of corporate gifts of advertising agencies for the Red Cross War Fund. Sherman K. Ellis, president and treasurer of Sherman K. Ellis & Co., New York, is in charge of employees' contributions for the agencies, according to Thomas L. L. Ryan, president of Pedlar & Ryan, New York, chairman of the 35 committees which comprise section No. 5, the Graphic Arts Committee of the Red Cross.

J. C. NICHOLS, former advertising manager of Henry Morgan & Co., Montreal department store, has joined Harry E. Foster Agencies, as manager of the Montreal office.

DOUGLAS R. OLIVER, former director of the Ontario Government Travel & Publicity Bureau, Toronto, has joined Spitzer & Mills, Toronto.

HAROLD KAYE, former radio director of the Joseph Katz Co., Baltimore, has joined Olan Adv. Co., St. Louis, in the same capacity.

RALPH E. DECASTRO, former account executive of Ruthrauff & Ryan, New York, has joined MacFarland, Aveyard & Co. as copy director of the New York office.

ALLEY & RICHARDS Co., Boston, has taken over the accounts formerly serviced by Glaser Adv., Boston, and the agency has been dissolved. Lt. Col. Louis Glaser, president, is now serving overseas.

HAL HACKETT, head of the radio division of Music Corp. of America, New York, left last Friday for a six-week stay in Hollywood. Mr. Hackett, who divides his time between New York and the West Coast, will make his headquarters in Hollywood, although the radio division remains in New York.

JANE DALY has been named timebuyer for Earle Ludgin & Co., Chicago.

STANLEY G. OPPENHEIM, formerly with the WPB and the WMC, has returned to private industry, joining John Falkner Arndt & Co., Philadelphia agency. Prior to his Government service, Mr. Oppenheim was with McGraw-Hill Pub. Co.

HAROLD A. HIGGINS, formerly of BBDO San Francisco, has joined Ruthrauff & Ryan, San Francisco, as production manager. Ray Mount Rogers, formerly of Foote, Cone & Belding, has been added to the staff as account executive.

ELLIOTT BOGART, formerly of Foote, Cone & Belding, San Francisco, has joined Brisacher, Van Norden & Staff, Los Angeles, as account executive. Pat Flynn, formerly on the promotion and advertising staff of Better Homes & Gardens, has joined the Los Angeles agency's creative staff.

ARTHUR MEYEROFF, owner of Arthur Meyerhoff Adv. Agency, Chicago, on Jan. 27 married Elaine Kendel, formerly with the agency.

RAYMOND F. SMYTHE, president of Smythe-Carlisle advertising agency until 1941 and recently returned from a civilian public relations post with the Army, has joined Bozell & Jacobs, Chicago, as account executive.

LT. JOHN D. ANDERSON, USNR, has rejoined J. M. Mathes Inc., New York, as account executive.

FOOTE WOULD CUT FEES FOR TALENT

REDUCING talent cost of radio advertising and adapting radio skills to the new medium of television are the two foremost post-war problems in the advertising agency business.

Mr. Foote

declared Emerson Foote, president of Foote, Cone & Belding, in an address before the annual meeting of the Central Regional Council, AAAA Feb. 1 at the Lake Shore Club, Chicago.

Mr. Foote pointed out that talent costs have ballooned, "because neither advertiser nor agency has been vigilant enough to keep excessive costs from creeping into talent expenditures. Talent agencies have gotten around to charging overall commissions on so-called package shows, and we come along and put a commission on top of that."

He explained that he did not blame the talent agencies, but that agencies have "let them do our work and in other cases we have let them get payment for work they do not do." He declared that if the exorbitant prices paid radio stars are not curtailed, total cost of radio advertising will rise to such an extent that radio will not be the low-cost, profitable medium it has been.

In discussing television he said, "The problem of converting our radio talents to television production is one we must all be at work on now, and increasingly so in later years. As was the case with radio, great rewards will come to the agencies which most soundly handle the problems and opportunities presented by television."

John Young

JOHN YOUNG, 60, formerly head of his own Los Angeles agency, died Feb. 2 following a long illness, at his home in Hollywood. Mr. Young retired from active agency business several years ago as result of a heart ailment. Mrs. Young is on the daily *Norma Young's Happy Homes* on KHJ Hollywood.

Cornish Joins MBS

WILLIAM A. CORNISH, former assistant radio director of J. M. Mathes Inc., New York, has joined Mutual as assistant commercial program manager, a new post. He will work with Bob Novak, who became commercial program manager six months ago when the office was created. Mr. Cornish, before joining Mathes, served in sales service in the radio department of the William Morris Agency, New York.

AAAA Meet Canceled

ANNUAL meeting of the American Assn. of Advertising Agencies, scheduled for April 19, has been canceled in compliance with the ODT ban on conventions. This is the first time since its founding in 1917 that the association's annual meeting has been called off. Election of officers and other necessary business will be conducted by mail.

Radio Advertisers

CELANESE Corp. of America, New York, has started participation in the combined Housewives Protective League and Sunrise Salute programs on KNX Los Angeles. Contract calls for alternating weekday participation on both shows and Saturday participation on Sunrise Salute only.

SUN SHIPBUILDING Co., Chester, Pa., one of the largest industrial users of Philadelphia radio, on Feb. 11 started sponsorship on WFIL of This Week in Philadelphia, weekly half-hour round-up and review news program heard Sunday 4 p.m. Contract is for 26 weeks. This is the company's fourth program on WFIL.

JOSEPH TRINER CORP., Chicago (Bitter wine tonic), will begin sponsorship Feb. 15 of one-minute spots in English and foreign languages. Czech, Polish, Slovak, Serbian and Ukrainian, on the following stations: WDA5 WTFL WWSW WAZL WMBS WBRB WJPA WARM WACL WGFS WCED WLEU WJOB WFBC WSBC WEMP. Contract for 13 weeks was placed by Bozell & Jacobs, Chicago.

ATLANTIC BREWING Co., Chicago (Tavern beer), on WMAQ Chicago Feb. 5 renewed Just for Fun featuring Barbara Marshall and the Art Van Damme Quartet. Contract is for 13 weeks placed through Campbell-Mithun, Chicago.

WEATHER-SEAL Inc., Cleveland (combination storm windows and doors), has appointed Meldrum & FewsSmith, Cleveland, as agency. Radio plans are said to be considered.

ORCHID-OF-HOLLYWOOD, Hollywood (desserts), has appointed Raymond E. Morgan Co., Hollywood, to handle its advertising. Radio will be used along with other media.

JAMES F. PEDDER and Ellsworth Gilbert have been appointed advertising manager and sales promotion manager respectively of the Frigidaire Division of General Motors Corp., Dayton. The new departments encompass the functions and responsibilities of four former departments in that division. Mr. Pedder was formerly advertising and promotion manager of the Frigidaire appliance division and Mr. Gilbert was formerly sales training manager of the appliance division.

UNION Pharmaceutical Co., Bloomfield, N. J. has reappointed Marschalk & Pratt Co., New York, Feb. 22 to handle advertising for Saraka, a laxative. Radio was used some years ago when M&P originally serviced the account, and has since been used from time to time through other agencies. Media plans have not been made.

PROCTER & GAMBLE Co., Cincinnati, has acquired the patents, trademarks and goodwill of Spic & Span Products Co., Saginaw, Mich., manufacturer of cleaner for painted walls and surfaces.

CALIFORNIA Liquid Fertilizer Co., Pasadena, Cal., has started twice-weekly participation in Norma Young's Happy Homes on KHJ Hollywood. Contract which started Jan. 22 is for 13 weeks. Agency is Western Adv., Los Angeles.

CASE-SWAYNE PACKING Co., Santa Ana, Cal. (C & S products), has appointed Garfield & Guild Adv., Los Angeles, to handle advertising. Radio is considered.

MONTGOMERY WARD & Co., Chicago, started sponsorship Feb. 4 of quarter hour Music by Fulton featuring favorite ballads sung by Jack Fulton, Sunday 12:30-45 p.m. on WBBM Chicago. Contract for 10 weeks was placed by Foote, Cone & Belding, Chicago.

LOFTS Inc., Long Island City (candy manufacturer) is in the fifth week of an employee-recruiting campaign of live announcements on WNEW WINS WWRL WLIE New York. Agency is Al Paul Leone Co., New York.

MONTEAU Corp., New York, perfume manufacturer, on Jan. 23 started a 26-week series of four-weekly five-minute news programs on WQXR New York. Agency is Dorland International-Pettingell & Fenton, New York.

This is our new address, thought we, when Hooper hit our recipe program with a lowly 1.7 rating. But proof of putting a message across is not always in the size of the audience, for this same show lures 500 women a day, *in person*, to the sponsor's store, to ask for reprints of the recipes.

Moral: *when it comes to attracting a special-interest group, especially on the distaff side, WSAI cooks with the Blue flame.*

Swing Sponsor on WFIL Is Philadelphia Store

ADDING to department store radio advertising, Gimbel Bros., Philadelphia, owner of WIP, Philadelphia Mutual outlet, last week signed a 52 week non-cancellable contract for Raymond Swing news commentaries daily over WFIL Philadelphia. Gimbel's also runs a heavy spot announcement schedule on its own station. Swing is sponsored in Washington by Hecht's department store on WMAL.

Promotion campaign for the program is aimed at both the general public and store employees. Large photographs of Mr. Swing are in the windows of the store usually devoted to the men's department which is the section the commentaries will advertise. Store also is using newspaper advertising, counter cards, cards in elevators, package enclosures, articles in its house organ and employe contacts.

COMMONWEALTH EDISON Co., Chicago, is sponsoring five-minute five-weekly Chicago News featuring Paul Brentson, for 52 weeks on WBBM Chicago. Agency is Foote, Cone & Belding, Chicago.

NELSON Bros., Chicago, on Feb. 7 for five weeks started sponsorship of Your Income Tax featuring Edmund Horgan, chief office deputy, Collector of Internal Revenue, on WBBM Chicago. Program is heard Wednesday. Agency is George H. Hartman Co., Chicago.

FIXACO Co., St. Louis (Fixaco throat lozenges), has appointed the Anfenger Adv. Agency, St. Louis, to handle its advertising campaign.

BELL TELEPHONE Co. of Canada, Montreal (classified section) has started one minute transcribed spot announcements 15 times weekly on 17 Ontario and Quebec stations. Account was placed by Spitzer & Mills, Montreal.

J. B. WILLIAMS Co. (Canada) Montreal (Glider shave cream), has renewed for one year Williams One Minute Reporter five-times weekly on 14 Canadian stations. Account was placed by J. Walter Thompson Co., Montreal.

PERFECT CIRCLE Co., Toronto (piston rings), on March 19 starts daily newscasts on CKEY Toronto and daily spot announcements on 15 Canadian stations. Account was placed by McConnell, Eastman Co., Toronto.

LIBBY, McNEILL & LIBBY of Canada, Chatham, Ont. (canned foods), has renewed for a year Pierre et Pierette on CKAC Montreal, and CHRC Quebec, 4 times weekly. Account was placed by McConnell, Eastman Co., Toronto.

STAFFORD-MILLER of Canada, Toronto (Allenru), has started test early morning newscasts six times weekly on CKEY Toronto. Account was placed by McKim's Ltd., Toronto.

A. J. DUBOIS, former manager of the merchandising department of Young & Rubicam, New York, has been appointed vice-president in charge of sales of the Petri Wine Co., San Francisco.

YOU MAY BE ABLE TO "TUG OF WAR" FOR 2 HRS. 41 MINS.* —

BUT—YOU CAN'T PULL "OUTSIDE" PROGRAMS INTO WESTERN MICHIGAN!

Blocking any such efforts is something that's always present, though not visible—a wall not raised by human hands. *Fading.* Even 50,000-watt stations in nearby Chicago or Detroit might almost as well be in Bombay, for all the regular listeners they get here.

So if you want the rich Western Michigan market, "inside-the-wall" stations are definitely indicated. In that case, use the best-programmed station to get the largest audience.

In Kalamazoo, Battle Creek and Greater Western Michigan, that station is WKZO,

servicing *eighteen counties* with a daytime population of 630,762 people. In Grand Rapids and Kent County, it's WJEF, serving a quarter-million people with the most favorable frequency in the market (1230KC). Both WKZO and WJEF are CBS. Both are programmed for their specific areas. Both are owned by the Fetzer Broadcasting Co., and are sold in combination at a bargain rate per thousand radio homes. Together they offer *complete coverage* of Western Michigan.

Let us send you the whole story—or just ask Free & Peters!

* Tug-o'-war between two British Army teams in India, 1889, lasted two hours 41 minutes.

Postwar Video May Go Above 500 mc Fly Predicts to Television Press Club

JAMES LAWRENCE FLY, former chairman of the FCC, in an address last Tuesday before the Television Press Club of New York, predicted that video would move "upstairs" into the frequencies above 500 mc "within a few years." Under prodding from the audience he amplified by hazarding a guess that it might be about five years after the end of the war.

Awaits War's End

Improvements already made in 6 mc transmission and reception are sufficient to insure an effective video system immediately after the end of the war, he said, lauding the FCC for its proposed television allocations that will permit television to begin its public service in the lower frequencies and also to carry on experiments in the upper reaches with wider bands, permitting full color pictures. Tubes for broadcasting on these frequencies are rapidly being developed, he said, and shortly television will be able to move to these frequencies permanently.

The wisdom of moving FM upstairs from its present location is more questionable, he said. Mr. Fly pointed out that FM has had "substantial trouble" in the 40 mc area where propagation characteristics raised a number of problems and the service "is something less than wholly satisfactory." Indications are that there will be fewer difficulties for FM in the 90 mc region, he said.

However, he urged anyone with any objections to moving FM, to present them to the Commission, which he praised for its careful and open minded consideration of the evidence presented by the 231 witnesses during the 25 days of the hearings and which he said would give similar consideration to any new evidence that may be submitted now.

Speaking on what he termed his "pet subject", international communications, which he said are about as essential as any other single factor in building the postwar world, Mr. Fly urged his audience to give real study to the subject, stating that "as long as communication facilities are inadequate

KFAC Suit Dismissed

DISMISSAL of libel charges filed by Clifford S. Clinton, political figure on March 23, 1939 against Los Angeles Broadcasting Co., operators of KFAC, was granted Jan. 29 by Los Angeles Superior Court Judge Alfred L. Paonessa. Demanding \$90,200 damages Clinton had charged that radio broadcasts in which he was described as "attempting to organize a Tammany Hall in Los Angeles" had defamed his character. Dismissal was granted on ground that legally allotted time in which to press charges had elapsed.

and limited by Governmental restrictions, so long will the world situation be impaired."

Ralph B. Austrian, executive vice-president, RKO Television Corp., suggested that manufacturers of television receivers should help their dealers sell these sets to the public by providing good programs for broadcasting over local stations which the dealers could use in demonstrating the sets to the prospective purchasers. He proposed that the programs be produced on film, stating that good short comedies or variety programs can be had for a cost of \$7,500 each. These films could then be given to the dealer, either outright or on a cost-sharing basis, Mr. Austrian said, adding that the manufacturer should also share with the dealer the cost of time on the local video station.

Military Needs to Take Increased Tube Output

RADIO tube manufacturers must further reduce civilian production to meet military demands, which may be stepped up by more than 3,000,000 a month, the WPB Radio & Radar Division stated last week. Following a meeting with the Receiving Tube Scheduling Advisory Committee, at which industry problems were reviewed, it was decided that unfilled orders for 40 types of tubes will be frozen at the factories as of Feb. 1, with WPB to direct shipments to customers. Other types of tubes were declared obsolete for the duration.

Requirements for military type tubes during the first quarter of 1945 are about 2,500,000 tubes in excess of the amount produced for the military during the last quarter of 1944. WPB anticipates that in July or August, after the industry has completed its expansion program and has scheduled all military production, more civilian tubes may be available than at present.

Sculpta Test

SCULPTA HOSIERY, New York, has appointed Blackstone Co., New York as agency for a test campaign in New York. A trial spot radio drive, started Jan. 22 on WHN WMCA WNEW, consisting of participations on variety and recorded music programs and on WOV with announcements, and will run for four weeks. Special stocking offers are being made to check the radio pull, including a mail order on "business sheers." Commercials aim primarily to establish the "Sculpta" name for hosiery. Firm has 13 shops in New York and distribution in five additional cities.

SPEAKING from his home, the Most Rev. Joseph F. Rummel, Archbishop of New Orleans, officially launched the Youth Progress Program's \$2,050,000 campaign to build recreational and educational facilities. Program was originated by WWL and was carried by WSMB WDSU WNOE WJBW New Orleans and WJBO Baton Rouge.

The Fourth Dimension in Radio-Time

The Ether of Space comprises the *first three dimensions* of Radio—and here WCAU leads all other Philadelphia Stations. Its 50,000 Watts are not confined to a specific pattern. They are “Free Watts” surging out in a great Tidal Wave of Power *in all directions* over a clear national channel—giving “Umbrella Coverage.”

Now *multiply* WCAU’s “Umbrella Coverage” by Radio’s *fourth dimension—Time*. Multiply the “extra millions” of people under the WCAU Umbrella by 365 days and nights and you have a stupendous figure—just about what either Scientists or Sinatra Fans would call “Solid Radio.” For full coverage use WCAU’s Umbrella.

DIVIDEND of 87½ cents per share has been declared by RCA on the outstanding shares of \$3.50 cumulative first preferred stock for the period from Jan. 1 to March 31, 1945 and payable April 2 to holders of record at close of business March 5.

ASSOCIATED Engineering & Research Co.'s has been formed at 150 Broadway, New York, as an engineering and research organization representing the services of inventors, engineers, researchers and market analysts.

Waste Paper Drive Enlists Air Time

Periodical Pub. Assn. Seeks Increase In Wood Pulp

WITH newspaper trade efforts to increase the nation's available supply of paper concentrated on space promotion, Periodical Publishers National Committee, Washington, is utilizing radio to round out coverage for two major projects—waste paper salvage; and encouragement of farmers to cut farm-lot wood to add to the pulpwood supply.

Current radio schedule for the latter drive, introduced last July, continues, with some 42 stations carrying participations in farm programs and adjacent spot announcements. Cycle will be up for renewal the end of March.

Aimed at Housewives

Committee's newest radio campaign, designed to enlist housewives' cooperation in waste paper salvage, started last week (Feb. 5) and covers 67 stations in the area stretching from Maine to Maryland, and from Minnesota, Iowa and Missouri to the Atlantic coast, with greatest concentration east of Pittsburgh. Committee bought participations on women's interest programs wherever possible, or spot announcements on a five-times-weekly basis as a second choice. Women listeners are told "Your waste paper is not waste paper unless you waste it."

Schedule, placed by Alfred Sidney Noble, New York follows:

CONGRATULATIONS on affiliation of WFBL Baltimore with the Blue Network is extended Hope Barroll (l), executive vice-president of the station, by Mark Woods (c), Blue president. William L. All, WFBL attorney and director, joins in conversation. The 5,000 w outlet joined Blue Jan. 15.

CHURCHES SELECT BEST NET SERIES

JOINT radio committee of the Congregational Christian, Methodist and Presbyterian churches has issued a list of recommended network programs for use by church members, titled "The Best in Radio Listening". Booklet includes 155 programs, under the following headings: Religion, 16; News & Public Affairs, 44; Education, 22; Drama, 19; Music, 41; Quiz, 6, Variety, 7.

Each program is described in a short sentence and is marked to indicate whether it is suitable for listening by the entire family, mature listeners, young people, children. Dr. James Rowland Angell and Dwight Herrick, NBC; Dr. Harry Summers, Blue; Dr. Lyman Bryson, CBS; James O'Bryon, MBS, assisted in the preparation of the guide, which was edited by Rev. Everett C. Parker, director of the committee.

Programs listed are what might be expected, plus a few surprises, such as two daytime series, *Light of the World and Hymns of All Churches*, among the religious programs; *The Goldbergs* as the only daytime serial among dramatic shows, and *National Barn Dance* among musical programs. Most obvious omissions are Bob Hope, Jack Benny and Kate Smith from the list of recommended variety programs, which includes Frank Sinatra, Bing Crosby, Fibber McGee & Molly, and *Truth or Consequences*.

Meet WHB's Ed Dennis— whose present "client" is Uncle Sam!

At WHB we've always called the sales department the "Client Service Department"—simply because that's the purpose of our salesmen: to serve our advertisers.

For eleven years, Ed Dennis was our top producer. He graduated from the University of Kansas one cool June evening—and went to work for WHB's Don Davis the next morning. Never had any other job, prior to enlisting in the Navy in 1942 as second class yeoman.

It's typical of Ed that the Navy recognized his merits, too, and promoted him recently to Lieutenant (j.g.). Ed says it's awfully good to get back in pants with pockets. We look forward to the day when Victory is won, and we can get Ed back to WHB!

If he were here, instead of at sea, he'd probably be telling you enthusiastically about three great new shows on WHB for 1945.

"SONG and DANCE PARADE"—with RUSH HUGHES. A full hour of popular recordings, broadcast Mondays through Saturdays at 2 p.m.—with popular Rush Hughes of KWK as Master of Ceremonies. This program took KWK from a 1.5 to a 4.9 Hooperating mornings in St. Louis—and it has already won a 4.2 in Kansas City! Quarter-hour participation sponsorships available, 3 to 6 days weekly.

"THE FIRST FIVE"—with RUSH HUGHES. Kansas City's "best seller" records, as reported daily by leading retailers—together with their "platter mates", some fascinating and rhythmic "extras",...and the voice of Rush Hughes! Forty-five minutes nightly, Mondays through Saturdays, at 6:15 p.m. Ask Don Davis for participation availabilities.

"MARY JANE ON PETTICOAT LANE". Daily half-hour shopping program, with style news and music, featuring merchandise offered by stores and shops on Kansas City's famous "Pettycoat Lane". Spots available for minute transcriptions about products used by women. Mondays through Fridays. 11:30 a. m. to 12 noon.

If you want to sell the Kansas City market, WHB is your happy medium!

For WHB Availabilities, 'Phone DON DAVIS at any of these "SPOT SALES" offices:

Our Respects to

(Continued from page 50)

tended Canadian conventions as well as those whose wartime activities have routed them to or through Edmonton, which has been an important base of the Northwest Pacific defense system. Radio entertainers as well as U. S. Army personnel have passed through Edmonton on their way north to entertain troops or on war work. CFRN and its facilities have been open to all those visiting the city, and Dick Rice has been host to some of the top radio men and women who have traveled the Alaska Highway in their wartime duties.

Dick Rice has been one of the staunchest champions of the rights of independent broadcasters. Referring to the relationship between privately-owned stations and the government-owned CBC, he stated recently that, "in Canada I feel that the dual system of privately-owned and government-owned radio stations will eventually create a real Canadian broadcasting system. The competition between the two systems has the effect of humanizing the government's broadcast system."

Formerly an ardent golfer, Dick now has time only for his broadcasting station and radio interests, although he is a member of the Edmonton Club. When he is not commuting between Ottawa and Edmonton, or attending meetings of the CAB at Toronto, he does manage to get in some fishing, (in the summer).

Mrs. Rice is the former Justina Charlotte Springer. They have no children.

WBBR Fire

A BLAZE which raged three hours in the rear of the transmitter of WBBR Staten Island, N. Y., kept the station off the air from 10:30 a.m. till 3:15 p.m. Feb. 4. The telephone line to the transmitter was burned out by the blaze. Fire started in the cellar of a 2½ story building at 1111 Woodrow Rd., in back of the WBBR transmitter site and the flames spread before the fire could be brought under control.

Gellard Is Found Guilty In Cigarette Conspiracy

SAMUEL GELLARD, part owner and former secretary of WBYN Brooklyn, New York, on Feb. 6 was found guilty of conspiracy to obtain money for alleged charitable and benevolent purposes by false pretenses after a four-week trial in Court of Special Sessions, New York. Sentence date has been set for Feb. 21. At the time of his arrest last March, Mr. Gellard was operating the Overseas Cigarette Service, an organization which solicited money for the purpose of purchasing cigarettes to be distributed free to servicemen overseas with name of donor affixed to each package.

Price charged for a lot of 1,000 packages by Mr. Gellard was alleged to be considerably higher than the market value. Project was also promoted on several WBYN programs last winter. Salesmen of Overseas Cigarette Service had referred to the organization as OCS, initials used in the Army for Officers Candidate School. No charge was made against WBYN.

History of Communications. Number Twelve of a Series

COMMUNICATION BY THE BLINKER

The Blinker, an adaptation of the Heliograph with its own source of light, has been found invaluable for night and day Naval Communications. While limited by "line-of-sight" transmission and the elements of weather, it has been an aid to our cautious convoys during "radio silence."

When Victory is ours and the days of "radio silences" are gone forever, private citizens again will have electronic voice communication equipment for their yachts and other pleasure craft. With the release of civilian radio bands Universal will again offer the many electronic voice components for use in marine craft.

First 3-Year Licenses Under Extended Period Begin May 1

FIRST GROUP of stations to go on three-year licenses since the FCC extended the period from two to three years more than a year ago will come up for renewal on May 1, William P. Massing, chief of the License Division, disclosed last week [BROADCASTING, Dec. 20, 1943].

Although the Commission adopted an amendment to Sec. 3.34, *Normal License Period*, on Dec. 14, 1943, the operation necessary to make the transition from two-year to three-year licenses involved first a series of license periods ranging from one year to two years, nine months [BROADCASTING, Dec. 20, 1943]. Under the interim system, the first group of stations to benefit by the longer license periods are those whose licenses expire May 1. The second group comes up for renewal on Nov. 1. The transition will be completed on Aug. 8, 1948.

A fortnight ago the Commission granted 26 stations license renewal to Feb. 1, 1946. Nine others were granted licenses to Nov. 1, 1947; three to Feb. 1, 1948, while 62 were placed on temporary licenses until April 1, 1945. In most of the instances where temporary licenses were granted, either the Commission or licensees had not completed minor details in connection with data needed. A few were placed on temporary license to permit completion of negotiations under the FCC duopoly regulation (Sec. 3.35).

License periods under the transition setup, together with the former expiration dates, follow:

Group A—Formerly expired Feb. 1, 1944; transition expiration Aug. 1, 1946, at which time three-year licenses will be granted. Stations operating on these frequencies: 640 650 660 670 680 690 700 710 720 730 740 750 760 770 780 800 810 820 830 840 850 860 870 880 890 900 940 kc.

Group B—Formerly expired April 1, 1944; transition expiration May 1, 1945, at which time three-year licenses will be granted. Stations operating on these frequencies: 930 1000 1010 1020 1030 1040 1050 1060 1070 1080 1090 1100 1110 1120 1130 1140 1160 1170 1180 1190 1200 1210 1220 1500 1510 1520 1530 1540 1550 1560 1570 1580 kc.

Group C—Formerly expired June 1, 1944; transition expiration May 1, 1946, at which time three-year licenses will begin. Stations operating on these frequencies: 550 560 570 580 590 600 610 620 630 790 kc.

Group D—Formerly expired Aug. 1, 1944; transition expiration May 1, 1947. Stations operating on these frequencies: 910 920 930 950 960 970 980 1150 1250 kc.

Group E—Formerly expired Oct. 1, 1944; transition expiration Nov. 1, 1945, at which time three-year licenses begin. Stations operating on these frequencies: 1250 1270 1280 1290 1300 1310 1320 1330 1350 1360 kc.

Group F—Formerly expired Dec. 1, 1944; transition expiration Nov. 1, 1947. Stations operating on these frequencies: 1370 1380 1390 1410 1420 1430 1440 1460 1470 1480 1590 1600 kc.

Group G—Expired Feb. 1, 1945; transition expiration Feb. 1, 1946, at which time three-year licenses begin. Stations operating on 1230 kc.

Group H—Expires April 1, 1945; under transition will be renewed to Aug. 1, 1946, at which time three-year licenses begin. Stations operating on 1240 kc.

Group I—Expires June 1, 1945; under transition will be renewed to Feb. 1, 1947, at which time three-year licenses begin. Stations operating on 1340 kc.

Group J—Expires Aug. 1, 1945; under transition will be renewed to Aug. 1, 1947,

at which time three-year licenses begin. Stations operating on 1400 kc.

Group K—Expires Oct. 1, 1945; under transition will be renewed to Feb. 1, 1948, at which time three-year licenses begin. Stations operating on 1450 kc.

Group L—Expires Dec. 1, 1945; under transition will be renewed to Aug. 1, 1948, at which time three-year licenses begin. Stations operating on 1490 kc.

Ideas Asked for Change Of Communications Act

A CALL to members of the Federal Communications Bar Assn. to submit suggestions for amendment of the procedural provisions of the Communications Act or of the FCC's rules and regulations was issued last week by Eliot C. Lovett, who took office a fortnight ago as president of the Association. During this year, Mr. Lovett pointed out, renewed legislative efforts are in prospect, aiming toward amendment of the law. Regardless of the outcome, he added, it is reasonable to assume that the rules and regulations of the FCC will continue to be amended from time to time as need arises.

Suggestions from members of the bar should be specific and supported by reasons. Those dealing with proposed amendments to the rules, he said, should serve to expedite consideration of matters by the Commission and to eliminate many requirements which experience has shown to be of doubtful necessity. All suggestions must be for the ultimate purpose of enabling the Commission or the court more rapidly and effectively to render decisions which will further the purposes of the Communications Act, he said.

Suggestions should be mailed to the Association's headquarters at 729 - 15th St., N.W., Washington 5, D. C.

CONSOLIDATED ROYAL Chemical Corp., Chicago (Krank's Shave Kreem) is sponsoring a transcribed 5-minute sports commentary, *One for the Book*. Featuring Sam Balter, the program is heard Monday, Thursday, Saturday, 11:15-11:20 p.m. (CWT) on WMAQ Chicago. Contract for 16 weeks was placed by Campbell-Ewald Co., Chicago.

WHEN AND HOW CAN TELEVISION TURN A PROFIT?

Interest in television is assuming flood proportions. Within 18 months after Victory there is every indication that television service will be available to 30,000,000 people . . . and their enjoyment limited only by the plant capacity of set manufacturers.

Prospective television station operators who reserve DuMont telecasting equipment *now* will be prepared to ride a wave of unprecedented popular enthusiasm . . . to ride the swift and inevitable commercial expansion of the greatest scientific advance of our

time. Valuable prestige and good-will are natural windfalls of the early bird.

A fortune is not required to build a television station, nor years to "break even." DuMont designed and constructed 3 of the 9 television stations on the air today. The low operating cost and rugged dependability of DuMont equipment has been demonstrated week-in and week-out for 4 years. When and how television can turn a profit are questions to which DuMont holds factual answers. Would you like to hear them?

TELEFLASH! More than 90 requests for permission to construct and operate commercial television stations are on file with the Federal Communications Commission. As only a few channels are available for television, the number of stations in a trading area is limited. In consequence, options are already being sought for desirable "time". More than 61 advertising agencies have installed television departments. The value of riding with public interest is attracting more and more advertisers to television every week. They are learning to control the terrific sales impact of this wonderful new medium. Their experiments are well worth watching!

Ship by AIR EXPRESS

LOW COST FOR HIGH SPEED

MORE PLANES are being put into airline service. More space is available for all important types of traffic. For fastest delivery via Air Express, ship as early in the day as possible—as soon as shipment is ready.

LOW COST: 25 lbs., for instance, travels more than 500 miles for \$4.38, 1,000 miles for \$8.75. Thousands of shippers are finding countless ways to employ Air Express with economy and profit.

HIGH SPEED: Your shipments go at a speed of 3 miles a minute—with cost including special pick-up and delivery in all U. S. cities and principal towns. (Often same-day delivery between airport towns and cities.) Direct service to scores of foreign countries. Shipments to 23,000 off-airline points in the United States are handled through rapid air-rail schedules.

WRITE TODAY for "Quizzical Quizz", a booklet packed with facts that will help you solve many a shipping problem. Railway Express Agency, Air Express Division, 230 Park Avenue, New York 17. Or ask for it at any Airline or Express office.

AT&T Announces FM Net Systems

Transmission by Wire, Radio Relay a Future Certainty

FORESEEING the possibility of separate FM networks, AT&T last Thursday announced the Bell System can provide program transmission channels to meet the present and future needs of FM for high fidelity relay by wire lines or by radio relay.

Releasing a 12-page brochure on FM program transmission, AT&T said the Bell System already is furnishing studio transmitter (ST) links to the majority of FM stations now in operation. These permit a frequency band of 15,000 cycles as specified by the FCC. Moreover, it said that present broadcast band carrier telephone facilities readily can be adapted for such circuits by adding special terminal equipment.

Blankets Country

These telephone circuits have been used for years by Bell to send multiple telephone and telegraph messages over a single pair of conductors. The service blankets the country. This entire network already is capable of transmitting the requisite 15,000-cycle quality, while thousands of miles of intermediary telephone routes can be similarly equipped.

Alluding to ultimate network service, AT&T said that whatever the broadcasting industry decides about grouping FM stations and about quality of channels desired, Bell will be to furnish intercity circuits. If means other than wire circuits should prove better or more economical for FM, Bell will use them, the statement said, citing the AT&T's projected microwave radio relay system between New York and Boston. This trial installation, under development before the war, is intended to test broadcast band transmission, including long-distance telephone and television, as well as broadcast programs.

Pouliot Reappointed

DEAN ADRIAN POULIOT of Laval U., Montreal, has been reappointed to another term as a member of the board of governors of the Canadian Broadcasting Corp. His term expired last November, and the re-appointment was announced on Jan. 27 in time for him to attend the first 1945 meeting of the board at Ottawa, Jan. 27-30.

Five Added to CAB

COOPERATIVE Analysis of Broadcasting last week announced that five more firms had become members of the CAB. Included are Henry Souvaine Inc., New York; Spot Sales, New York; Chatham Mfg. Co., Elkin, N. C.; Readers' Digest Assn., Pleasantville, N. Y.; National Distillers Products Corp., New York.

SPECIALLY constructed, this carrier of 100,000 w transmitting tubes has been built by engineers of CBK Watrous, Sask., to take the tubes from storage to transmitter at the station. A similar carriage has been built to house one of these tubes which has passed maximum service and is now on permanent exhibition at the Winnipeg studios of the CBC.

Lockheed Discontinues

LOCKHEED Aircraft Corp., Burbank, Cal., with March 3 broadcast discontinues *The Man Called X* on Blue stations, Saturday, 10:30-11 p.m. (EWT). Aircraft manufacturing firm reportedly will concentrate its advertising appropriation on visual medium in preparation for peace-time production, it was said. Series starring Herbert Marshall will have completed 34 weeks on the March withdrawal date. Agency is Foote, Cone & Belding, Los Angeles.

IN ADDITION to its self-initiated announcement campaign to encourage listeners to take war jobs, WOR New York has started a series to keep the public aware of limited transportation facilities and the need for curtailing travel. Spots are inserted in daily sustaining shows.

"... and it all started with a broadcast over WFDF Flint."

the job of bringing the war home to us..

Clark Lee, INS correspondent, knows Japs—knows them better than any reporter in the field. He was the last American newspaperman to leave Corregidor before Gen. Wainwright's surrender, but not before he had written his memorable accounts of MacArthur's valiant stand on Bataan.

Escaping to Australia, he was in the thick of major Pacific engagements. Aboard a U. S. aircraft carrier, he witnessed the first landing on the Solomon Islands.

Lee reached England for D-Day, covered the landing in Normandy. He scored a 24 hour beat on the Allied capture of Montebourg, German stronghold on the Cherbourg peninsula, another on the Allied

offensives on both ends of the Normandy battle front last July, and still another on the mortal wounding of Field Marshall Rommel.

Back in the Pacific, he was aboard a B-29 and filed colorful eye-witness accounts of the bombing of Tokyo. After several weeks on Saipan, he covered the Leyte campaign. He was among the first to land on the Lingayen Gulf. He is now in Manila with General MacArthur.

From his alma mater, Rutgers University, Lee received, in absentia, a gold medal of honor "for courage and skill as a war correspondent." He's a reporter's reporter—one of the many INS correspondents bringing the war home to us.

The INS wire is a favorite with news editors who appreciate the value of a news service written for radio. In specialized news and feature writing, INS leads in local, national and worldwide services.

Clark Lee.

ONE

...IN READERSHIP among agencies in Chicago

● Of the general advertising publications editorially covering all phases of advertising and marketing, advertising agencies in Chicago invariably register an overwhelming reader preference for Advertising Age.

The latest survey shows that in Chicago more than 4 times as many agency men prefer Advertising Age as "first choice" as the combined total of the next two publications in its field. Previous surveys during the past several years consistently show this same leadership in reader preference. (Tabulation of these surveys upon request—write for a copy.)

In radio advertising . . . Advertising Age regularly carries more broadcasting station advertising than any other general advertising publication.

Advertising Age

The National Newspaper of Marketing

Scophony Foresees Subscription Video

Audience of 1,000,000 Seen In Postwar Period

SCOPHONY Corp. of America is planning a system of "subscription television," Arthur Levey, Scophony president, said last week in expressing approval of the suggestion advanced by J. J. Nance, vice-president of Zenith Radio Corp. that a non-advertising subscription service is the most practicable means of building the television audience to the size which would interest advertisers [BROADCASTING, Jan. 29].

Predicts Big Audience

A patented "scrambling" device developed by Dr. A. H. Rosenthal, director of research for Scophony, would enable the company to rent receivers to subscribers and to supply a program service which could not be received by non-subscribers, Mr. Levey explained. Payment of a small installation charge, plus a weekly fee of \$2.25, he said, should enable subscribers to amortize the cost of the set in about two years. Receiver would be the model demonstrated in London in 1939, showing a picture 24 x 20 inches.

"The Scophony subscription television plan envisages an audience of at least 1,000,000 within a few years after the war and at 50 cents a week, a subscriber fee of \$500,000, or an annual revenue of \$26,000,000 for the program service alone," Mr. Levey sated.

Mennen Additions

MENNEN Co., Newark, as part of a spot radio campaign for shave products [BROADCASTING, Jan. 29] this week starts thrice-weekly quarter-hour newscasts by Bill Haworth on seven CBS Pacific Coast network stations and five-times weekly news periods on WBZ Boston and WLW Cincinnati. Thrice-weekly quarter-hour musical series will be added Feb. 19 on WBBM Chicago. Agency is Duane Jones Co., New York.

KFBK PLAYS BALL

Airs Pacific Coast Games

—Unponsored—

CANCELLING several sponsored hours of airtime each week during the baseball season, KFBK, the McClatchy Broadcasting Co.'s station in Sacramento, will present—unponsored—the Pacific Coast League games for regular listeners and for rebroadcast to the men in the South Pacific. In addition, the *Sacramento Bee*, paper with which KFBK is affiliated, will pay the ball club \$5,000 for broadcast rights.

Station will broadcast all home and road games, using usual advertising time to plug War Bond drives and civic projects. Tony Koester, KFEC announcer, and 1939 trophy winner for his airings of the Pacific Coast games of that year, will give the play-by-play descriptions.

WGN Prize Winners

WINNERS of the \$5,000 first prize in the WGN Chicago studio theatre design contest for the most beautiful and efficient radio-television studio are Arthur Frederick Adams and William F. Clark, both of Chicago. Theatre, seating 2,000 persons will be chief feature of new building, The WGN Chicago Theatre of the Air, to be constructed after the war just south of the Tribune Tower on Michigan avenue. Second prize of \$2,500, third prize of \$1,000 and \$100 prizes were distributed to runners-up.

Oregon Ad Club

PORTLAND Advertising Federation, Portland, Ore. has been expanded to cover the state, and retitled Oregon Advertising Club, according to Arden X. Pangborn, president and managing director of KGW Portland. Provision was made for establishing "community committees" in at least 15 cities throughout the state. Especial purpose is to attract postwar tourists to the state.

Disc Newsletter

WOR New York is experimenting with a recording of station news as a replacement for "WOR Calling" newsletter distributed to former WOR employees now in service. First disc features interviews with station staff by Dave Driscoll, special events and war services director, and runs a half-hour. Later disc, if carried through, will run a quarter-hour. There are some 60 servicemen on the WOR mailing list in all parts of the world.

5-Hr. 'Newspaper' Started by WHOM

Sunday Program May Serve as Format for Regular Service

WHOM Jersey City last Sunday introduced a five-hour "Sunday Newspaper of the Air", which may serve later as the basic format for the entire broadcasting day of the station. Aim is to incorporate into a continuous listening period all the features found in the average newspaper, including news, opinion, criticisms and review in the entertainment field, special events coverage, discussion and public service features.

Five-hour block starts off with an hour-long news analysis by two commentators, with spot news introduction by Alois Havrilla. Next half-hour is devoted to a Columbia U.-Barnard College student forum, *Gateways to Lasting Peace*, with guest speakers representing different members of the United Nations each week. In *Americans by Choice*, 3:30-4 p.m., station addresses itself to foreign language groups, combining English-language dramatizations of their contributions to America with native music. The 4-5 p.m. period is filled by a commercial religious program, scheduled to go off the air in April in line with the WHOM ban on sponsored religious programs.

Schedule

Newspaper critics review their respective entertainment fields, and offer recommendations of the week from 5-6 p.m. Radio is covered by Ben Gross, *N. Y. Daily News*; theatre, Robert Garland, *N. Y. Journal American*; films, Eileen Crielman, *N. Y. Sun*; music, Jack Gunther, *Look Magazine*, the Cowles publication; sports, Irving Marsh, *N. Y. Herald Tribune*; and books, Edith H. Walton, *N. Y. Times*.

Unusual historical points in New York are highlighted by Dale Morgan using interviews 6-6:30 p.m. with newscast. Final half-hour is turned over to various religious faiths as a public service.

MBS in West Virginia

MUTUAL acquires its first West Virginia outlet Feb. 15 when WAJR Morgantown joins as a fulltime affiliate. Station is licensed to West Virginia Radio Corp. and operates with 250 w on 1230 kc. Chief owner is Col. H. C. Greer, president and publisher of the W. Va. Newspaper Publishing Co., publishers of the *Morgantown Post*, and *Dominion News*.

Broth on 26

AMERICAN Home Foods, Morris Plains, N. J., today (Feb. 12) begins a 13-week campaign for Washington Broth on about 26 stations throughout the country, including 22 stations of the Yankee Network, using participating women's programs. Other stations are expected to be added shortly. Agency is Cecil & Presbrey Inc., New York.

CHRISTENED the "Goldfish Bowl" this picture of Studio E of FM station WGFM Schenectady has the very latest equipment in modern fashion and design, possibly setting a trend for FM stations. Glass wall faces out onto the lobby of the WGY building, placing those before the microphone on display at all times, thus assuring buttoned collars and combed hair. Young lady in the control room background is Ray Forster.

WNBT, NBC's New York video station, is presenting a series of four mystery dramas Sunday evenings, started Feb. 11, as live studio programs.

KSL Salt Lake City *Music From the West* program has been renewed by the 59 CBS stations including those in Canada and the Bahamas. Program also is shortwaved to South America.

Hollender on Leave

AL HOLLENDER, executive officer, radio section, Psychological Warfare Division, SHAEF-OWI, with headquarters in Paris, is back in New York for a vacation after a year overseas as assistant to William S. Paley, CBS president, on leave to the OWI as radio chief, PWD-SHAEF. Mr. Hollender had planned to remain in this country for several months but may return overseas shortly, he said last week.

RTPB Panel to Meet

RADIO Technical Planning Board, Panel 2 (allocations), will meet Feb. 14 at 10 a.m. at the Hotel Biltmore, New York, to consider allocation of frequencies below 25 mc and to discuss the advisability of its chairman, Dr. C. B. Jolliffe of RCA, appearing in connection with the oral argument to be held Feb. 28 on the FCC allocations report on frequencies above 25 mc.

SAMMY KAYE

Before "swing and sway music" became a household phrase in radio, the characteristic rhythms of Sammy Kaye were familiar strains on the campus of the University of Ohio where he organized his first swing band. Since then he has established himself as one of the great stylists in modern popular music.

New Quaker Series

QUAKER OATS, Chicago, is replacing *That Brewster Boy*, 8:30-9 p.m. (CWT) on CBS after a 3 1/2-year run, with a new family type program, *Those Websters*, starting March 9. Les Weinrott will act as director and editor of scripts written by Al Miller. Program will be under the supervision of Ros Metzger, vice-president in charge of radio for Ruthrauff & Ryan, Chicago. Plans call for a live audience preview of the program on Thursdays a week before it will be aired.

AFRA HITS DEMILLE ON 'MARCH OF TIME'

AFRA's side of the controversy precipitated by the refusal of Cecil B. DeMille to pay an assessment of \$1 levied by the Los Angeles local of AFRA to defeat a proposed open-shop law in California and his subsequent suspension by the union, was given Feb. 8 by Edward Arnold, board member of the local, and Capt. Hal Berger, member of AFRA's national board, during the *March of Time* broadcast on the Blue. Mr. DeMille had expressed his views on the Feb. 1 *March of Time* [BROADCASTING, Feb. 5].

Stating that "Mr. DeMille, being a responsible citizen and, as he asserts, a responsible union man, somehow never got around to attending a meeting of his union in all the six years of his affiliation," Mr. Arnold continued, "Last week Mr. DeMille made an impassioned plea for democracy but his words were divorced from his action. Why was the voice not heard when the question was democratically discussed and voted upon? Why this lip service to democracy all the while he seeks to violate one of its fundamental precepts—abiding by the will of the majority?"

Berger's Views

Capt. Berger, veteran of both World War I and II, recently returned from service in the South Pacific, when asked by Mr. Arnold what his son, now in a Japanese prison camp, would think of the controversy, said, "I am sure I can speak for him without being presumptuous, because he too was a member of AFRA. When he comes back I want him to have a decent job at a decent salary. Most of us were willing to pay a dollar to help make that possible. What our men are fighting for has too often been said for them in an easy generality or with a smug cliché. But this I know they regard as fundamental—the right to a job, to a home, nutritious food, decent clothing, recreation, medical care and education. And it's pretty well agreed that our unions are one of the most effective means by which those rights can be made a reality. Mr. DeMille could afford to destroy his union. I can't."

Grove Labs. Test

GROVE LABS., St. Louis, has appointed William H. Weintraub Co. to handle advertising of "Veds", a new multiple vitamin product, and is sponsoring MBS commentator Fulton Lewis jr. locally on WOLF Syracuse as part of a test campaign in that area.

Star Parade Led NBC '44 Promotion Slide Film, Movie, Show Media Used in Extensive Campaign

GREATEST promotion campaign ever undertaken by NBC and its affiliated stations, the 1944 Parade of Stars promotion during the last three months of 1944 comprised on-the-air promotion amounting to \$432,245, based on lowest station rates; nearly 1,500,000 lines of advertising in 517 newspapers in 343 cities with a combined circulation exceeding 38,000,000; more than a billion impressions made by local displays, including 18,465 car cards, 407 window and other displays and 459 billboards; an eight-week movie trailer campaign featuring network stars, shown to more than 28,000,000 people in 726 theatres in 111 station cities; 407 direct mail pieces distributed to 6,831,365 persons.

Film Shown

These statistics were revealed in a slide film and motion picture presentation by Charles P. Hammond, NBC director of advertising and promotion, Thursday at an exhibit and luncheon at the Waldorf-Astoria, New York, attended by sponsors, advertising agency executives, NBC executives and representatives of the press. Roy C. Witmer, NBC vice-president in charge of sales, spoke briefly at the luncheon.

Pointing out that the 1944 Parade of Stars was designed for flexibility, Mr. Hammond said that every NBC commercial program is covered by the material sent the stations and can be used throughout the year in whatever promotional circumstances may develop. Individual station promotions have included personal appearances of stars, parades, exhibits at state and county fairs and a Parade of Stars month officially proclaimed by a city's mayor, he reported.

Exhibit will be shown Feb. 21 at the Palmer House, Chicago, and April 9 at the Beverly Hills Hotel, Beverly Hills, Cal.

A MICA MINE

IN A LABORATORY

War shortages crop up in strange materials. Mica, for instance. Once seen principally in the windows of stoves, and in small boys' pockets, it is now used extensively as electrical insulation. In some war products, it is virtually indispensable: capacitors for radio, spark-plugs for airplane engines, insulators in electronic tubes.

With demand mounting, manufacturers were desperate. A four-man

technical mission flew to London to help ration the world's supply between the United States and Great Britain. The shortage was serious.

The War Production Board, convinced that much mica was classified too low when judged by appearance alone, asked Bell Telephone Laboratories to develop a new method of electrical tests. The Laboratories were able to do this quickly and successfully

because of their basic knowledge and experience in this field.

The new tests were made available to manufacturers in this country and abroad—the supply of usable mica was increased 60% — and a difficult situation relieved.

Skill to do this and other war jobs is at hand in Bell Laboratories because, year after year, the Laboratories have been at work for the Bell System.

Westinghouse Extends Functions of Agency

WESTINGHOUSE Electric & Mfg. Co., Pittsburgh, which has placed the radio phase of its institutional advertising through McCann-Erickson Inc., New York, has appointed the agency to handle virtually all institutional promotion. Appointment, effective Feb. 1, covers newspaper, financial and technical advertising, youth and educational programs, formerly handled by Ketchum, MacLeod & Grove Inc., Pittsburgh, which is said to retain the industrial relations portion of the account. McCann-Erickson acquired institutional radio in January 1944 after Young & Rubicam Inc. had resigned as agency for this phase. Fuller & Smith & Ross Inc., New York, continues as agency for product advertising, which includes a spot campaign for Mazda lamps.

Sponsor of two institutional programs on NBC and Blue, Westinghouse last Sunday through McCann-Erickson added a Sunday half-hour on WQXR New York, featuring Mme. Olga Samaroff Stokowski, music authority who discusses the classics using musical illustrations, answers listeners' questions and interviews musical personalities. Essentially an institutional series the programs will mention radio sets and other Westinghouse products.

Fred Fear on 20

FRED FEAR & Co., Brooklyn, about March 19 begins its annual campaign for Chick-Chick and Presto Easter egg dyes through Williams Adv., New York. One-minute live spot announcements at varying intervals will be used on 20 stations throughout the country for the two-week period preceding Easter, April 1. Stations include WOR KNX WCKY WTOP WGN WTAM KSTP WHAM WJR KMOX WBZ KSL WCAU KOA WGY WSB KDKA WWL KIRO WHAS.

Blue News Round-Up

ROUND-UP report from Blue Network representatives in various areas abroad started last week on the Blue as a five-weekly quarter-hour program, recorded on receipt and rebroadcast 4:30-4:45 p.m. Vincent Sheean, author, is heard Monday and Wednesday in a report from Europe; Janet Flanner, New Yorker magazine, Tuesday, and Herbert M. Clark, war correspondent Thursday, both reporting from Paris; and Harold Peters, John Bryson and Donald Coe alternating Friday "from abroad".

SLOAN CUTS RADIO BUDGET FOR 1945

MAJOR PORTION of the 1945 advertising budget for Sloan's Liniement will go into newspaper and magazine space, supplemented by spot radio and trade papers, it was announced last week through Wesley Assoc., New York, which took over the account last month from Warwick & Legler Inc., New York.

Plan represents a radical departure from the company's advertising policy for the past 12 years to concentrate promotion in radio, it was pointed out. Dr. Earl Sloan Inc., as a subsidiary of William R. Warner Co., New York has sponsored a sequence of network programs dealing with efforts to combat crime. The last, *Gangbusters*, was discontinued on 91 Blue stations when the company officially shifted agencies in January.

Network radio cannot do the necessary job for Dr. Sloan promotion because "it's a multiple-insertion job," calling for frequent small ads, an agency spokesman explained. Shifting the bulk of the budget to space, Sloan has scheduled straight selling copy in 159 dailies, 35 Negro and six foreign language papers, 2,531 weeklies and 25 national magazines, "spiked" by a series of 140-line human interest ads featuring situations which frequently result in muscular aches and pains. Details of the spot radio campaign have not been completed. Sloan's has been merged with 13 other Warner drug and toiletry companies into a new unit, Standard Labs Inc. [BROADCASTING, Jan. 16].

Action recalls the statement issued by H. J. Heinz Co., Pittsburgh, in announcing last fall plans for a localized national newspaper drive, that bulk of its future advertising would go to newspapers. Statement followed announcement that Heinz would discontinue *Information Please* on NBC Feb. 5. A local newspaper campaign was said to have the advantages of flexibility, allowing wider choice of markets and ability to adapt advertising to changing economic conditions and different preferences in various regions.

Also in the interests of greater flexibility Manhattan Soap Co. dropped one of its two network programs to concentrate on one show and on new, localized drive which would easily be adapted to whatever war contingencies should arise, affecting the product.

IBEW Proposal to Dispose of NABET Would Halt Construction by the Blue

A PROPOSED program to dispose of the National Assn. of Broadcast Engineers & Technicians (NABET) before it becomes, through possible affiliation with the CIO or another labor group, a strong rival of the International Brotherhood of Electrical Workers, was revealed last week in the February issue of the *Journal of Electrical Workers & Operators*, official publication of the IBEW.

In recommendations contained in a memorandum prepared by the chairman of the broadcast advisory committee of the IBEW, during a meeting held Dec. 19 in Chicago, for the consideration of the International Office, the membership was told:

You have all seen the amount of publicity given to this allegedly "independent labor organization" by the trade paper BROADCASTING, the (perhaps unofficial, but nevertheless articulate) mouthpiece of the NAB. This is readily understandable when one considers that it is worth a cool million per year to NAB to keep its ill-wheeled offspring active in the field of broadcast organization.

The threat of NABET, as a labor organization, to the IBEW in the broadcasting field is negligible. The possibility of its membership being used as an entering wedge by some other labor group, such as the IATSE, the CIO, or (this is not outside the realm of possibility) the AFM is, however, not to be dismissed without serious thought . . .

The memorandum urges a three-point program calling for the full organization of the entire radio

station engineering personnel by the IBEW and advocates as part of the plan collaboration with building trades unions to halt construction of additional facilities by the Blue Network, which the union declares will be required by the Blue. "A few experiences of this sort," it is stated, "would indicate to the management of the Blue Network the advisability of establishing friendly relations with the IBEW".

Engineers at Blue and NBC managed and owned stations are members of NABET.

WROX to Imes Sr.

CONSENT was granted by the FCC last week to voluntary assignment of license of WROX Clarksdale, Miss. from Robin Weaver Sr. to Birney Imes Sr. Both were former co-owners of a newspaper in Philadelphia, Miss. for 13 years and applicants for new station at Murfreesboro, Tenn. The latter application was withdrawn in October 1943. Mr. Imes at one time operated WCBI Columbus, Miss., now owned by his son, Birney Jr. who also operates several other local stations.

KMYR Transfer Granted

VOLUNTARY assignment of license of KMYR Denver was granted by the FCC last week from F. W. Meyer, sole owner, to KMYR Broadcasting Co., a new corporation of which Mr. Meyer is president and in which he holds majority interest (250 shares). Albert G. Meyer, station manager, has subscribed to 247 shares at approximately \$100 per share. He now holds a single share. Station operates on 1340 kc with 250 w.

Valentine Broadcast

ST. VALENTINE'S Day will be observed by an American Expeditionary Station of the Pacific Ocean Network through an all-day program dedicated to all Navy men there whose Fleet Post Office number is 928. Those at home can V-Mail music requests to the station care of American Expeditionary Station, Navy, No. 928, FPO San Francisco.

WLEU Challenges Grant to WERC Charges FCC Action Penalizes Petitioner for War Effort

WLEU Broadcasting Corp., licensee of WLEU Erie, Pa., last week filed petition with the FCC, asking the Commission to set aside a construction permit granted the Presque Isle Broadcasting Co., licensee of WERC Erie, to change frequency from 1490 to 1230 kc.

Through Dow & Lohnes, Washington counsel, WLEU pointed out that on Dec. 2, 1941, it filed petition to change frequency from 1450 kc to 1260 kc and to increase power from 250 w to 5 kw days and 1 kw nights, using directional antenna for nighttime, but withdrew the petition without prejudice because of construction freezes.

Petitioner was denied a request to intervene on Feb. 1 by Harry M. Plotkin, presiding officer at the Motions Docket. WERC filed application last June 7 and was granted a construction permit Sept. 12. WLEU asks the Commission to set aside its grant and reconsider the WERC application, contending that the Commission's standards of good engineering practice do not permit allocation of stations to operate in the same city with only 30 kc separation. If the grant is allowed to stand WLEU contended it would be precluded from ever operating on 1260 kc with 5 kw power.

In withdrawing its application of 1941 WLEU contended it had in mind refiling after materials became available, and to that end expended a large sum in legal and engineering fees and purchasing a site for directional antenna. "It does not seem in the public interest that petitioner should be penalized for its efforts to forward the war effort," petition recited. The WERC action also deprives Erie of a regional channel facility on 1260 kc, it continued.

WCBW, CBS television station in New York, will move its program schedule up a day sometime next month, presenting sight-and-sound programs each Wednesday and Thursday in place of the present Thursday-Friday schedule.

NEWSCAST CLEANUP PUSHED IN ST. LOUIS

QUOTING from an editorial in BROADCASTING, the *St. Louis Post-Dispatch* on Feb. 5 devoted its lead editorial, titled "The Revolt Against Radio Plug-Uglies" to the increasing support of the Pulitzer paper's suggestion that networks should lead in eliminating middle commercials and objectionable sponsorship in newscasts.

Below the Fitzpatrick cartoon, the *Post-Dispatch* carried letters from John W. Vandercook, president of the Assn. of Radio News Analysts, and from Raymond Swing, Blue commentator, endorsing the paper's forthright stand. The letters-to-the-editor column also contained numerous references to newscast commercials as a "pet peeve". A California writer mentioned "raw advertising," while a Washington writer referred to "God-awful tripe" and an Illinois man wrote, "The wireless is now of age, and it should be doing better."

The Fitzpatrick cartoon, titled "The Sublime and the Ridiculous" pictures a station labelled "Radio Networks" sending out flashes: "World Crisis news, try our colic cure; Americans enter Manila, buy our pills." Front page of the *Post-Dispatch* carried a box calling attention to the editorial line-up.

McAndrews Shifted

TRANSFERS in the War Dept., Army Air Forces Group, have created new positions for two ex-radio-men now in the Army. Capt. Robert J. McAndrews is now radio officer. AAF Group, replacing Capt. Edmund B. Abbott, who has moved to headquarters office, R a d i o Branch, Office of Information Service, AAF. Both are stationed at the War Dept.

Capt. McAndrews

Before entering the service, Capt. McAndrews was sales promotion director for NBC western division, with headquarters in Hollywood. Prior to that he was with KPO-KGO San Francisco as script writer and promotion manager. Capt. Abbott was formerly with WCCO Minneapolis, WBBM Chicago, and assisted in the organization of KSL Salt Lake City.

DISTINGUISHED service and outstanding civic contributions to Richmond wins for Irvin G. Abeloff, program service manager of WRVA Richmond, a Distinguished Service Key Award, plus designation of "Man of the Year". Rev. Churchill J. Gibson, representing Richmond Junior Board of Trade presents award to Mr. Abeloff.

STATIONS NOT WAR PLANTS, AFM HOLDS

CONTENDING that radio stations are not war plants, and therefore are in the same category as Montgomery Ward as far as the enforcement powers of the War Labor Board are concerned, the American Federation of Musicians last week asked the Board to reconsider the Jan. 13 decision of the Sixth Regional WLB denying the union's request for employment of musicians as platter turners at WJJD Chicago. The AFM appeal cited the decision of the Chicago Federal Court limiting the seizure power of the WLB to war industries.

The Regional WLB directive in the dispute, in turning down the AFM demand for a special staff for platter turning, ordered the station to continue to employ a minimum of 10 staff musicians under a one-year agreement from the expiration of the last contract.

The station also filed a petition for review, pointing out that the quota system in force was imposed upon the station and objecting to the one-year provision as being too short a term. The parties had previously agreed to a three-year contract, the petitions set forth.

Morris H. Siegel

MORRIS H. SIEGEL, 44, former New York insurance counselor who built up his operations by extensive use of radio, died last Monday at his home in Dallas, Texas. Mr. Siegel had been in Dallas since last September with an organization checking public utility rates. His insurance business started failing after a court suit which was later reversed in his favor. According to the trustee in bankruptcy for his firm, the Policyholders Advisory Council, Mr. Siegel was refused time on stations because of unpaid bills and with the radio announcements gone, his business collapsed.

Walter Stone

WALTER STONE, 52, studio director of KBUR Burlington, Ia. and playwright and composer, died at Mercy Hospital Feb. 5 following an illness of about a year. Born in Burlington in 1892, Mr. Stone attended the school of music of the U. of Iowa. He has written and directed a number of plays and songs. More than 250 of his published songs are now being used.

IF YOU SELL FOOD

(OR FURS
OR FUSES)

ASK YOUR DISTRIBUTOR ABOUT KDAL, DULUTH

Duluth is among the first 100 cities in America. The nine-county KDAL primary area (the largest primary area of any of the stations at the Head-of-the-Lakes) contains 376,723 people who spend nearly \$130,000,000 annually. You figure out how many carloads of soup and salad-oil that means!

Thanks to its favorable 610 frequency, KDAL's 1000 watts puts a stronger signal throughout this market than any station, anywhere. For instance, an independent coinciden-

tal daytime survey made in Virginia, Minnesota (60 miles from Duluth, and with an NBC station of its own) showed that KDAL had more than nine times the audience of the other Duluth station, with more than 70% as large an audience as the local Virginia NBC station!

KDAL, Duluth, is the buy for the Head-of-the-Lakes. Don't take our word for it. Ask your local distributor. He knows—and ten to one he'll say "KDAL"!

VANT TO BE AL-O-NE IN ISOLATION (Ky.)?

You would be alone there, practically! Of course there'd be a few hillside farmers for company. But such small Kentucky communities really offer slim business pickings—which is why WAVE prefers to concentrate on the Louisville Trading Area with its plump-pursed residents who spend more in an hour than isolation would in a century!... No, we're not isolationists—and that's why our rates are lower! Ask Free & Peters!

Time Sales

(Continued from page 18)

placed on regional and local stations.

In the magazine group, the greatest gains were made among *specials* such as home, travel, sport and similar magazines where volume rose 34% as compared with the general gain of 18%, according to *Publishers' Information Bureau* reports. The 18% gain in weekly magazine advertising reflected the paper situation. Advertising in women's and in general magazines rose 26% during the year.

Paper Shortage

Newspaper lineage was conditioned by paper problems, as indicated by *Media Records'* 52-city report. Of the 2.5% decline in newspaper lineage, retail volume dropped 1.6% and department store lineage tumbled 6.2%. Automotive volume declined 2.7% and total display advertising 0.9%. The only gains recorded were in general advertising (product advertising), which rose 1.4%, and financial advertising, which increased 3.4%.

According to data gathered by *Publishers' Information Bureau*, increases in national network *gross billings* were general throughout the different product classes. There were no decreases, although several product groups registered only small gains as compared to the preceding year's level. Principal among these were the cigarette, cigar and tobacco classifications, which increased only 1.6% over 1943; laundry soaps and household supplies, which rose 5.9%, and lubricants and fuel, which increased 8.2%.

On the other hand, the trend toward greater diversification of network sponsorship, particularly noticeable during the past two years, gained increased momentum in 1944. A great deal of this diversification came from two classes of products: (1) luxury items and (2) products advertised institutionally in anticipation of postwar buying.

In the first category, jewelry and silverware advertising nearly doubled in volume, sporting goods volume rose 55.1%, travel advertising increased from \$8,424 in 1943 to \$339,631 in 1944, amusement advertising quadrupled, and wine and beer advertising rose 20.5%. Shoe advertising tripled, mainly due to increased volume in women's and children's shoes.

Anticipation of postwar buying is indicated in the following increased use of network advertising by specific product classes: Automotive 30%, mainly in the tire and accessory groups; building material, 26%; house furnishings, especially kitchen equipment and general furnishings, 74.7%; farm machinery, a more than tenfold increase; paints and hardware, especially paints, a rise from \$159,649 in 1943 to \$1,083,148 in 1944, and radios, etc., 52.2%.

Clothing advertising increased

ESTIMATED NATIONAL NETWORK GROSS BILLINGS BY PRODUCT GROUPS

13.5%, confectionery and soft drink volume, 22.7%; drugs and cosmetics, 21.8% and food products, 26.8%.

Featured in the *Yearbook* analysis is a 10-year breakdown of broadcast advertising covering 1935-1944—the first full decade during which volume has been recorded.

Big Gain in Decade

Broadcast advertising *net time sales* have increased approximately 3½ times since 1935—from \$79,617,543 in 1935 to an estimated \$285,100,000 in 1944. National network volume has more than tripled, while local volume has experienced a slightly less than threefold increase. Spot advertising, which first gathered momentum in 1933 and 1934, rose during the period to more than five times its 1935 level—from approximately \$14,000,000 in 1935 to an estimated \$75,000,000 in 1944. Until recently, local advertising had continued to be the laggard and only the recent war years have tended to reverse that trend.

During the past decade, the *Yearbook* analysis discloses, broadcast advertising has experienced only one minor recession. This was in 1938 when generally curtailed busi-

ness activity was reflected in a slight decline in network revenues and in a drop of about \$3,000,000 in local volume.

The 10-year analysis published in the *Yearbook* breaks down broadcast business by type of advertising, commodity groups, geographical volume, and the prospective future course. The *Yearbook* analysis is the eleventh produced by BROADCASTING and follows the formula originally developed in collaboration with Herman S. Hettinger, noted economist and former associate professor of marketing of the U. of Pennsylvania.

Chrysler Musical

CHRYSLER Corp., Highland Park, Mich., beginning Feb. 8 is presenting an all-musical series on its CBS Thursday 9-9:30 p.m. period regularly occupied by *Major Bowes Amateur Hour*. Featuring Morton Gould's orchestra and guest star "graduates" from the *Amateur Hour* the replacement will continue until the Major recovers from an illness. Title is *Major Bowes' Show-er of Stars*. Since the Major's illness, recent broadcasts have been turned over to the March of Dimes, Army, Navy and Red Cross shows. Agency is Ruthrauff & Ryan Inc., New York.

¹ Shift of WOR from N. J. to N. Y. makes analysis of individual states impossible.
² Miss. and Ark. combined in FCC Reports of early years.
³ Combined with Nevada.

Radio's New Technique

RADIO WAR correspondents are developing reporting techniques quite different from those of the newspaper correspondents, according to Ned Calmer, CBS reporter just back from five months in Europe. Handicapped by having to compress his story into a minute or two daily, or a slightly longer period once a week, and having to go on the air at a certain time, in contrast with the newspaperman who can file his stories as frequently and at as great length as the news warrants, the radio man is becoming a describer or interpreter of events rather than a straight reporter, Mr. Calmer said, giving his listeners the kind of informal and informative report he would make if he were physically present in their living rooms.

Ruling Reversed

APPELLATE Division of New York Supreme Court on Friday reversed a decision denying the examination of Edward J. Noble, Chairman of the Board of the Blue Network, before the trial of suit of Donald Flamm against Mr. Noble now pending in the New York Supreme Court. Action is for \$2,925,000 damages, based on Mr. Noble's purchase of WMCA New York from Mr. Flamm. Handelman & Ives, attorneys for Mr. Flamm, announced they will examine Mr. Noble at the earliest possible date.

Committee Complete

WITH the addition of Sen. Hugh B. Mitchell (D-Wash.) and Sen. Frank T. Briggs (D-Mo.) membership in the New Senate Interstate Commerce Committee is now complete. Sen. Mitchell replaces Sen. Bone of the same State and Sen. Briggs is in Vice-President Truman's former place.

Price Thanks Newsmen

"THANKS and appreciation" to the news broadcasters and editors of America were offered by Director Byron Price of the Office of Censorship for their conduct in regard to the current Big Three Conference.

I.T. ROBERT ALLER, engineer of WFBL Syracuse and communications officer in the New York State Guard, was temporarily released from station duties when the State Guard was mobilized to assist in the regional fuel crisis.

BOB FRIEND and WILLIAM MOATS have joined WWNC Asheville, N. C. as transmitter engineers.

PAUL R. DOUGHERTY, former technician in the Army Air Forces, is now with the engineering department of KYW Philadelphia.

VARVARA YAKOUNCHIKOFF, former chief engineer of WWRL Woodside, N. Y., has joined the engineering department of WLIB Brooklyn.

ROBERT STAAB, released from the Army, has been added to the engineering staff of WCKY Cincinnati.

FRANK FIGGINS, released from the Army, has resumed his former post as NBC Hollywood maintenance supervisor.

JOHN W. KIRSCHNER, Cleveland sales representative for the RCA tube and equipment division, has been named sales representative for the East and will work under direction of L. S. Thees, manager of the equipment tube sales section at the RCA plant at Harrison, N. J.

Harlan Starkey Is Named Chief, NAB News Bureau

NEWS BUREAU of the NAB has been restaffed with Harlan (Bruce) Starkey as chief, the NAB announced last week. He replaces Walt Dennis who resigned in October 1943. The Bureau will provide broadcasters with general information, historical data, educational and promotion material.

Mr. Starkey started in radio with WCHS Charleston, W. Va. in 1932 as commercial manager. For the last ten years he has been a freelance writer and publicity counsel in Chicago. Before his radio affiliations, he was a reporter with the *Miami Herald* and the *Miami Tribune*, was associated for several years with West Virginia papers, while maintaining a part-time contact with the R. M. Ludwig Advertising Agency of Wheeling, W. Va.

Gum Labs Plan

GUM LABS Inc., Clifton Heights, Pa., will sponsor a new half-hour show, as yet not titled, beginning March 18 for Ivoryne chewing gum, 1:30-2 p.m. on 64 Mutual stations, and will drop *Hello Sweetheart*, *HeLo* from the Blue March 10. The story in the Jan. 29 BROADCASTING was incorrect. Program will originate in Chicago. Agency is McJunkin Adv., Chicago. Jim O'Bryon, head of publicity for MBS in New York is now arranging a contest to have radio editors choose a new name for the show.

Treasury Names Carr

APPOINTMENT of Eugene Carr, assistant to G. A. (Dick) Richards, president of WJR Detroit, WGAR Cleveland, and KMPC Hollywood, to an executive post in the Radio Section of the Treasury War Finance Division, was slated for announcement this past weekend by Treasury. Mr. Carr's services are being loaned to WFD by the Richards business interests.

LeBrun to WCKY

HARRY A. LeBRUN, until recently commercial manager of WNOX Knoxville, has been appointed national sales manager of WCKY Cincinnati, Kenneth W. Church, executive vice-president of the L. B. Wilson station, announced last week. After graduating from Syracuse U. in 1933, Mr. LeBrun joined WHEC Rochester as newsman and announcer. He has been in radio since that time.

U. S. Court Gets Fly's WOW Brief

IN HIS first case since returning to private life from chairmanship of the FCC, James Lawrence Fly submitted a brief to the U. S. Supreme Court Feb. 7 on a suit involving the transfer of WOW Omaha to Radio Station WOW Inc. from the Woodmen of the World Life Insurance Soc.

The case is scheduled to be heard during the week of Feb. 26. It is before the Federal court on certiorari to review the judgment of the Supreme Court of Nebraska reversing the judgment of the District Court of Douglas County, Neb. Dr. Homer H. Johnson, a certificate holder in the insurance company, had started the action to enjoin the transfer.

Mr. Fly's brief submits that the judgment should not stand since it invades the FCC's jurisdiction and annuls its order contrary to Section 402(a) of the Act. The decision, he contends, rests upon public interest questions which were either directly involved in the approval of the transfer or which if presented to the Commission would have been passed upon as relating to those questions then pending before that body.

On the basis of this, the brief contends, the suit "could not be maintained in a State court, for in addition to nullifying administrative action contrary to the Federal scheme for a single, unified control of broadcasting, the decree is predicated upon the decision of public questions directly at odds with that of the administrative body itself."

"Now, if we were only staying at

THE ROOSEVELT"

When you stop at The Roosevelt you don't risk getting marooned like this. For you'll be within walking range of Manhattan's Midtown activities. Direct passage-way from Grand Central Terminal to hotel lobby. A reservation at The Roosevelt liquidates a lot of bother.

Rooms with bath from \$4.50.

Vandenberg Bill

(Continued from page 15)

would expedite enactment of the Vandenberg Bill which he feels provides a guarantee against interference of Interlochen broadcasts. The AFM blacklisting of the school, he asserted, is merely a "subterfuge".

Despite Mr. Petrillo's action, Dr. Maddy said, the National Music Camp will carry on. He said that 28 of the faculty of 50 are AFM members and will be affected by the blacklisting. If necessary, he explained, the school will engage non-union musicians. He said the school had 650 fulltime students last summer, about two-thirds coming from high schools and one-third from the university.

The AFM action on Interlochen was regarded in some quarters as a fortunate development in that it may mobilize sentiment in behalf of legislation to control labor union monopolies. Reflecting this feeling, the *New York Times* editorialized on Thursday that "Congress will never do anything effective to curb Mr. Petrillo until it sees him as a symptom of a larger situation rather than as merely an obstreperous individual. It will never do anything effective against Mr. Petrillo's policies until it has the courage and clarity of view to deal with the whole situation of which his personal dictatorship is merely a part."

The *Times* continued:

This action points to the two-edged power of Mr. Petrillo. He cannot only ruin any radio station that disobeys any of his commands, by ordering his musicians not to work for it, he can also ruin any individual musician by suspending him from membership and making it impossible for him to earn a living at his profession. Thus Mr. Petrillo's power rests not merely on his ability to coerce the employer but on his ability to force virtually every musi-

cian into his union and to coerce every musician. As long as existing law permits and encourages Mr. Petrillo and other labor leaders to coerce the individual worker, the essence of their irresponsible private power will remain. Even if it is curbed in one minor manifestation it will continue to operate in a hundred other directions. What is required to curb the Petrillos is not a bill dealing with one minor abuse but a re-examination of the whole existing body of Federal labor law.

AFRA, WGN Settle

FOUR-YEAR controversy between WGN Chicago and American Federation of Radio Artists involving broadcasts AFRA claimed were commercial because of plugs for the *Chicago Tribune*, owner of the station, was settled Feb. 8 by Ray Jones, secretary of AFRA and Frank Schrieber and Andrew Hamilton, manager and attorney respectively of the station after conciliating without arbitration. WGN agreed to pay the talent fees on seven programs out of the dozen whose commercial status was at issue. The payment is retroactive to from six months to two years, depending on the starting date of the copy on the seven programs. Only sustaining fees had been paid previously.

Big Three Bulletin

BULLETIN on the Roosevelt-Churchill-Stalin meeting issued in Washington for release at 4:30 p.m. Wednesday was broadcast by the four nationwide networks at that time, with NBC taking three minutes from the Bayer Aspirin program, *Lorenzo Jones*, to read the text to its listeners. CBS followed the bulletin by switching to Washington for a report on the Capital reaction given by Bill Henry, and then to London where Eric Sevareid described British reaction, canceling a quarter-hour sustainer for the purpose. Blue also killed its scheduled sustainer to broadcast comments on the Big Three meeting by Baukhage, Earl Godwin, Dave Wills and Ray Henle from Washington.

HERE'S AN OPPORTUNITY

A net-work-affiliated radio station, recognized as one of the leaders in the field of public service, wants a man with newspaper training and background who can adapt his talents and experience to the requirements of radio. The job will require an ability to create and build programs around current civic and community problems—programs designed to stimulate thought and arouse public interest. The objective is a sincere desire to give listeners the most complete understanding of every local situation affecting public welfare. This is not a "crusade".

Here's an opportunity to become a vital force in a midwest city of 100,000 population—a chance to win prestige and build a permanent executive job.

CIRCLE 7-0193**

Continued Probe of FCC Is Demanded By Wigglesworth in Speech to House

CHARGING that "trafficking in Government franchises with Commission approval still continues," Rep. Richard B. Wigglesworth (R-Mass.), last Wednesday, renewed his demand for continued Congressional investigation of the FCC and for new radio legislation.

Referring to the report of the House Select Committee to Investigate the FCC, of which he was a member [BROADCASTING, Jan. 8], Rep. Wigglesworth asserted on the House floor that the investigation "made clear the imperative need for immediate improvement in standards of administration and for remedial legislation." Both are "essential to impartial and efficient regulation and to equality of opportunity and freedom of speech over the radio," said the Congressman who dissented from the Committee's majority report.

Questions Education Office

The Select Committee investigation "served to disclose, and I hope, to eliminate, certain abuses of the Commission's licensing powers, condonation of illegality, actions based on political considerations, misrepresentation to the Congress, unlawful solicitation of support for appropriations, and falsification of records," declared Rep. Wigglesworth.

Referring to hearings by the Appropriations Subcommittee on Independent Offices, of which he also is a member, Rep. Wigglesworth called for scrutiny of the part the U. S. Office of Education plans to play in FM, as disclosed at the hearings. His speech was in connection with the Independent Offices Appropriations Bill (HR-1984) for the 1946 fiscal year.

"The record indicates further condonation of illegal operations by a licensee known to the Commission for from two to three years," said the Congressman. "The record indicates no definite action in respect to concealed ownership reported to the Appropriations Committee by the Commission two years ago in respect to Station WOKO. The record indicates postponement until after election of hearings on the recommended revocation of licenses of the Kennedy stations in West Virginia, on the basis of false statements and concealed ownership.

"The record raises the question if the Commission has not completely ignored both tax evasion and false statements under oath by Commission licensees. Tables furnished by the Commission show that the transfer of stations or the control of stations for values far in excess of physical values and trafficking in Government franchises with Commission approval still continues."

Rep. Wigglesworth charged that figures furnished the Appropriations Committee by the FCC as to

station costs "do not agree with figures furnished by the Commission to the Select Committee investigating the Commission only a few weeks ago." Calling for continued investigation of the FCC, Rep. Wigglesworth asserted:

"Many important matters, including alleged abuses by the Commission of its licensing powers in respect to many radio stations were not considered. An abundance of evidence collected by the Committee's staff was not heard. Some of it is sensational. Only by continuing the investigation can the work undertaken under the instructions from the last Congress be carried to a proper conclusion."

Revocations Recommended

During hearings on the Appropriations Bill on Jan. 18, a report of which was released last Monday, Rep. Wigglesworth questioned Commissioners and Commission executives at length regarding WGST Atlanta, WOKO Albany, N. Y., the Capt. John A. Kennedy stations in West Virginia and the Arde Bulova stations, all involved in the House investigation.

Rep. Wigglesworth asked about taxes and wanted to know if the Commission would "worry" about a buyer who proposed to charge the cost of "buying a business to operating expense" but Assistant General Counsel Rosel H. Hyde replied the FCC "has no jurisdiction to regulate the business of broadcasting stations and, accordingly, has no interest in what way they handle their accounts."

RESOLUTION authorizing the broadcast of Congressional proceedings, similar to those which died in the 78th Congress has been introduced in the House by Rep. Coffee (R-Wash.).

G-F Hits Canada Snag

GENERAL Foods Corp., New York, has dropped plans to place the *Kate Smith Show* in Canada. Starting date for the program, to have been on the CBC Dominion Network, was postponed numerous times, until the case came up before the CBC Board of Governors at Ottawa. Cause for the delay was said to be CFRB Toronto, which did not want to displace a long-standing church service program for the Smith show. CBC met with CFRB officials and members of the National Religious Advisory Council at Ottawa, and decision reached was that no Toronto station would carry the General Foods program and religious broadcasting in Toronto would not be disturbed.

Shadow Expands

ACME White Lead & Color Works, Detroit, which sponsors *The Shadow* locally on 35 Mutual stations Sun. 5:30-6 p.m. will sponsor the transcribed edition on seven additional stations (KFXJ KTRI WMBH WCMI WGTC WGBR WFNC). Agency is Henri, Hurst, McDonald Inc., Chicago. With seven other stations taking the recorded series for clients, including Nehi Corp. on KALB, the program will be carried commercially in live or transcribed form on 232 stations, according to Charles Michelson, New York, producer and distributor.

CBS Net Up

CBS consolidated net earnings for 1944 were approximately \$4,678,000 (equivalent to \$2.72 per share) Frank K. White, vice-president and treasurer, reported in a preliminary statement to stockholders issued Feb. 7, 1944. Earnings compare with a consolidated net of \$4,535,900 (equivalent to \$2.64 per share) for 1943, and are after providing \$8,250,000 for estimated Federal income and excess profit taxes. CBS board, meeting Feb. 7, declared a cash dividend of 40 cents a share of class A and B stock of \$2.50 par value, payable March 2 to stockholders of record Feb. 16.

House Holds 1946 FCC Budget Down

Appropriations Group Pares \$201,600 From Request

SLASHING the FCC budget request by \$201,600, the House last Thursday passed the 1946 fiscal year Independent Offices Appropriations Bill (HR-1984), giving the Commission \$5,005,400, a reduction of \$1,306,943 under the 1945 fiscal year appropriation.

Tightening the executive branch's purse-strings, the House lopped \$76,281,221 from the overall budget requested by President Roosevelt for the Executive Office and independent executive bureaus, boards, commissions and offices. The President had requested \$3,295,089,718.

Defense Request Granted

Contrary to last year's action, when Congress cut deeply into the FCC national defense activities (Foreign Broadcast Intelligence Service and Radio Intelligence Division), the House granted the FCC its full request of \$2,430,000 for national defense activities. That was a voluntary cut of \$1,761,143 under the \$4,191,143 granted for the 1945 fiscal year.

The FCC for the next fiscal year sought \$2,756,000 for normal activities, an increase of \$651,500 over the amount appropriated for the 1945 fiscal year. That amount was reduced by the \$201,600 to \$2,554,400, still giving the Commission \$449,900 more than it had in the current year for normal activities.

The Appropriations Committee said testimony before its subcommittee on Independent Offices, headed by Rep. Woodrum (D-Va.), "was to the effect that a tremendous increase in standard and FM broadcast applications is anticipated; that applications for new television stations are increasing; and that facsimile broadcasting, international broadcasting, and experimental and relay broadcasting are subjects which will require immediate consideration at the conclusion of the war."

The proposed increase in funds for "regular activities" will enable the Commission to utilize a considerable portion of the trained personnel no longer required under the national defense appropriation, the Committee reported.

There was little debate on the bill, which was reported out last Monday and taken up first on Wednesday.

WMAQ Rate Boost

CITING increased operating expenses and increase in audience, WMAQ Chicago effective March 1 will increase its base daytime rate from \$400 to \$450 an hour and evening rate from \$800 to \$900. Other increases will be in proportion. Time bought before March 1 will not be subject to the new rate until Feb. 28, 1946.

"The New Manager Wants Me to Report on Our Sporadic E Interference!"

This...
Started A National Health Habit!

IN 1916, the California Fruit Growers Exchange began advocating what since has become a national health habit—drinking the fresh juice of ripe oranges. Today, over 75% of the consumption is in juice form and a seasonal market has been extended throughout the year.

More significantly, the Sunkist campaign which began in 1907 showed that national advertising of a farm product could greatly benefit thousands of farmers.

Oranges in those days were not "accepted" as a nutritious food. Out of the acceptance developed by this advertising grew mass distribution, and the citrus industry.

In the DISTRIBUTION DECADE ADVERTISING must start many new habits!

THE big job after Victory is going to be *distribution*—moving the products of industry into the hands of the consumer quickly, efficiently, economically. And *that* is a job for Advertising!

For *producing* will present no problems. The manpower, money, manufacturing facilities and materials will be on hand in profusion. But to put these to work in adequate quantities, we, as a nation, will have to consume 40% more than in pre-war years!

That's a large order, even for the Advertising that has worked such 'miracles' in the past. New national habits and desires will have to be instituted; new uses invented for established merchandise; new products devised.

Agency men with an eye to the future are already perfecting their plans for the Distribution Decade. So are we. Here at the Nation's Station, we're uncovering many facts that will interest you about the great 4-State Market that is WLW-land!

RCA 9C22, air-cooled twin of 9C21, offers high performance to broadcasters.

THIS is the story of a new tube design that "rewrites the rule book."

The tube is the new RCA 9C21, a high-power, water-cooled triode . . . which, together with its air-cooled twin, the 9C22, offers important advantages to broadcasters. In designing these tubes, RCA engineers have established new concepts of high-power, high-frequency tube design.

Their goal was higher frequency performance for tubes of high-power design. Drawing upon their years of experience in designing and building tubes, they worked out unique innovations that produced the results they sought.

For example, one of these innovations is an *entrant metal header* which allows short, internal filament leads, and a short, low-inductance path to the grid . . . highly important factors in improving high-frequency performance. For industrial oscillator service these new design features, shown here in an "X-ray" view, give the 9C21 a 50 kw output at a maximum frequency of 25 Mc, and a 100 kw output at 5 Mc or below. In high-level modulated service (at 5 Mc or below) the 9C22 provides 38 kw maximum output. Thus a pair of 9C22 tubes may be used conservatively as a tube complement for the output stage of a 50 kw transmitter.

A better tube, for better broadcasting . . . and another example of the engineering leadership that makes RCA transmitting tubes the standard of comparison in the broadcasting industry.

THE FOUNTAIN-HEAD OF MODERN TUBE DEVELOPMENT IS RCA
